

WHO WE REALLY ARE

**BOLUN Clothing Display Furniture Co.,Ltd** – founded in 2004.

Starting from 30000 square feet factory now become 210000 square feet manufacturing base with 186 workers, 82 pieces working machines, 3 huge stock products warehouse, 18 rich experience designers and cooperated with over 3000 stores all over the world. In year 2012, we do big investment to buy 2 pieces vacuum electroplating furnace from Germany to upgrade the product quality and capacity. From raw material selecting, cutting, caving, polishing, we care all the steps well to consider our products as Article.

During years development, we are leading the fashion trends of clothing display furnitures in China and being one of the standard creator in this field. Keep working, Non stop, Move further!

# Our Team

## Team Profile:

China most influential team of clothing display furniture has won many honors in the industry by its creative design and has an important position in the international design community. The beauty of clothing store belongs to customers, and the joy of creativity belongs to us! Make the product worthwhile, make your dream store, and make the details perfect is our purpose.

Every product has passed 28 strict production procedures, only rigorous attitude, meticulous craftsmanship, never ignore any details. Quality is our basis, our principle, our life, we have to pay extraordinary human and material resources, but quality is the source of growth, this is the root of everything.

Our workshop strictly implements the "7S" standard, ensuring that the production specifications operate ISO14001 environmental certification standards and ISO9001 quality system certification standards efficiently.

There are 5 factories in China have their own electroplating furnace, only three of them the furnace are imported from Germany, we have the honor to own 2 pieces Germany vacuum electroplating furnace that ensure will not drop color at least 8 years and deeply in high glossy and high matte.

# ANCIENTRY SERIES

A-XK-01

Price:96 USD

Size:600\*400\*2300mm

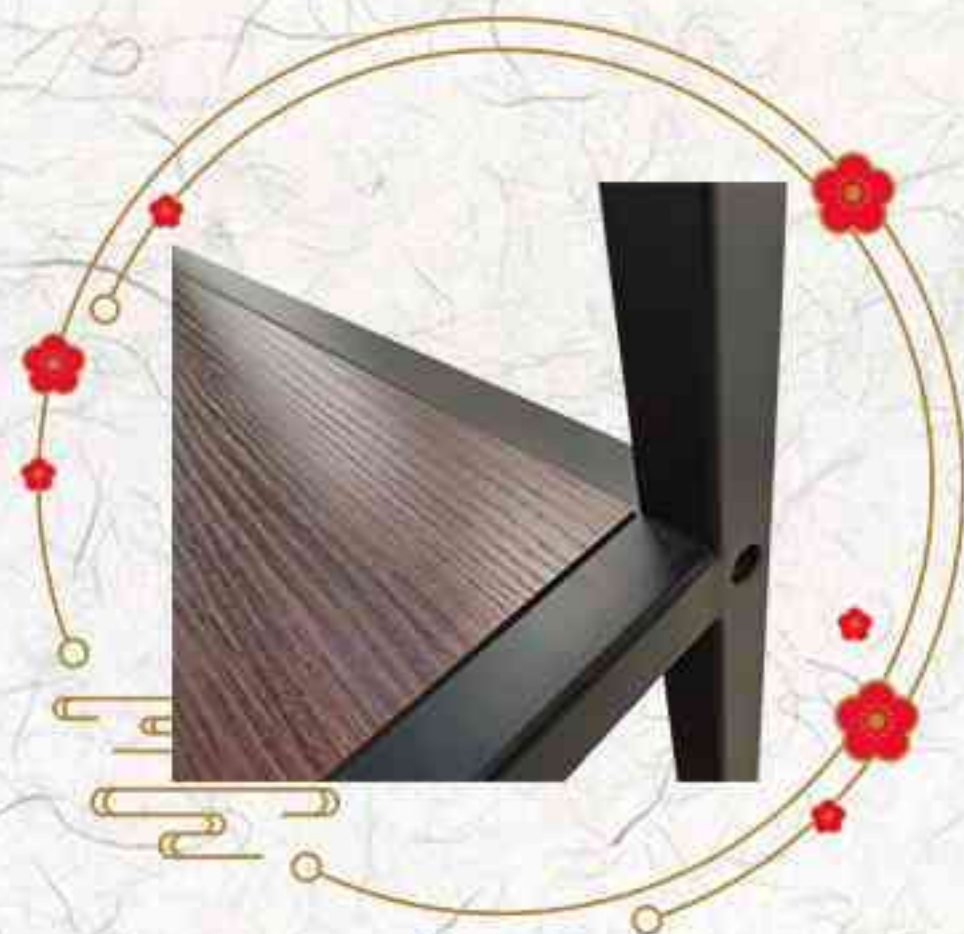

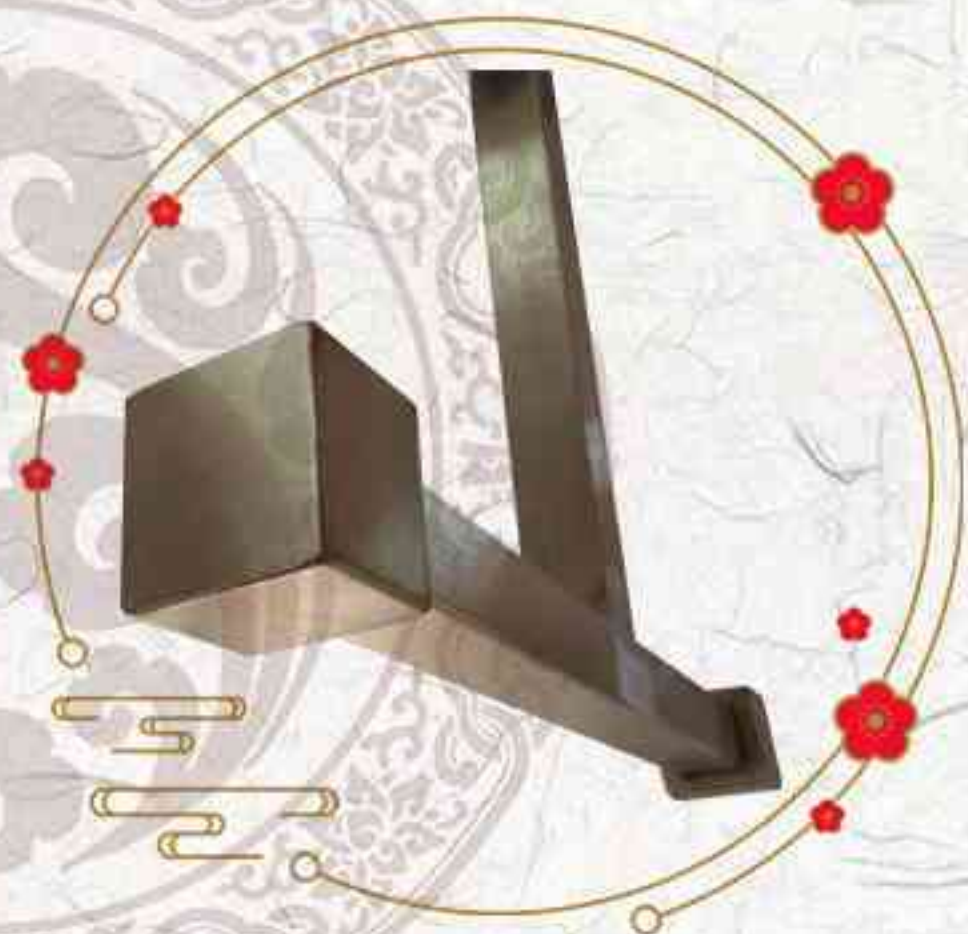

Weight: 18 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# ANCIENTRY SERIES

A-XK-02

Price:122 USD

Size:1200\*400\*2300mm

Weight: 22 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# ANCIENTRY SERIES

A-XK-03

Price:196 USD

Size:1800\*400\*2300mm

Weight: 33 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# ANCIENTRY SERIES

A-XK-04

Price:125 USD

Size:600\*400\*2300mm

Weight: 26 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# ANCIENTRY SERIES

A-XK-05

Price:72/79 USD

Size:1200\*400\*1500mm/1200\*400\*1650mm

Weight: 12/13 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# ANCIENTRY SERIES

A-XK-06

Price:125 USD

Size:1800\*400\*1850mm

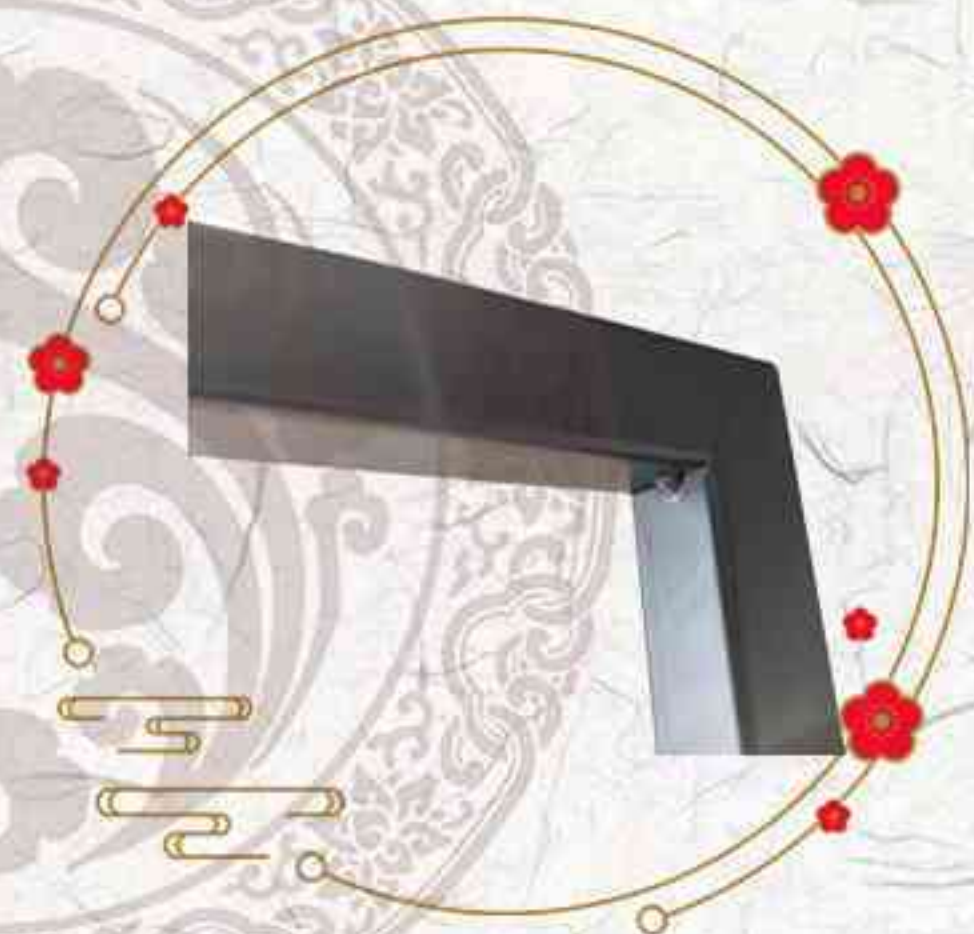

Weight: 20 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# ANCIENTRY SERIES

A-XK-07

Price For Two:178 USD

Size:380\*600mm/450\*700mm

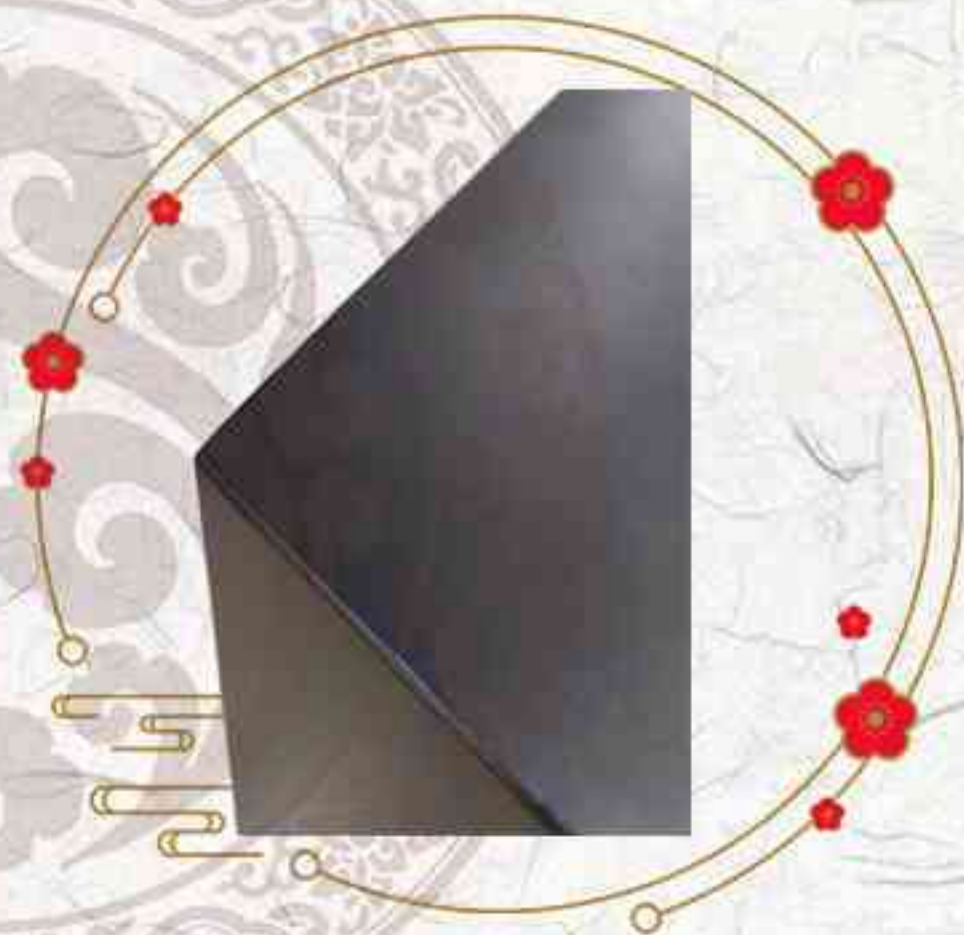

Weight: 26 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-01

Price:134 USD

Size:638\*430\*2500mm

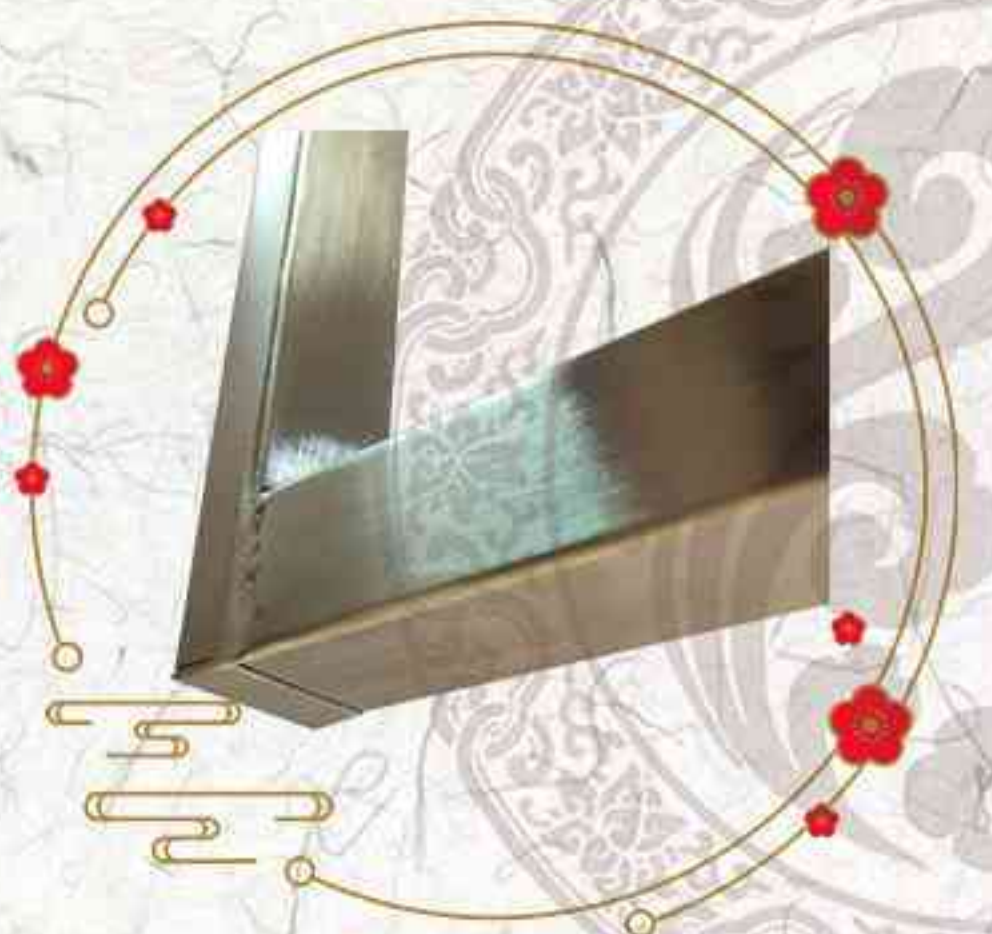

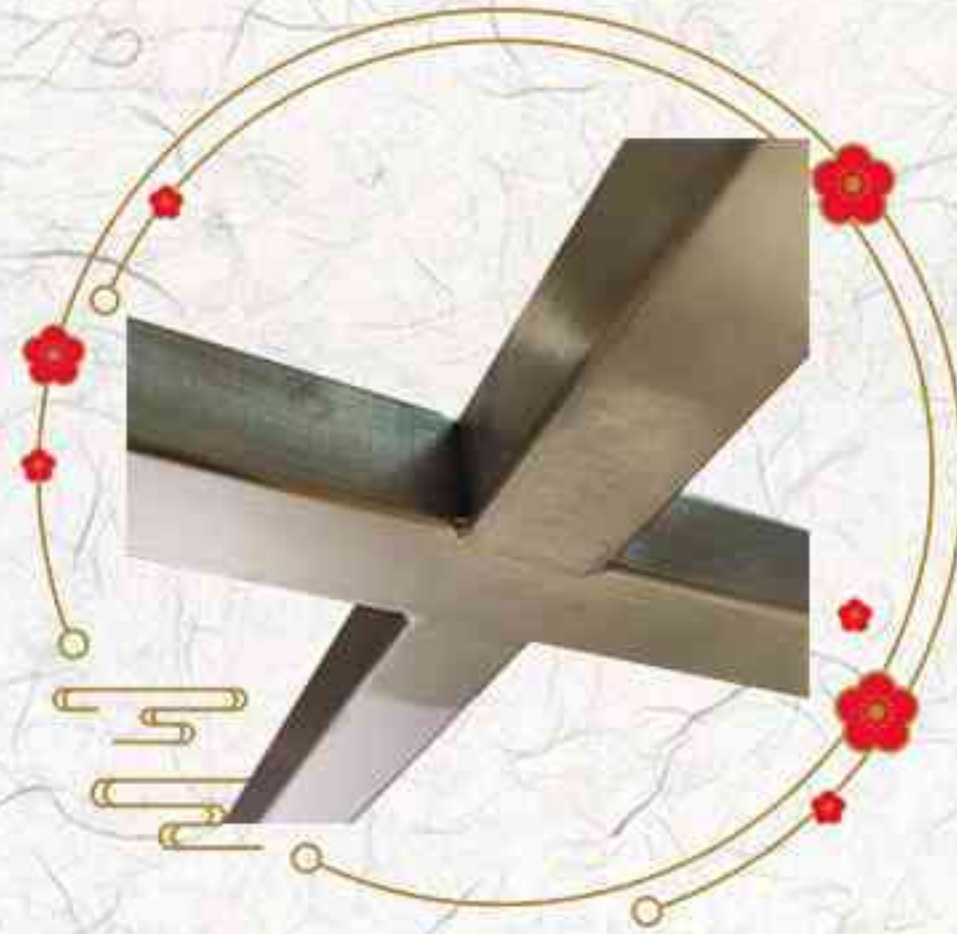

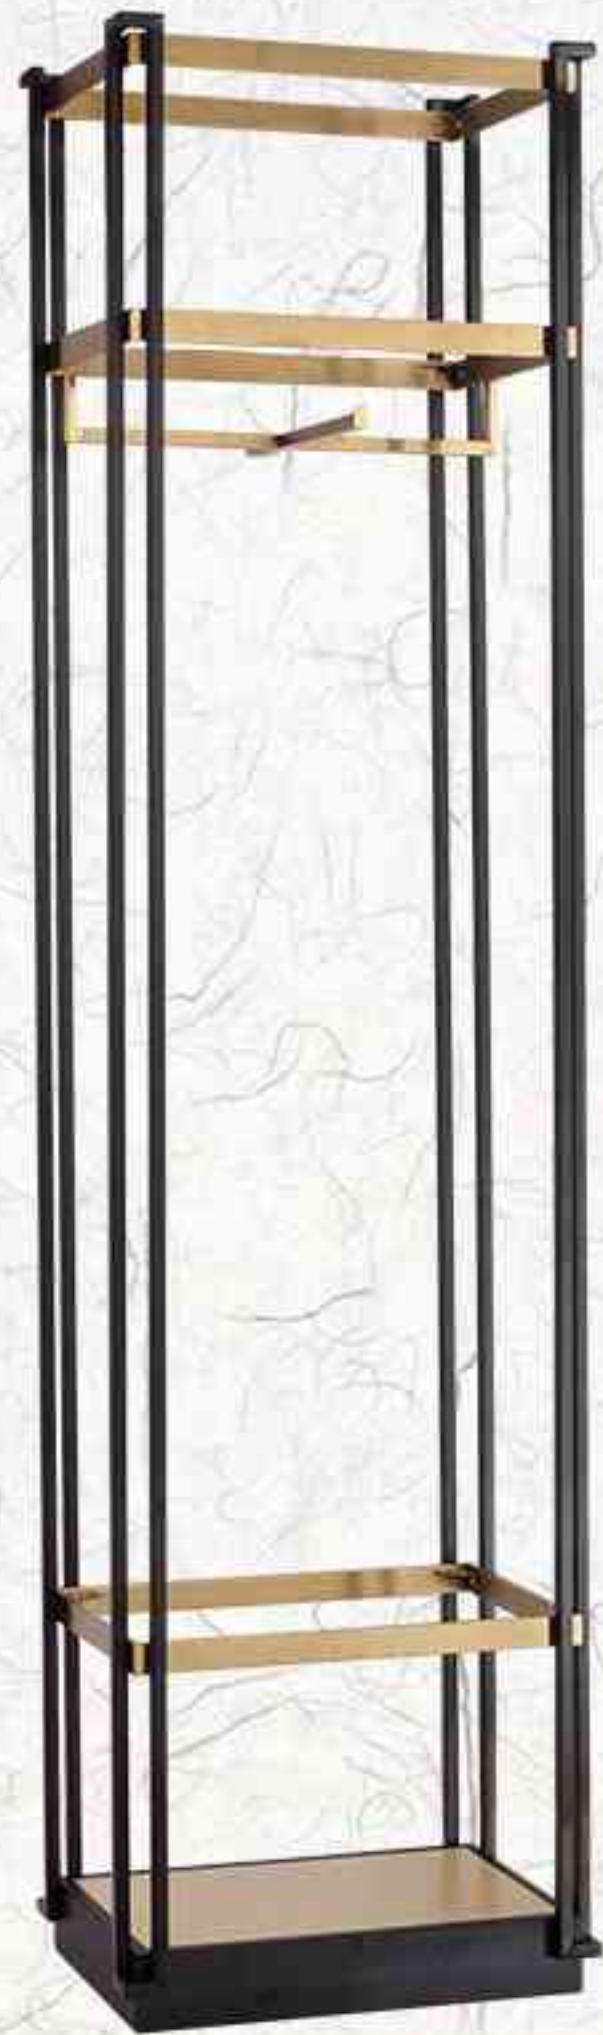

Weight: 22 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

## C-XK-02

Price:212 USD

Size:1200\*430\*2500mm

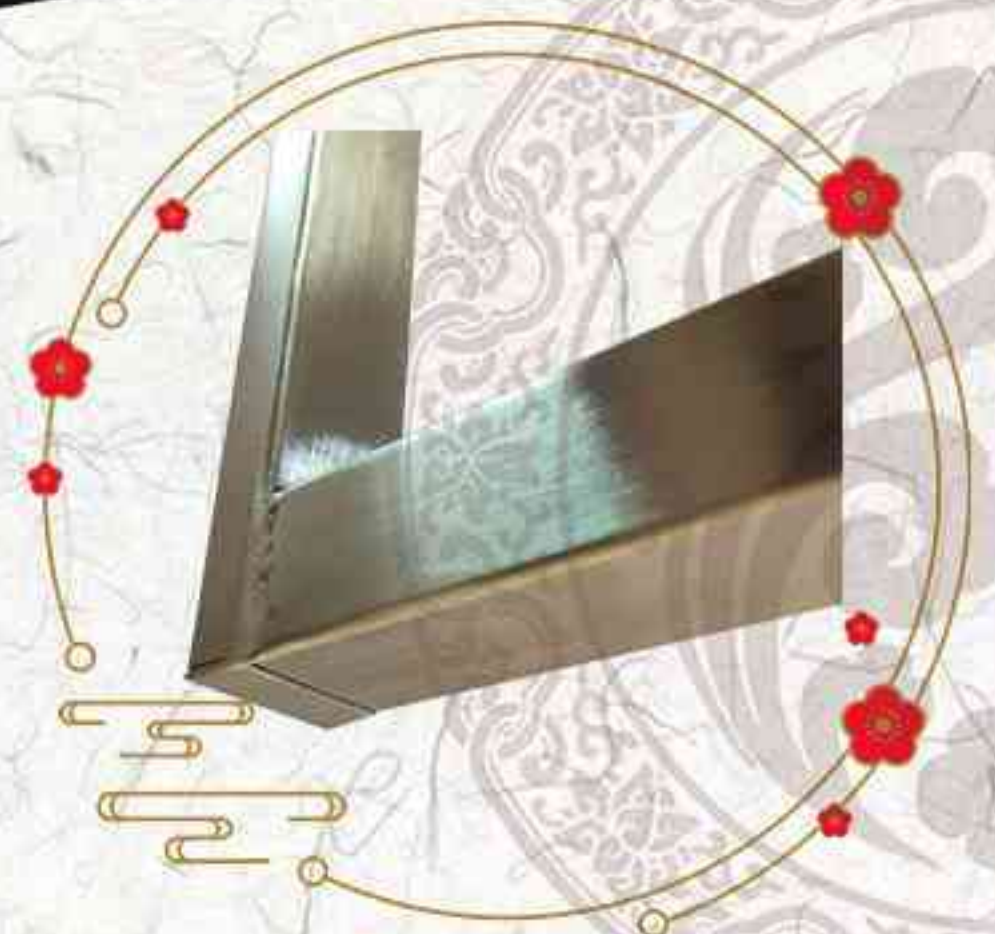

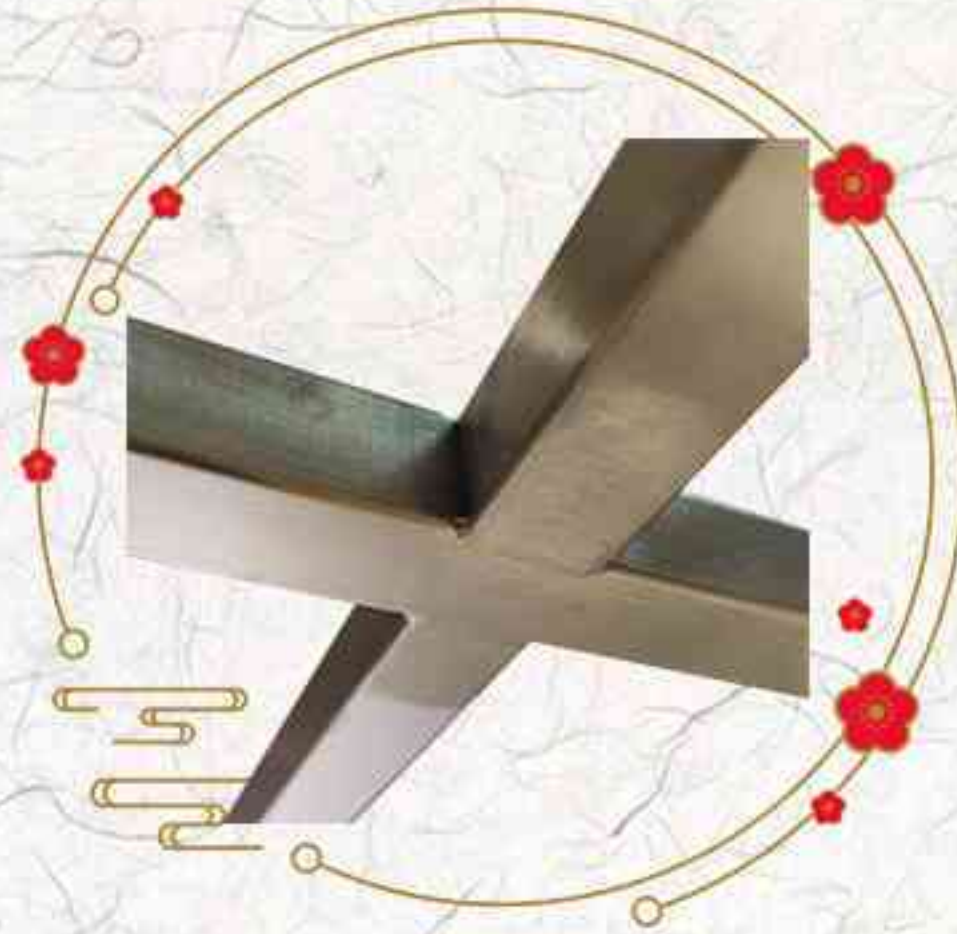

Weight: 32 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-03

Price:267 USD

Size:1800\*430\*2500mm

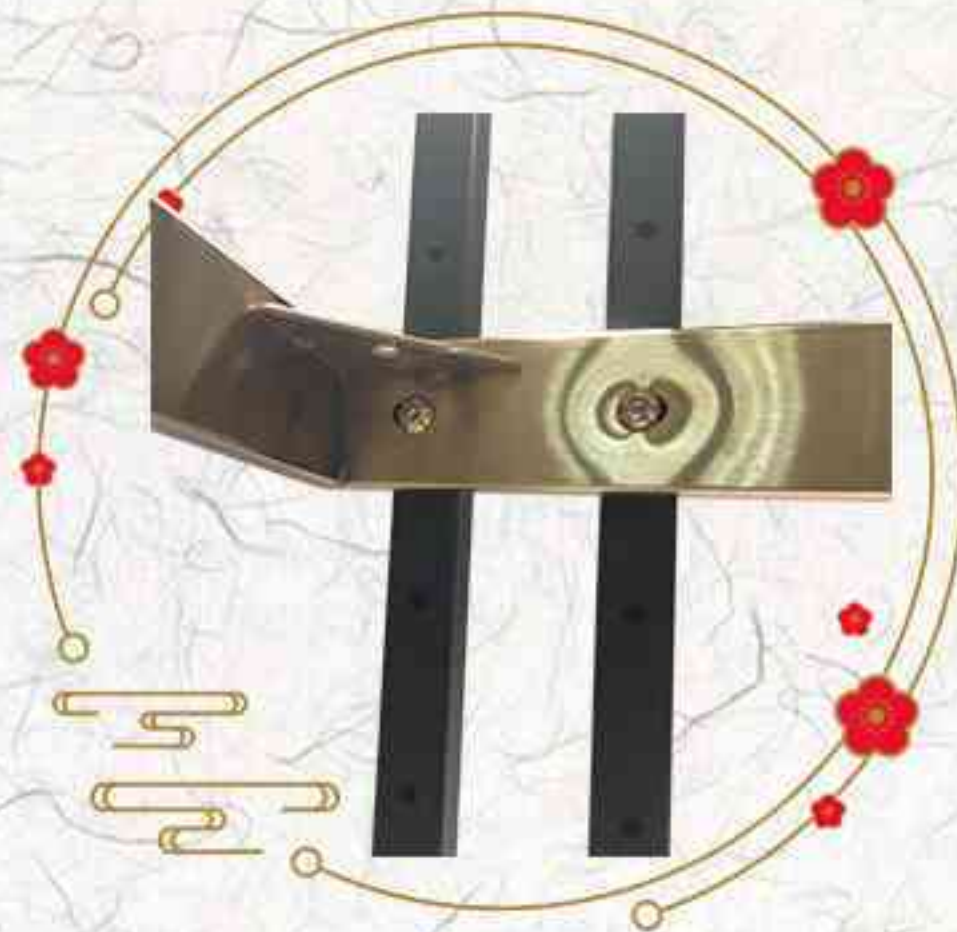

Weight: 39 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-04

Price:287 USD

Size:1800\*430\*2500mm

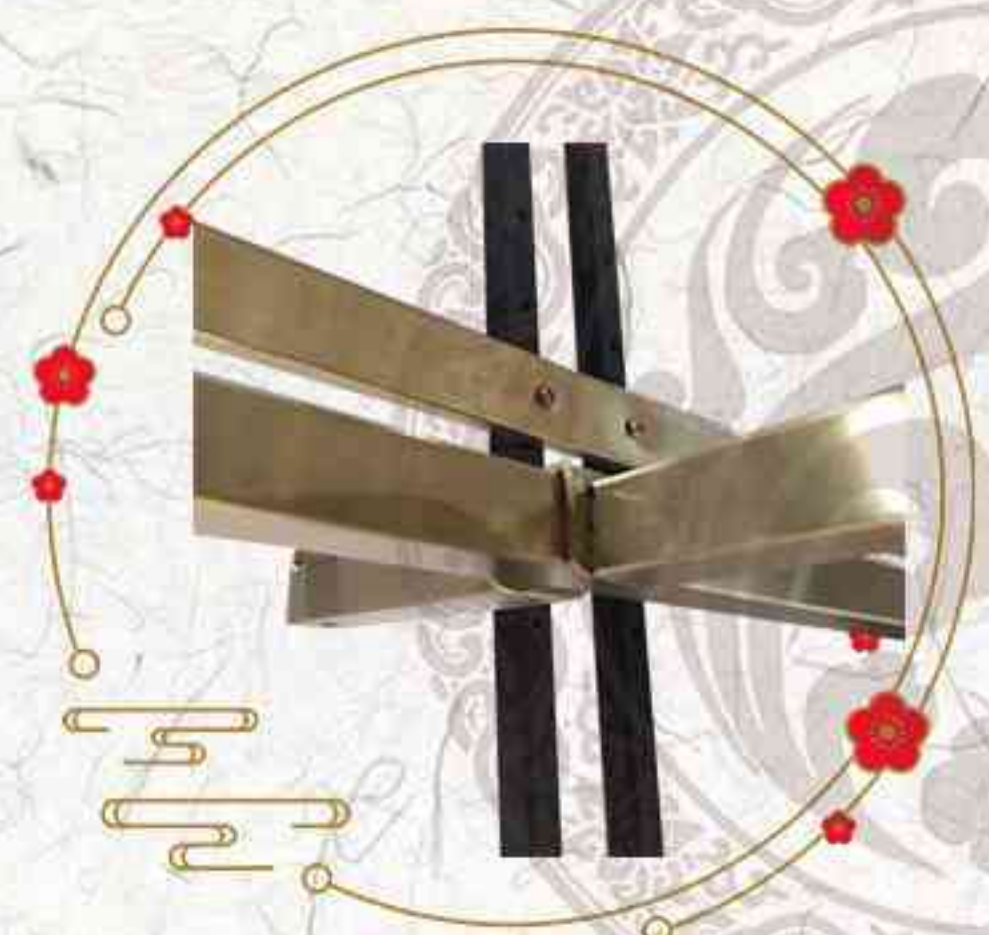

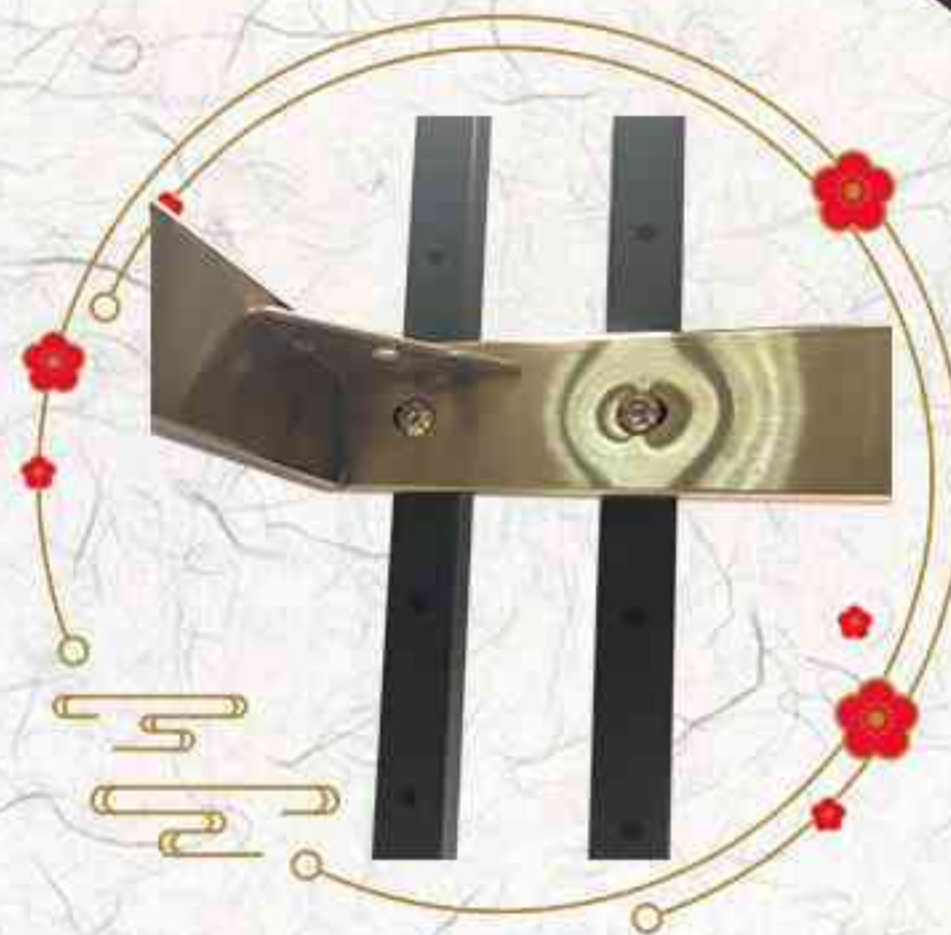

Weight: 43 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-05

Price:260 USD

Size:1200\*430\*2500mm

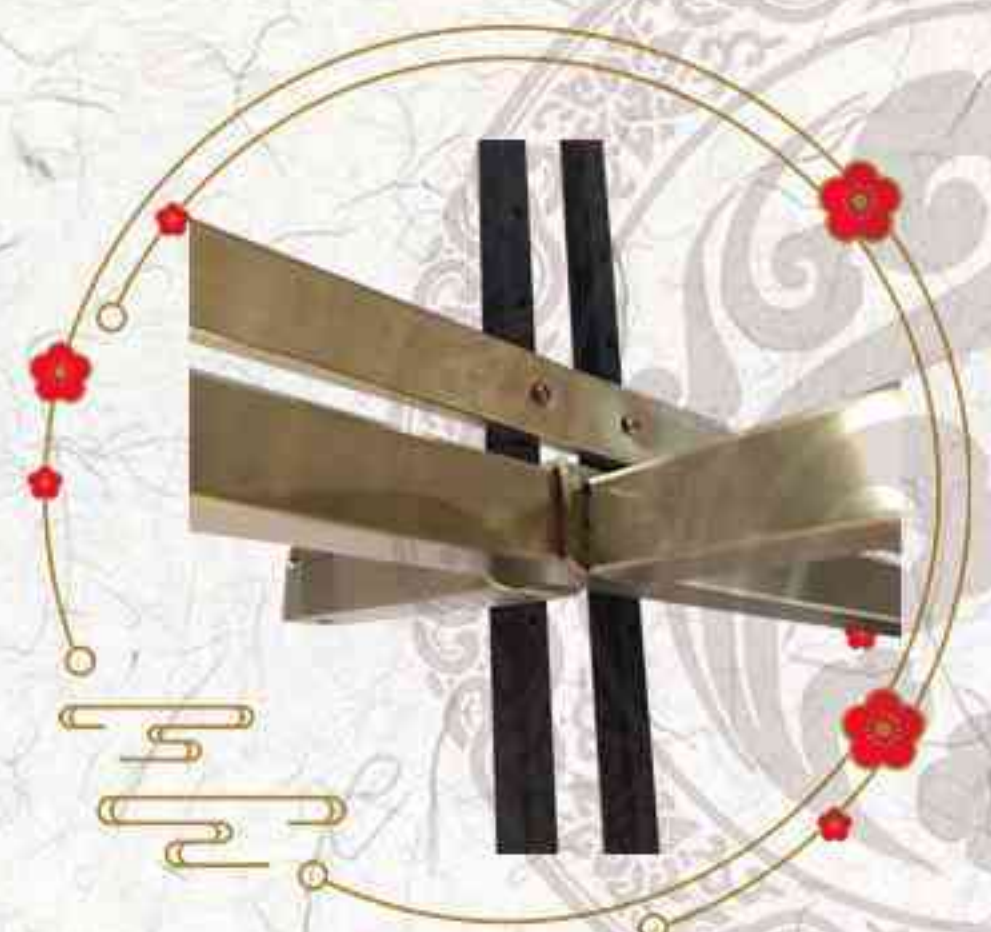

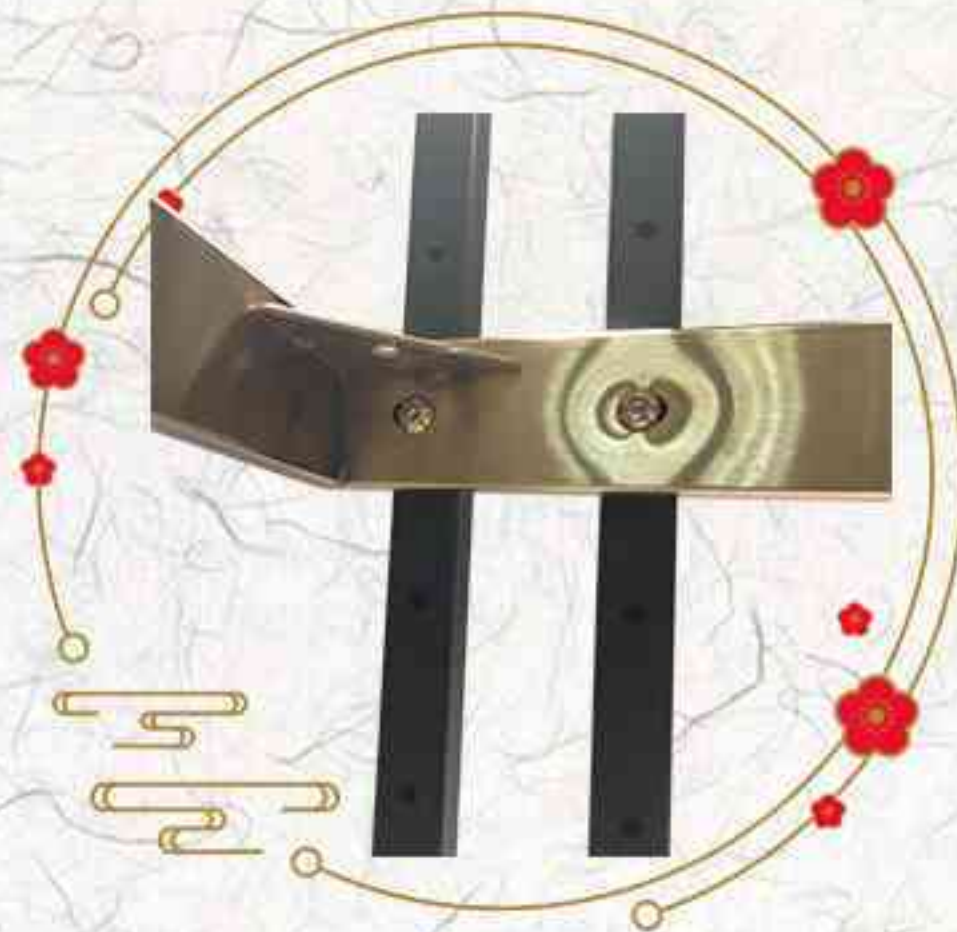

Weight: 37 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-06

Price:107/116 USD

Size:1200\*400\*1500mm/1200\*400\*1700mm

Weight: 15/16 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-07

Price:55 USD

Size:400\*400\*1027mm

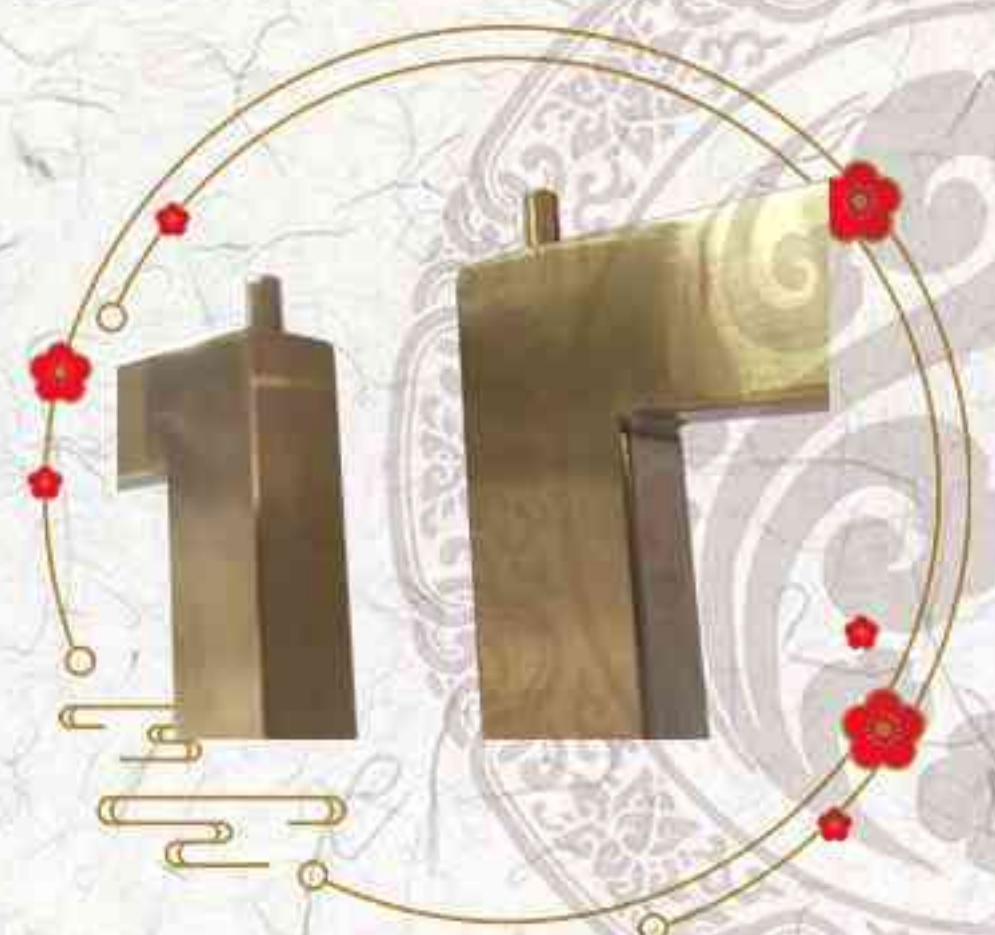

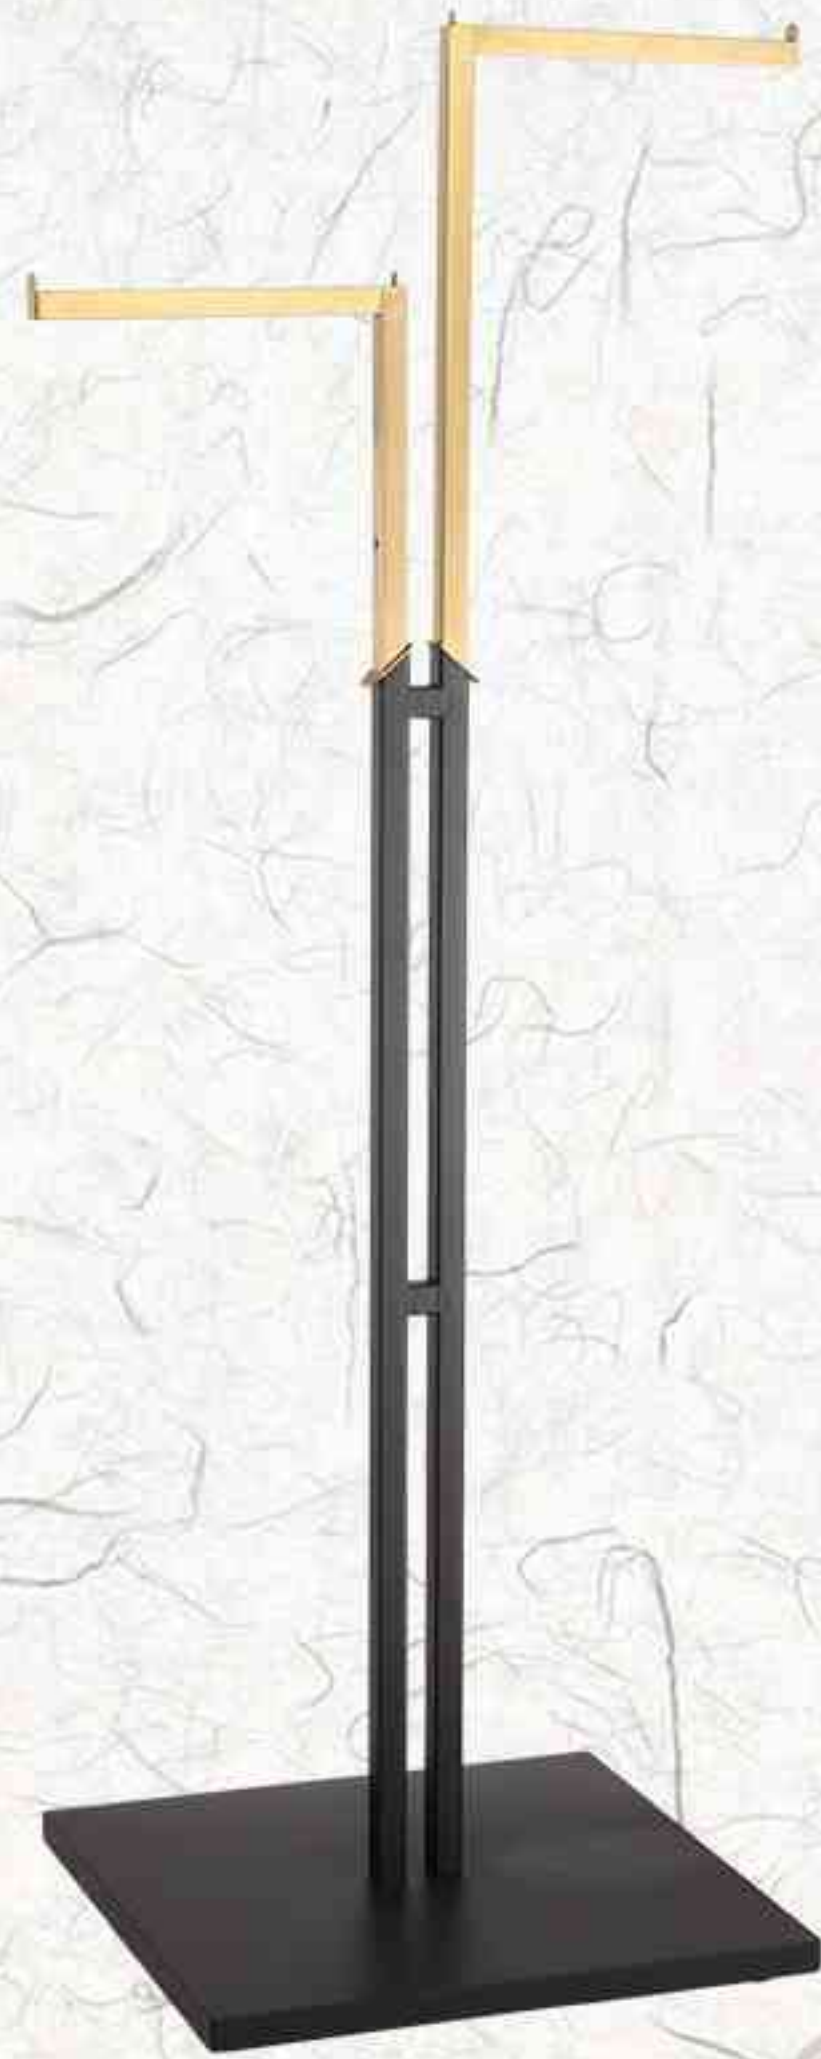

Weight: 8 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-08

Price:36 USD

Size:500\*1700mm

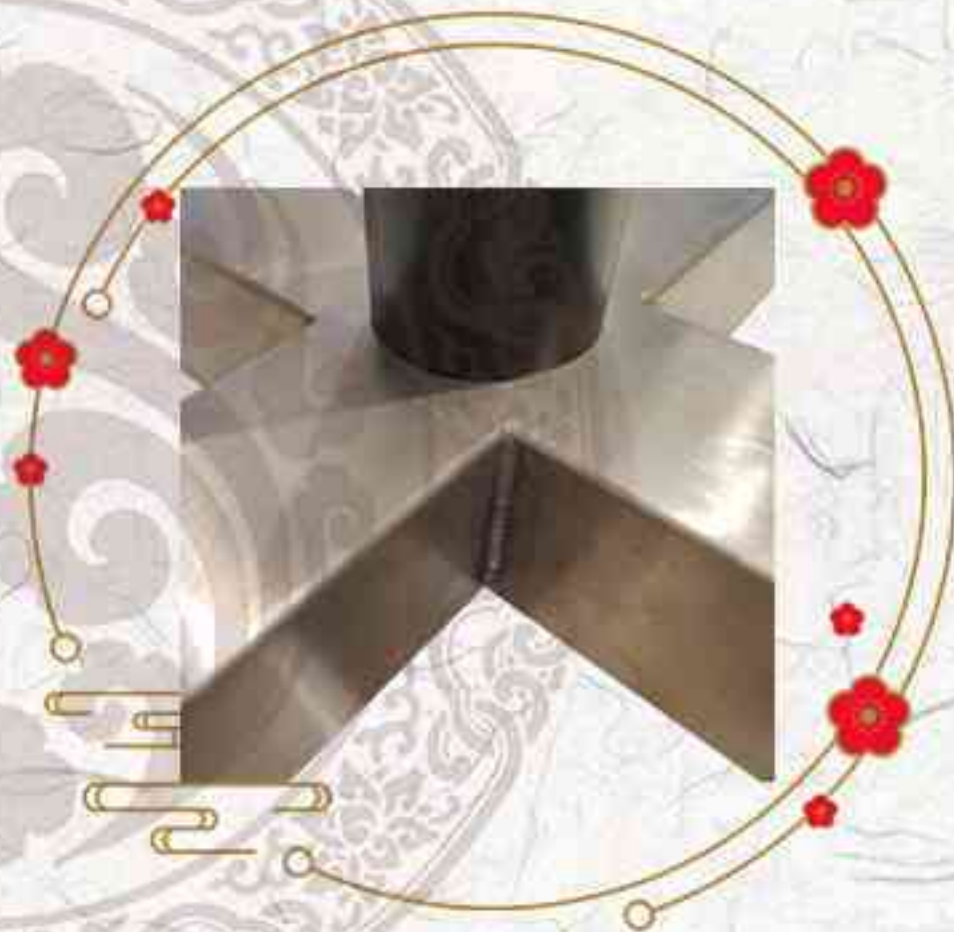

Weight: 8 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-09

Price:36 USD

Size:400\*40\*1650mm

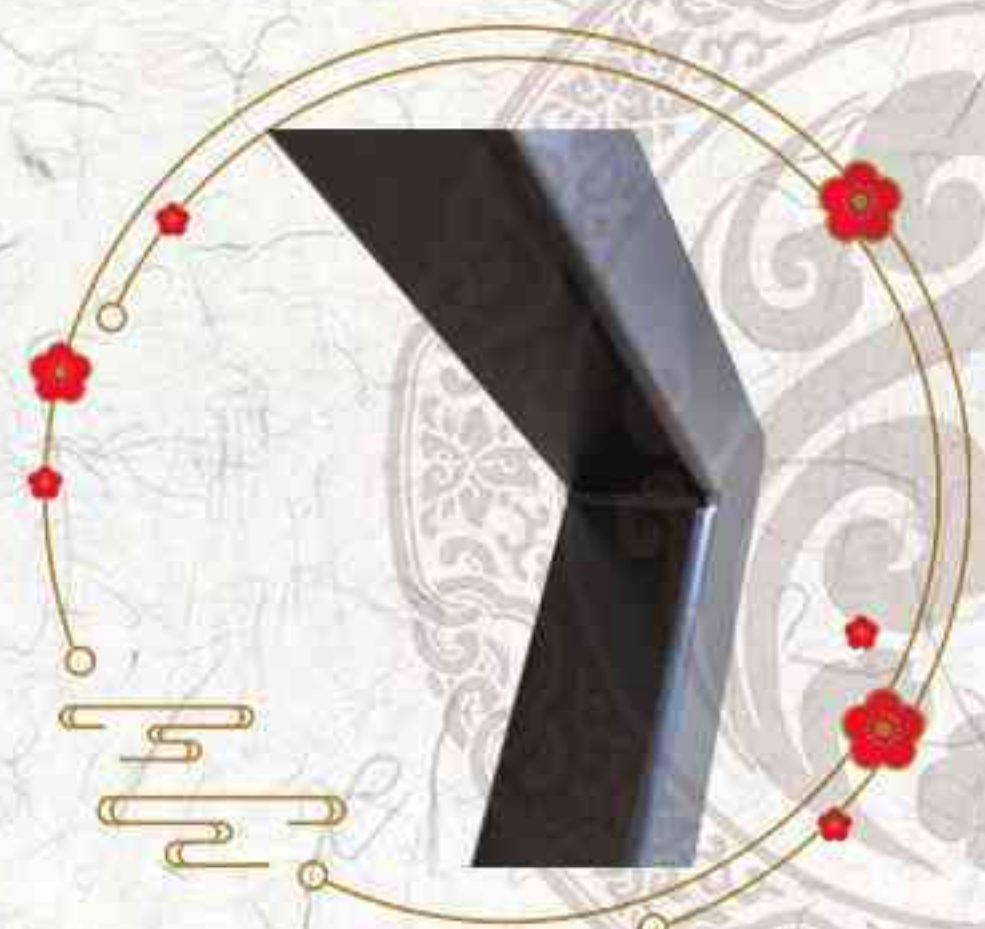

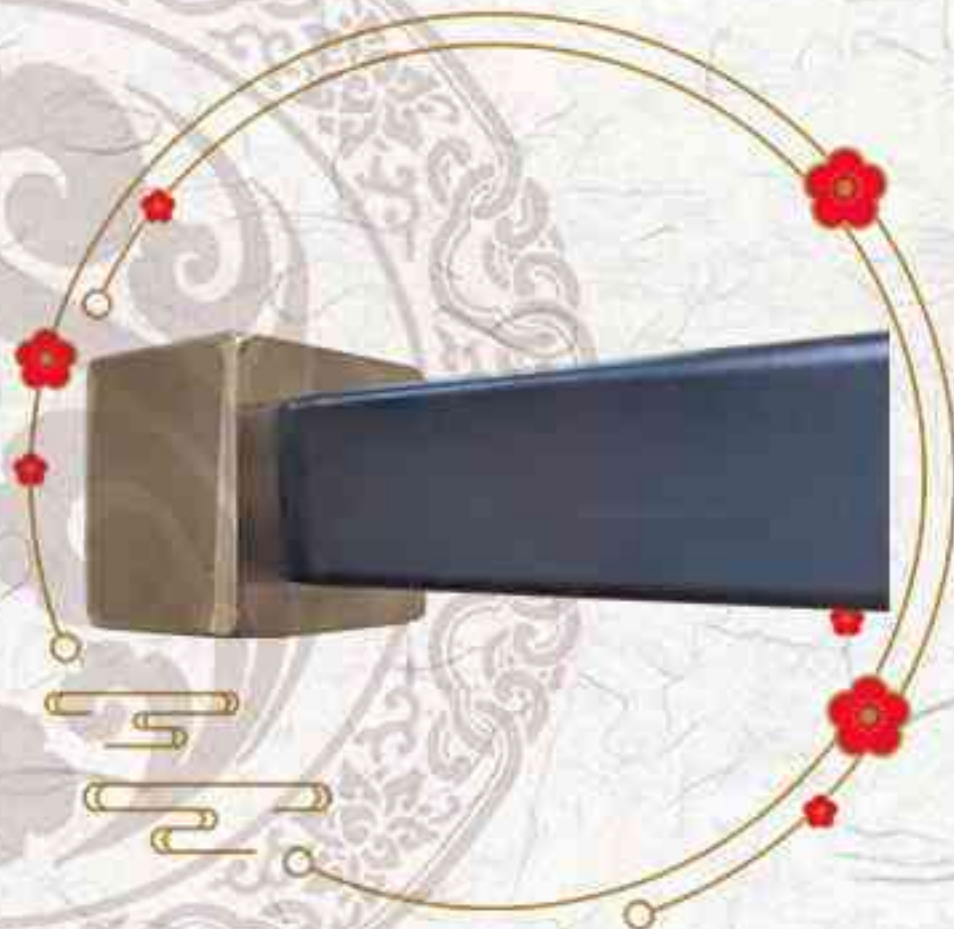

Weight: 8 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-10

Price:46 USD

Size:300\*300\*1600mm

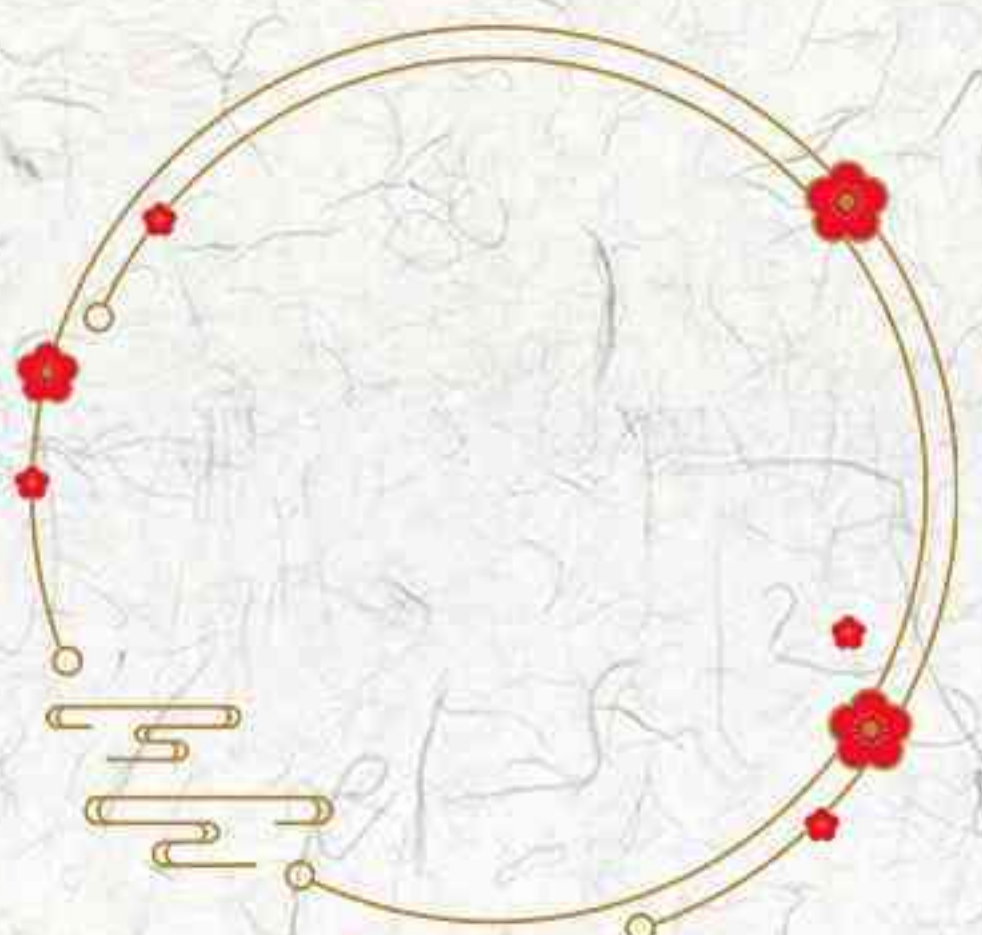

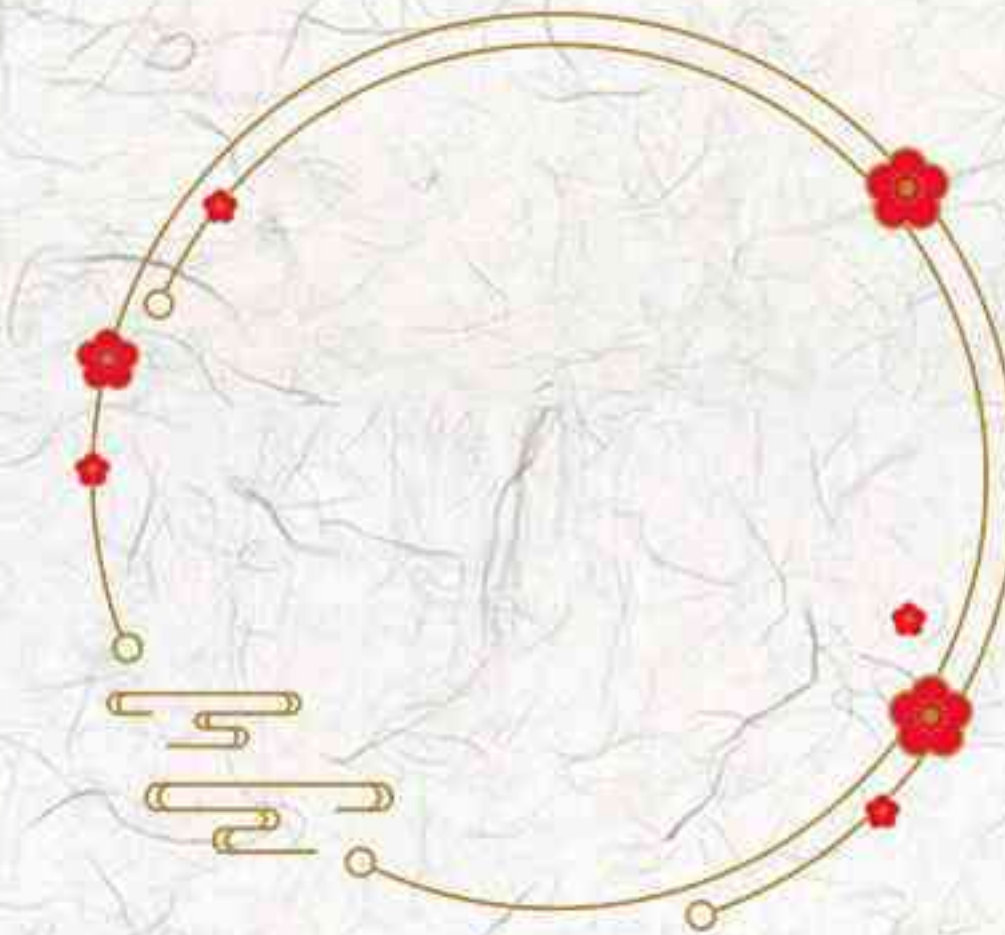

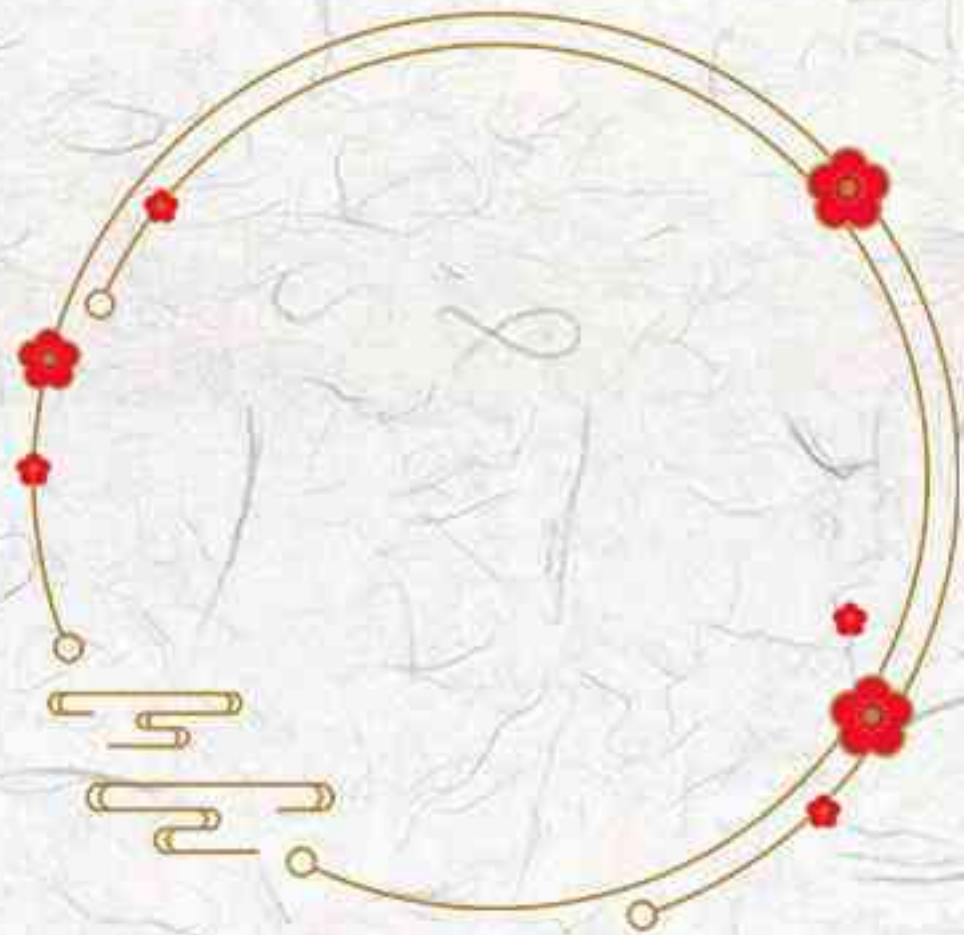

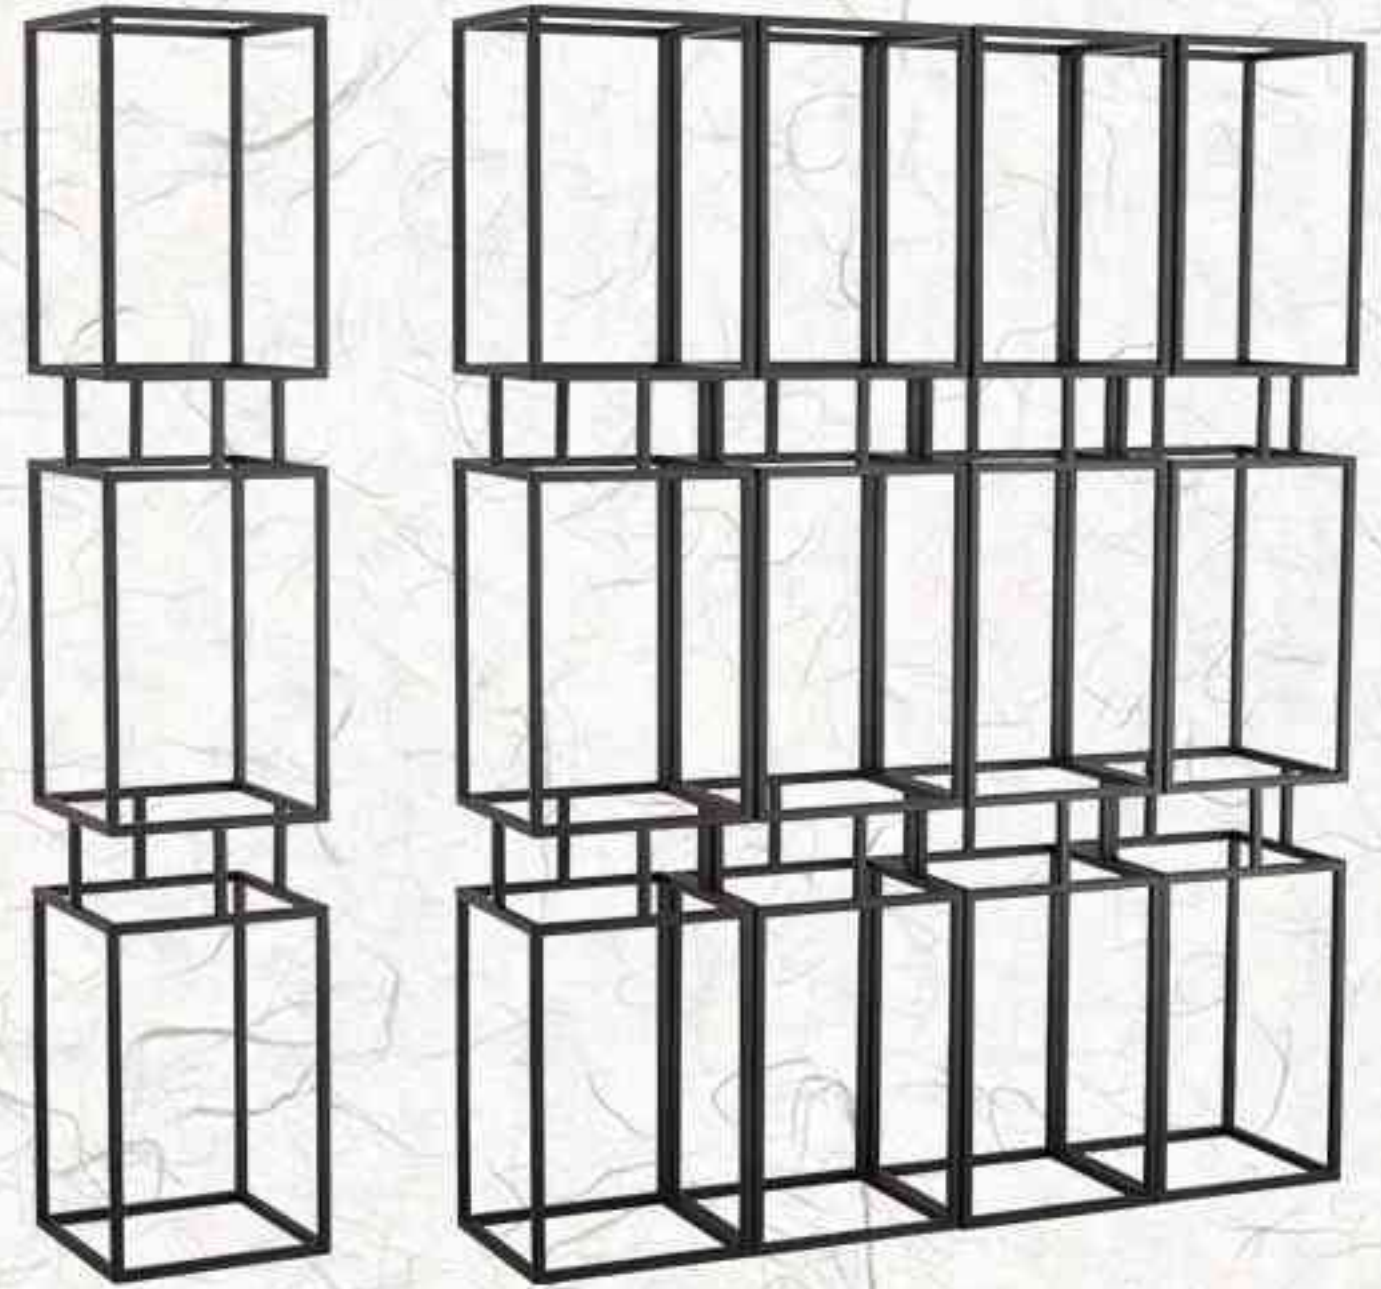

Weight: 8 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-11

Price:63 USD

Size:600\*200\*1400mm

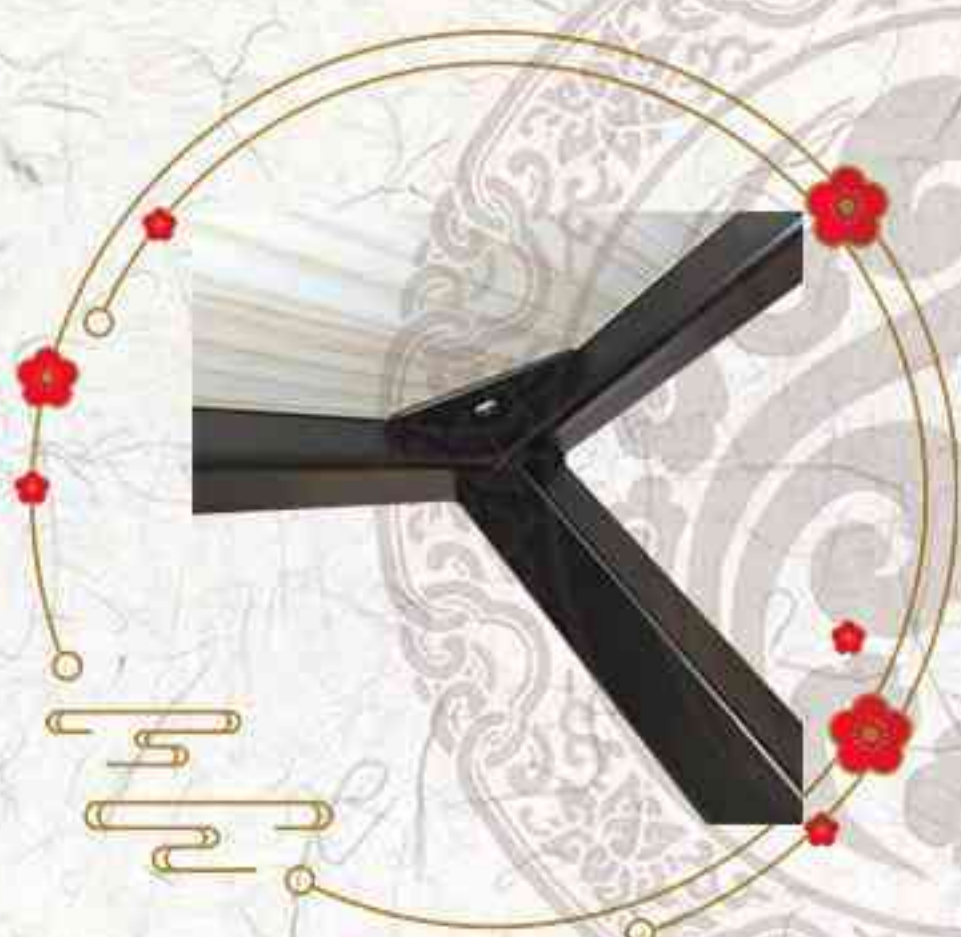

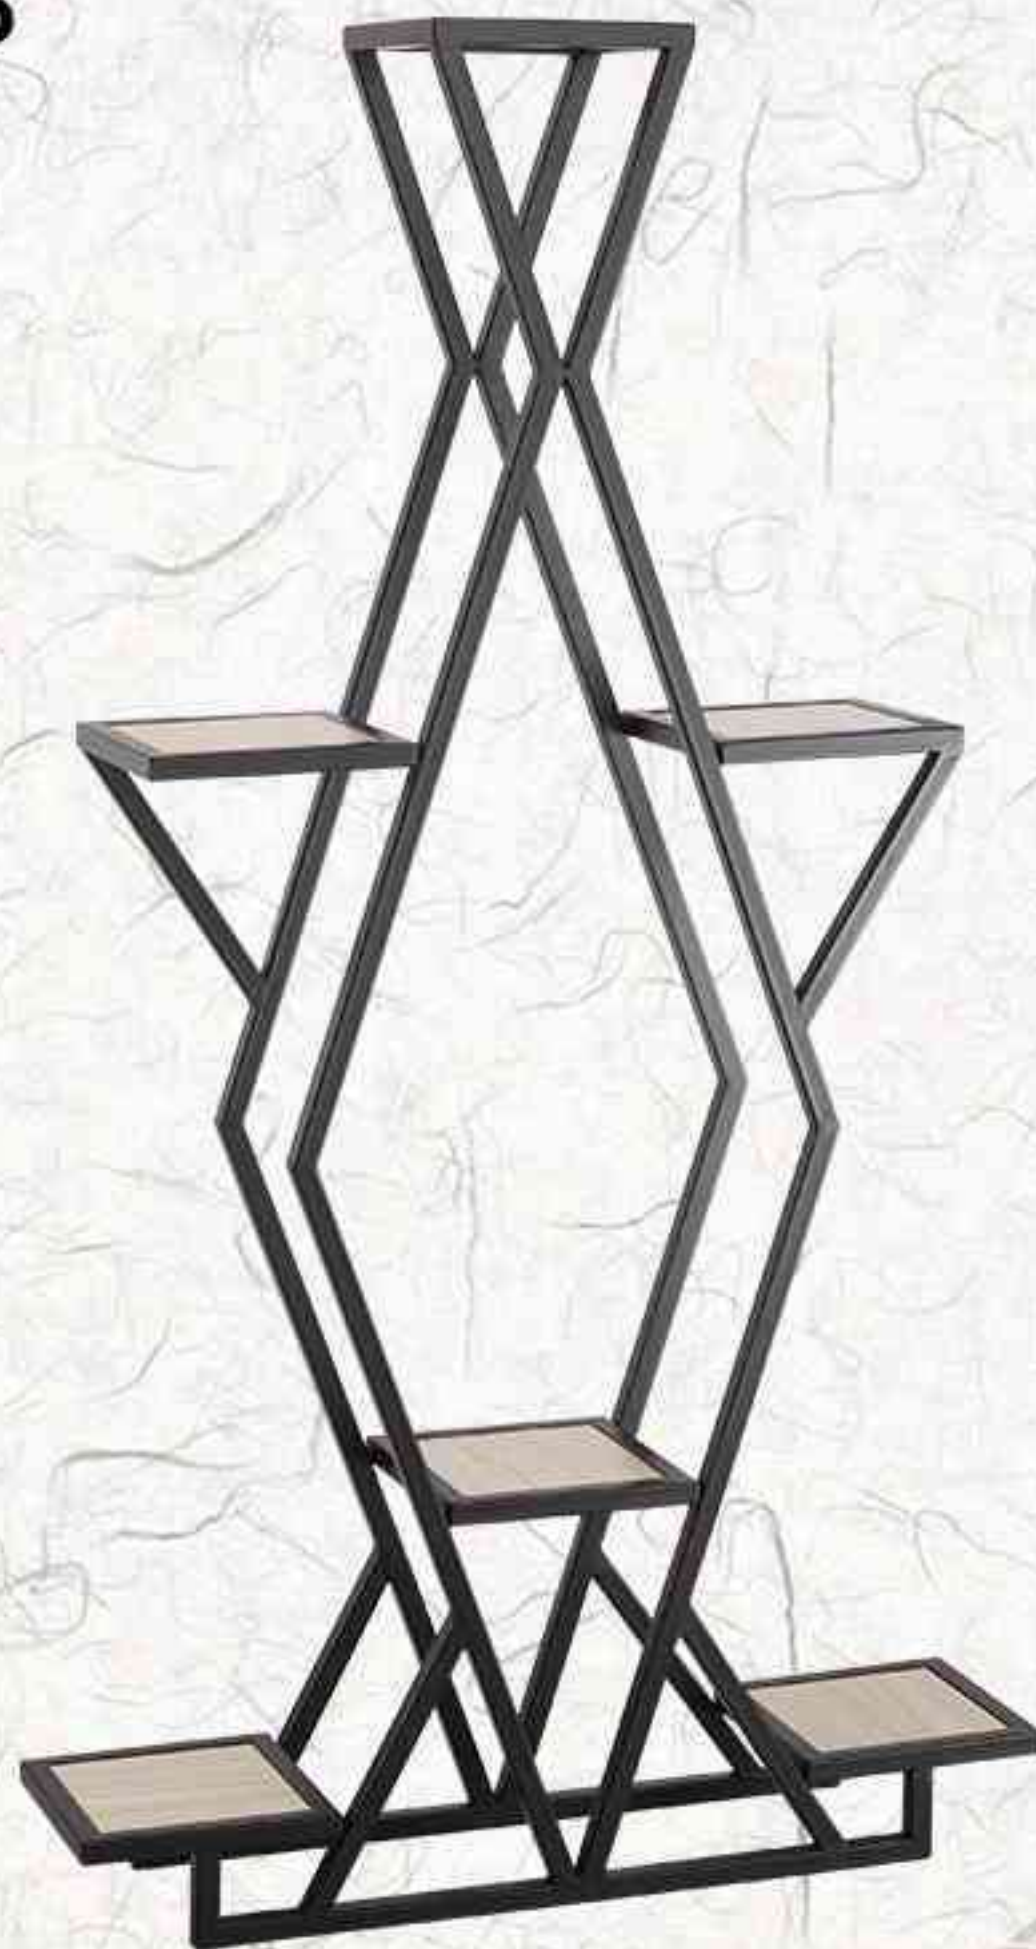

Weight: 9 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

C-XK-12

Price:122 USD

Size:1200\*450\*1760mm

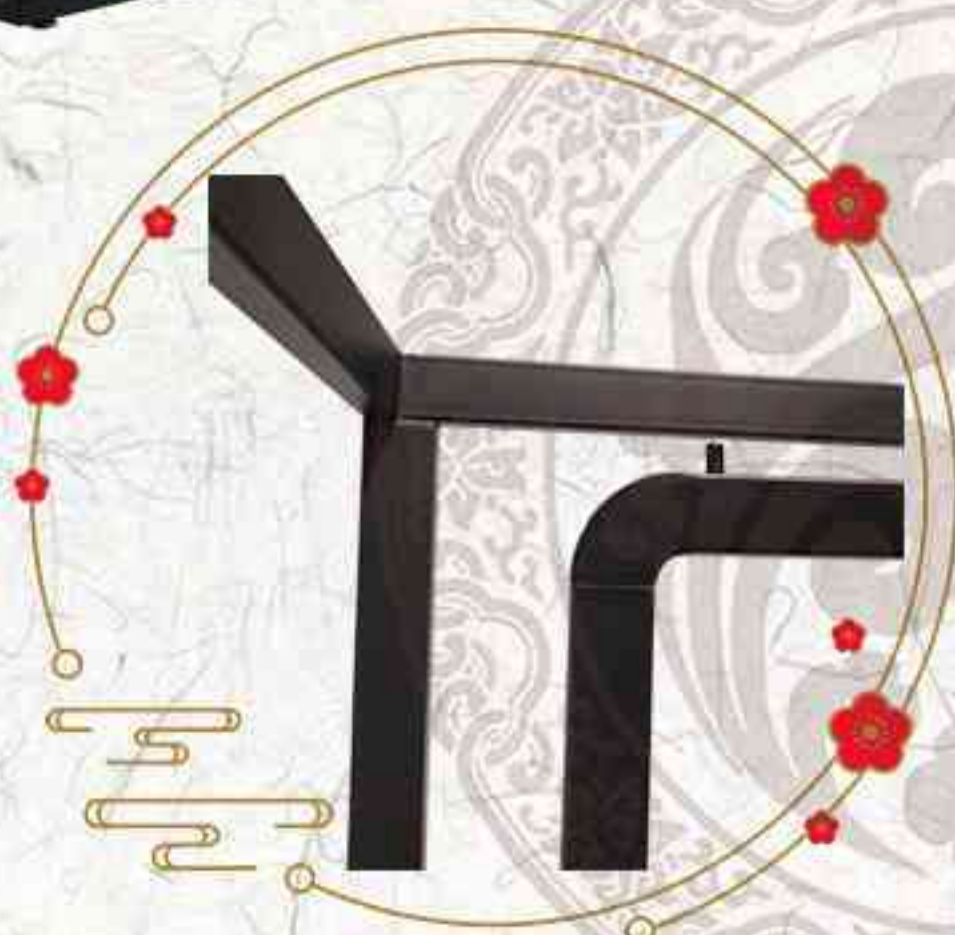

Weight: 22 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# CHAMPS SERIES

## C-XK-13

Price: 103 USD

Size: 1200\*450\*1760mm

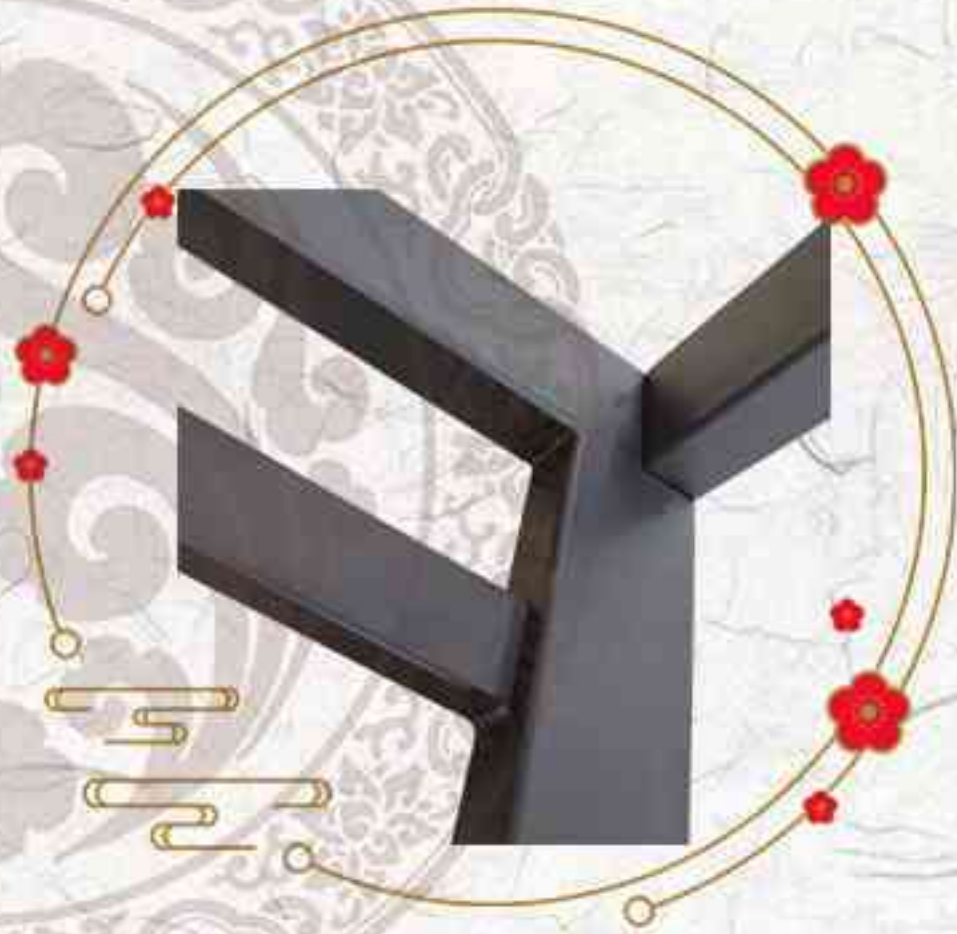

Weight: 16 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

1. Use high-purity stainless steel as raw material, high temperature resistance and corrosion resistance
2. Industry-leading welding technology, every clothing display rack welding position is treated manually
3. High level Electroplating Technology, improve corrosion resistance, hardness, durable, Smooth and beautiful
4. Wire Drawing Process, more wear resistant than ordinary stainless steel. It looks more high grade

# CHAMPS SERIES

## C-XK-14

Price For Two:154 USD

Size:950\*500\*570mm/1200\*600\*720

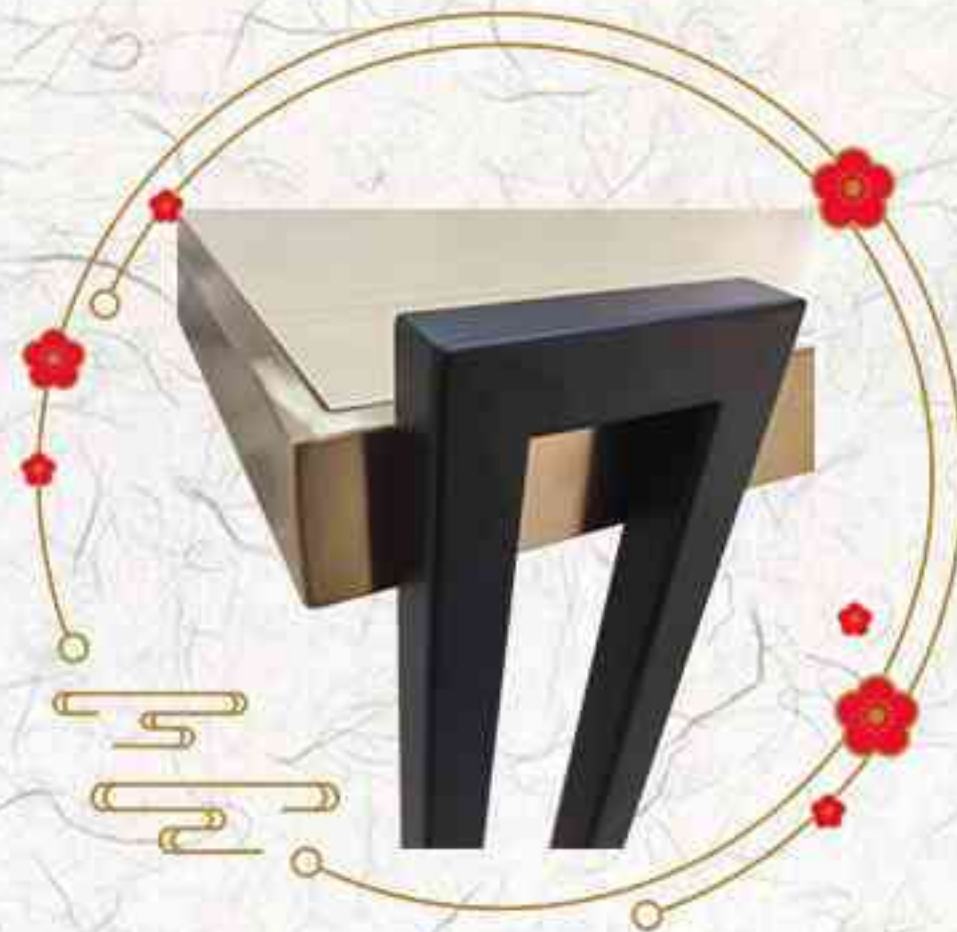

Weight: 19 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-01

Price:281 USD

Size:3000\*400\*1750mm

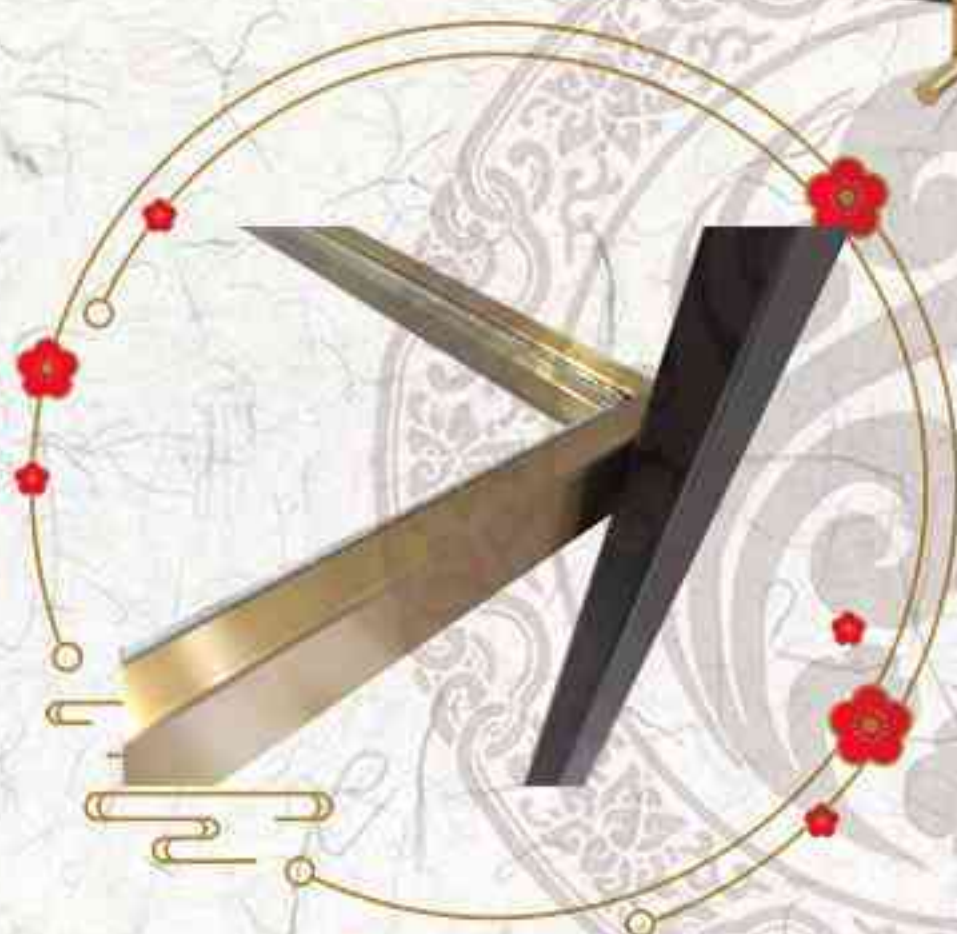

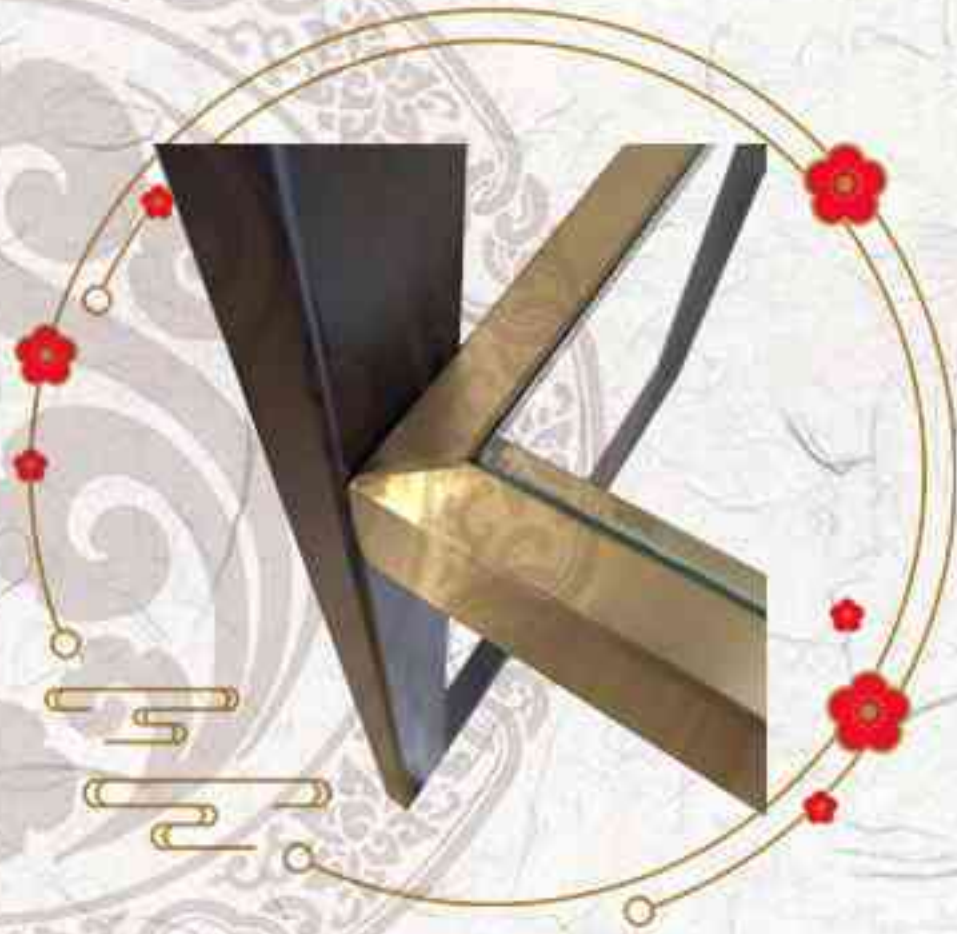

Weight: 28 KG

Material:

High pure stainless steel+ High strength iron+Tempered glass

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-02

Price:328 USD

Size:3000\*400\*1750mm

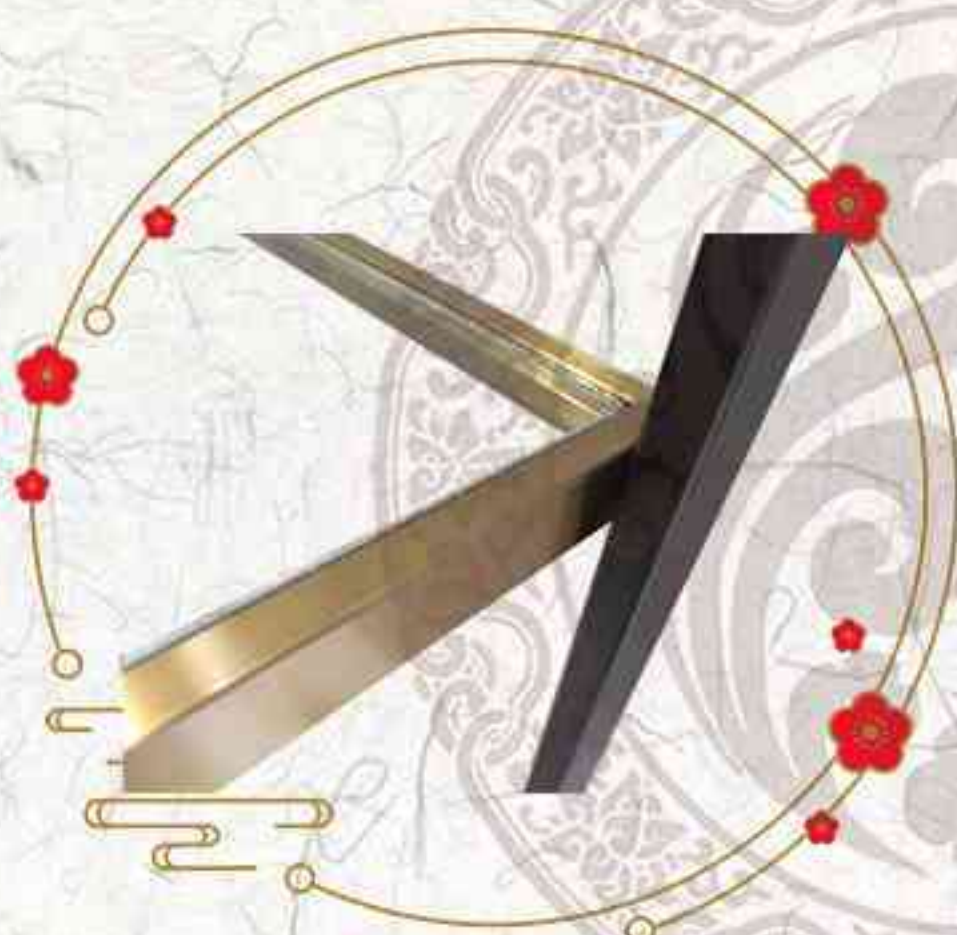

Weight: 33 KG

Material:

High pure stainless steel+ High strength iron+Tempered glass

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-03

Price:173 USD

Size:1200\*400\*2000mm

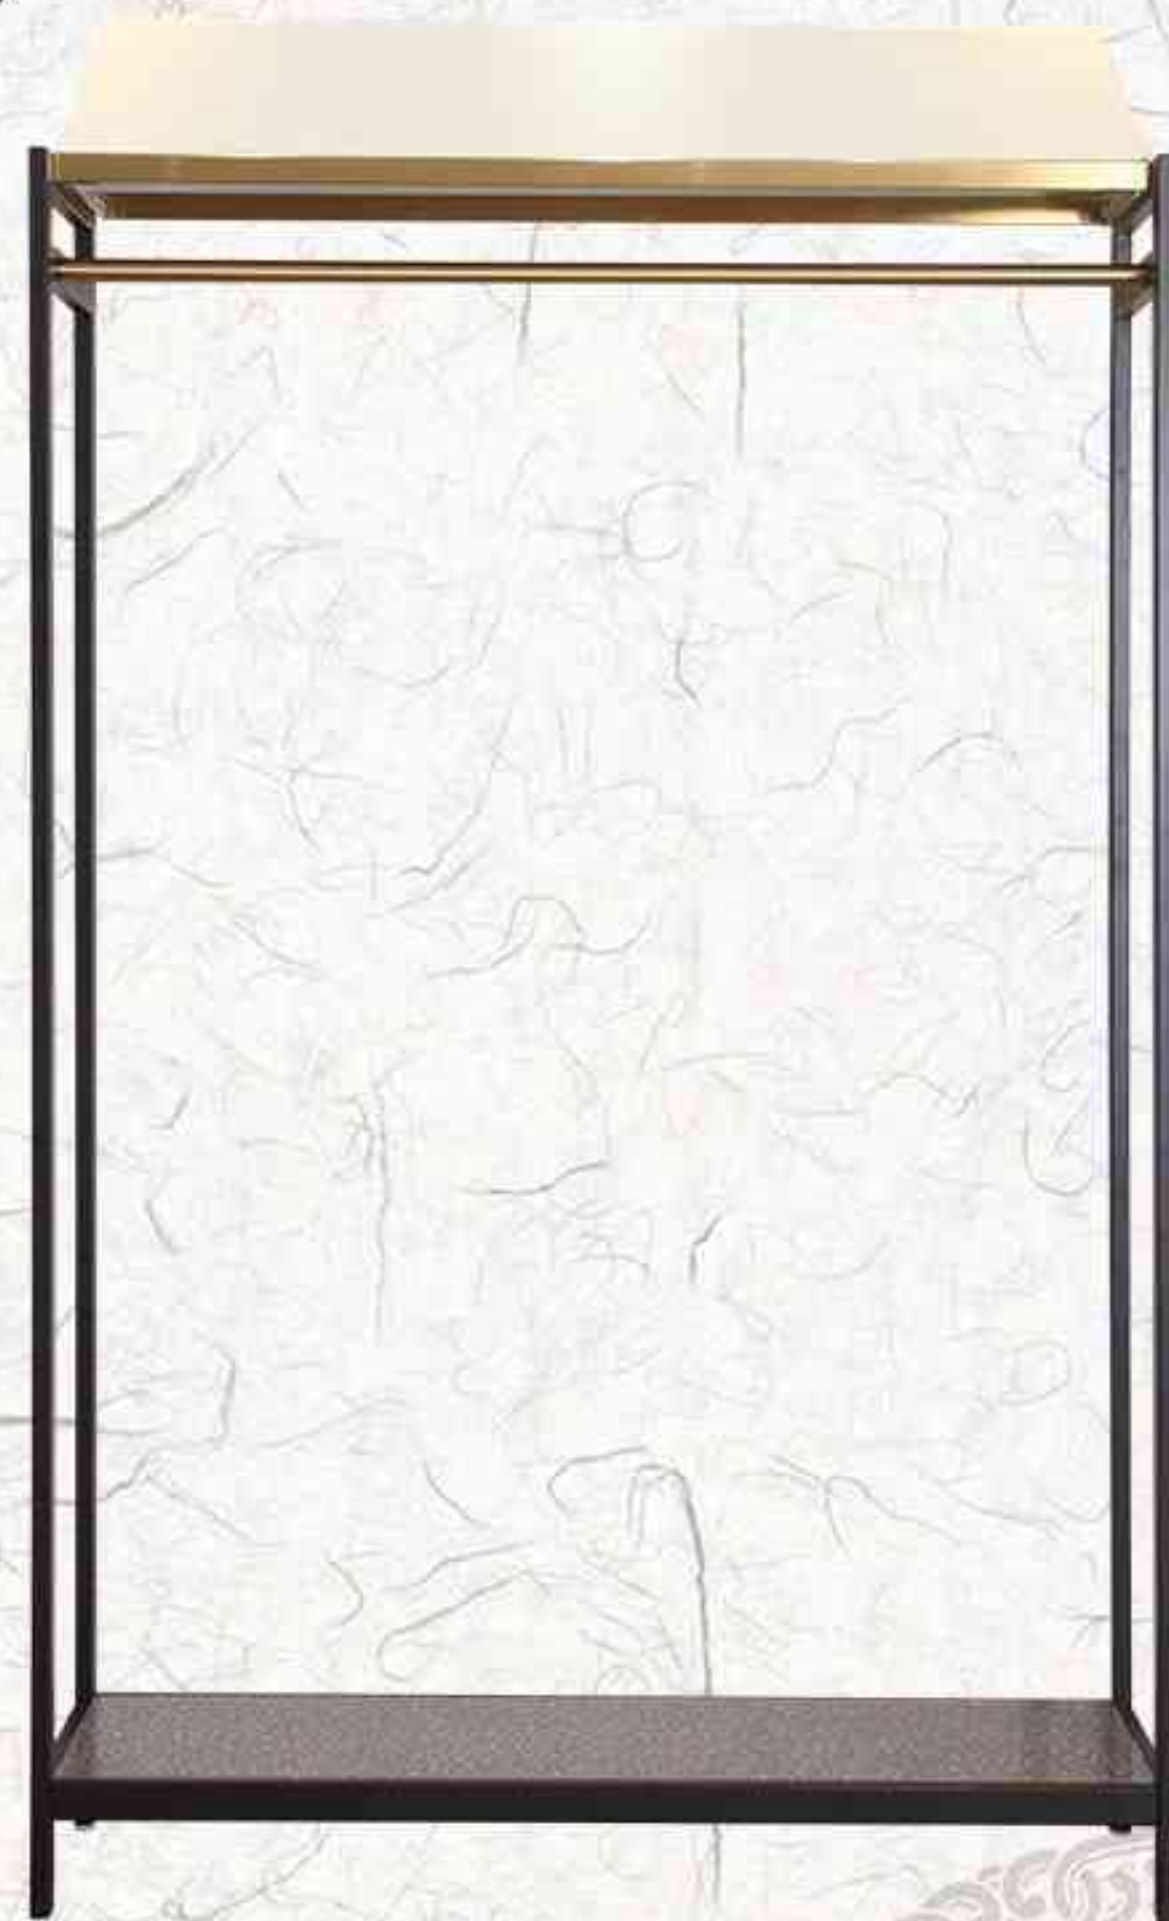

Weight: 31 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-04

Price:94/101 USD

Size:1200\*400\*1600mm/1200\*400\*1800mm

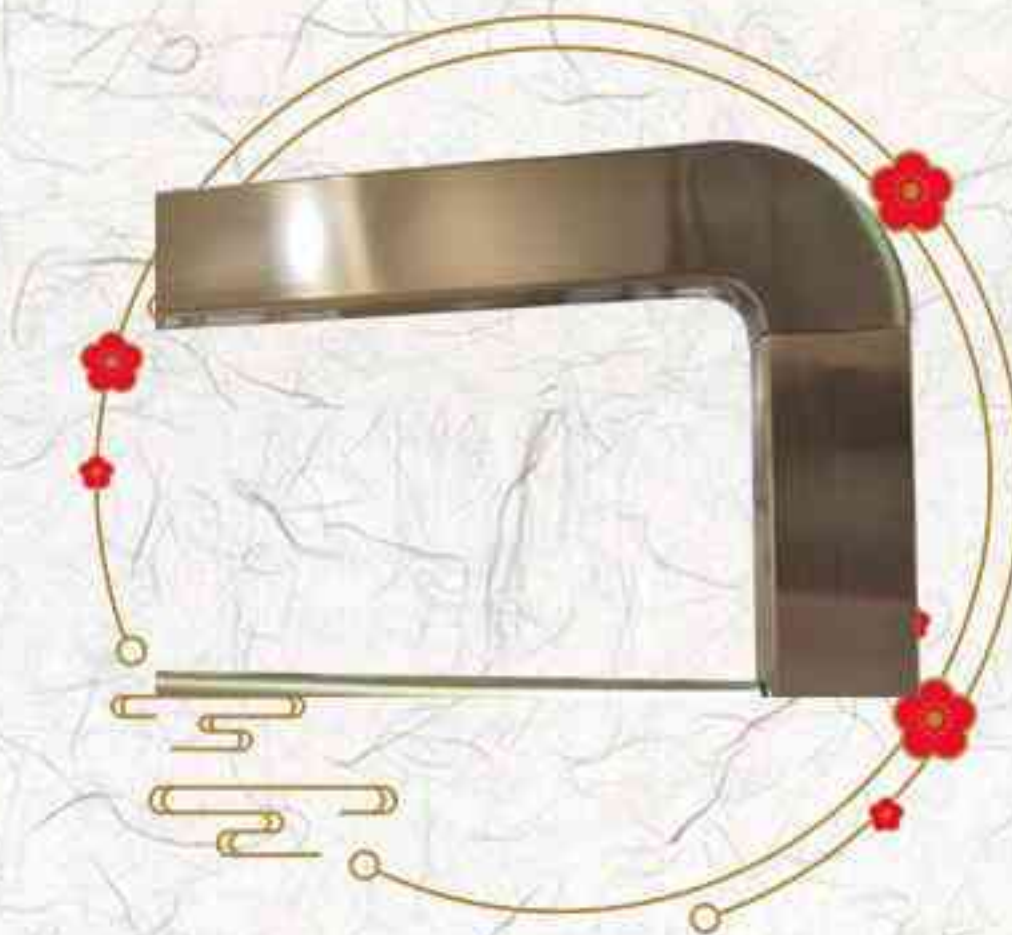

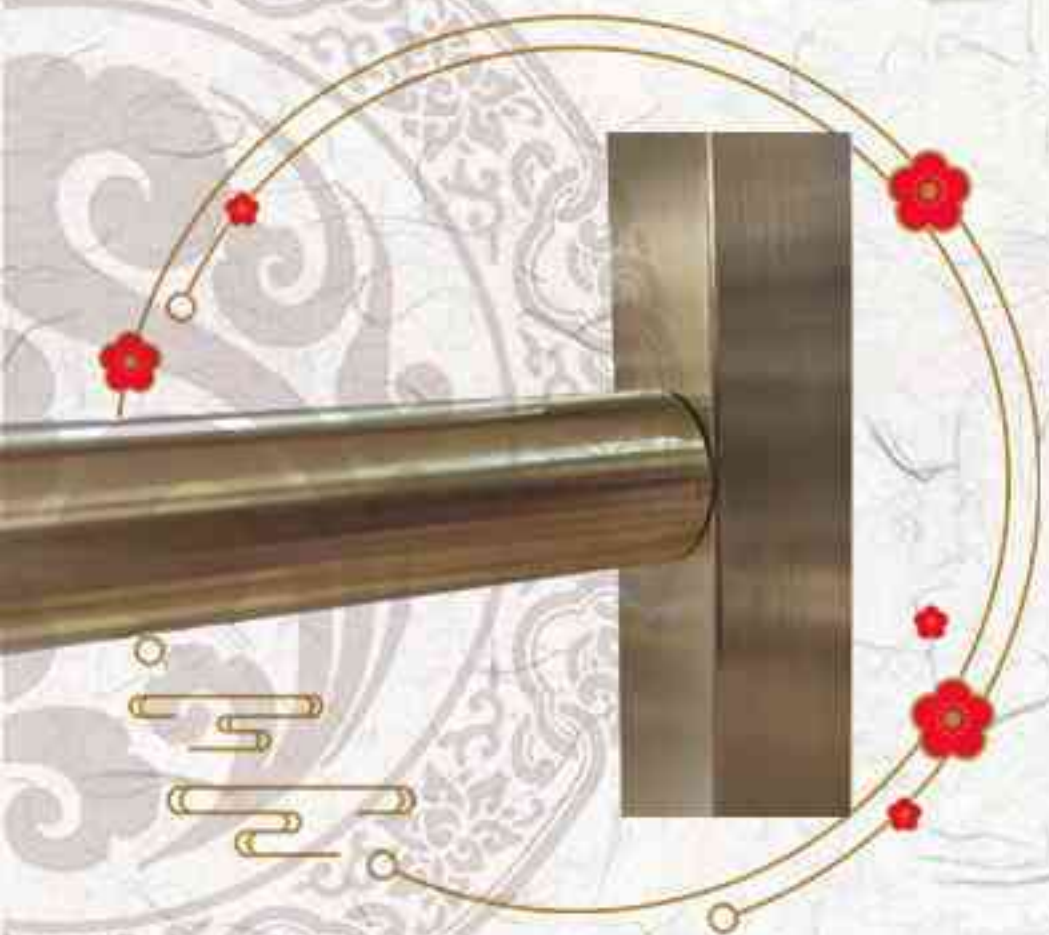

Weight: 19/20 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-05

Price:127 USD

Size:1200\*400\*1500mm

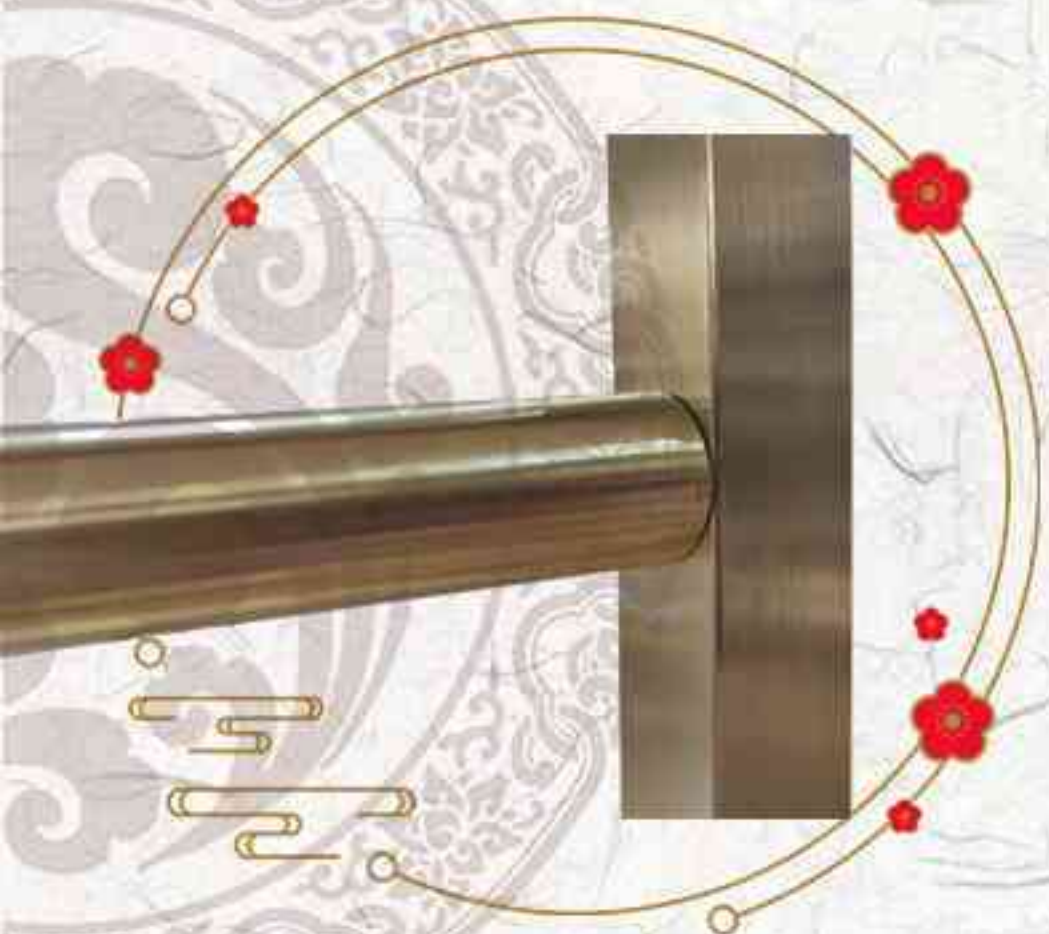

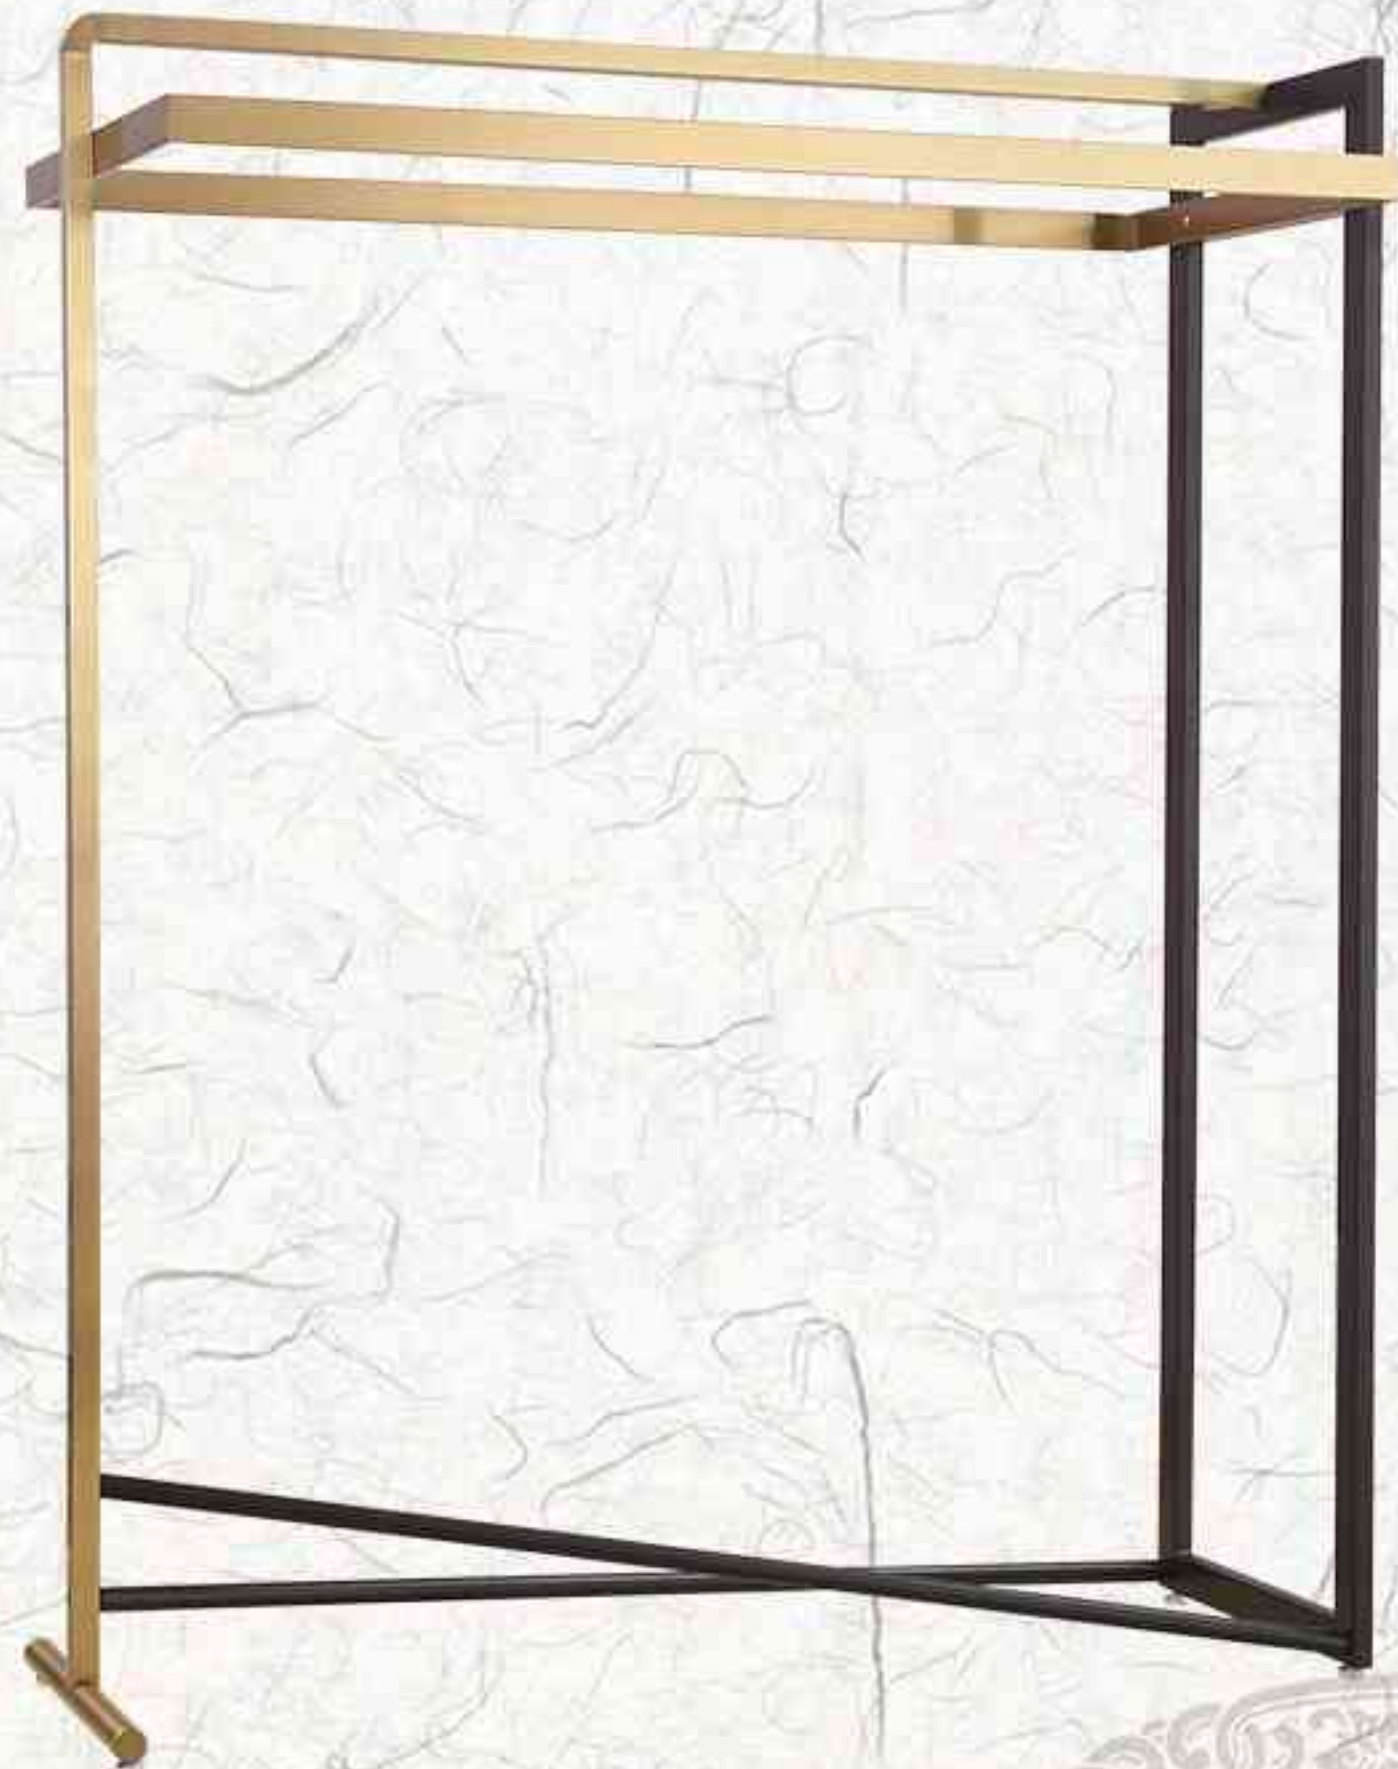

Weight: 19 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-06

Price:161 USD

Size:640\*400\*2300mm

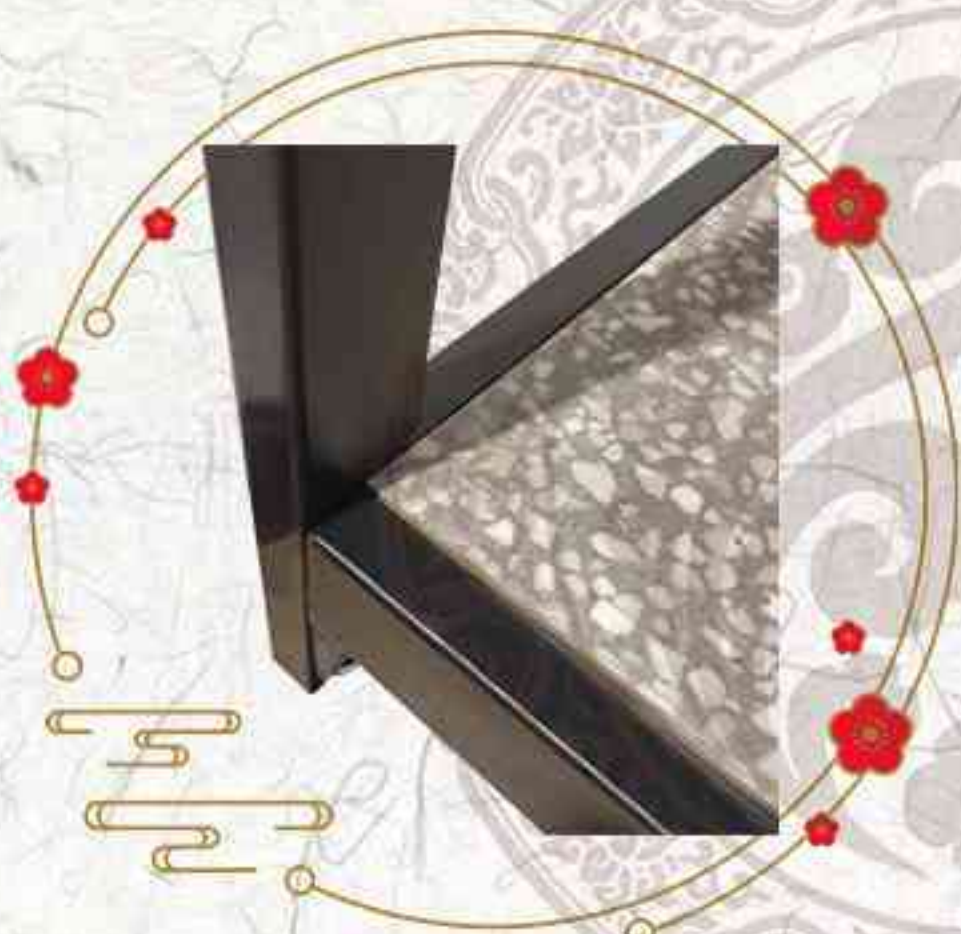

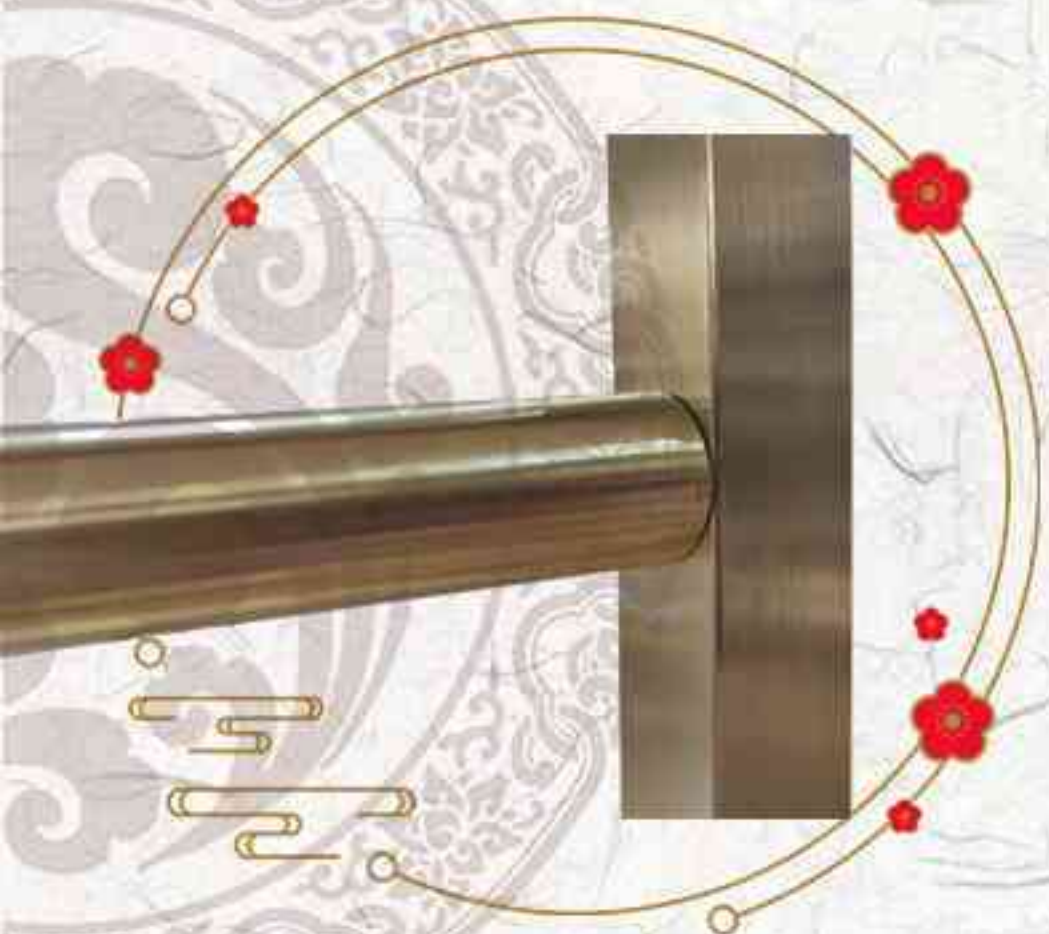

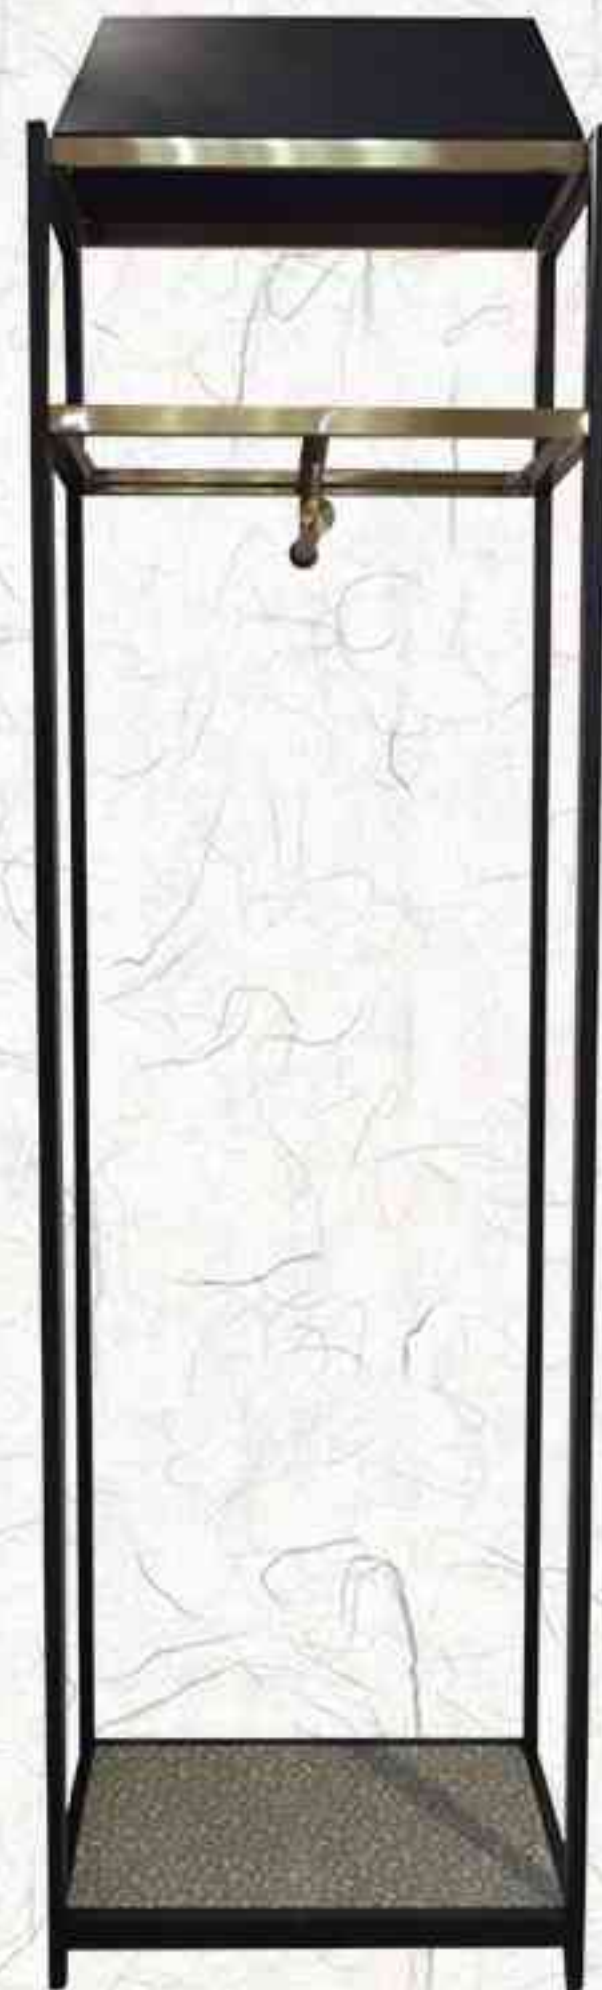

Weight: 24 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-07

Price:218 USD

Size:1200\*400\*2300mm

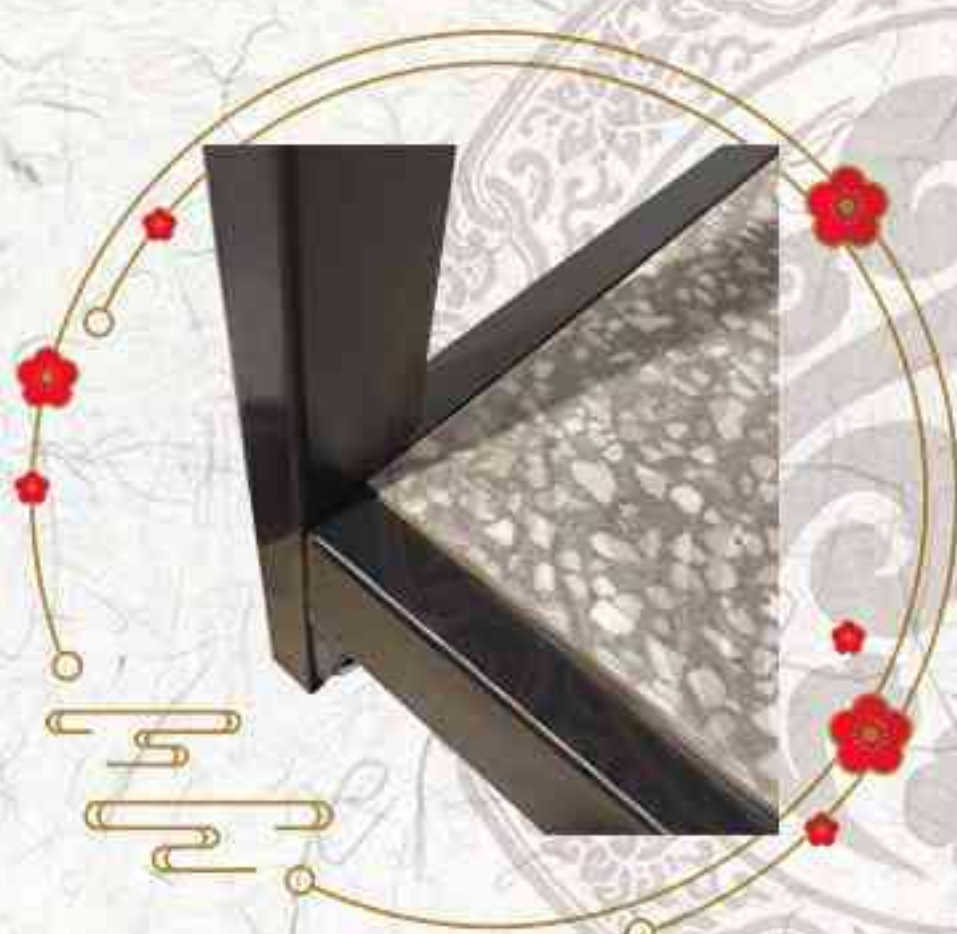

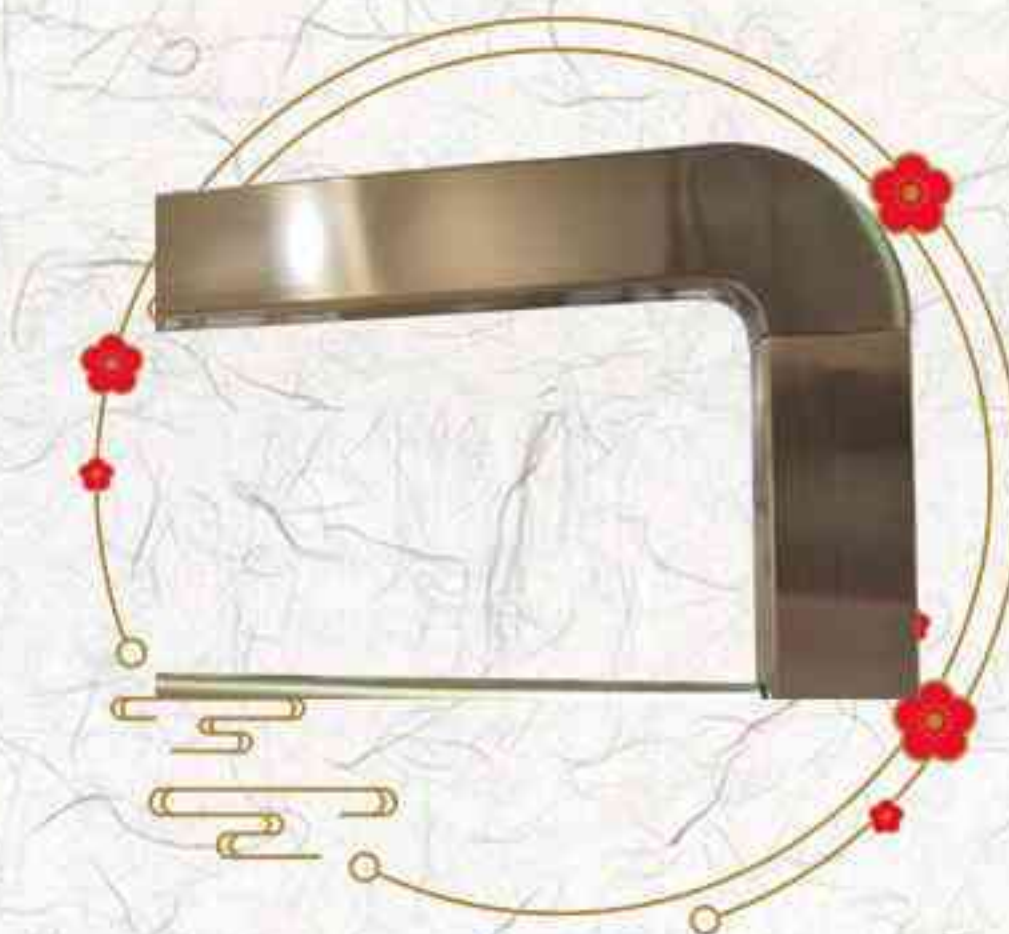

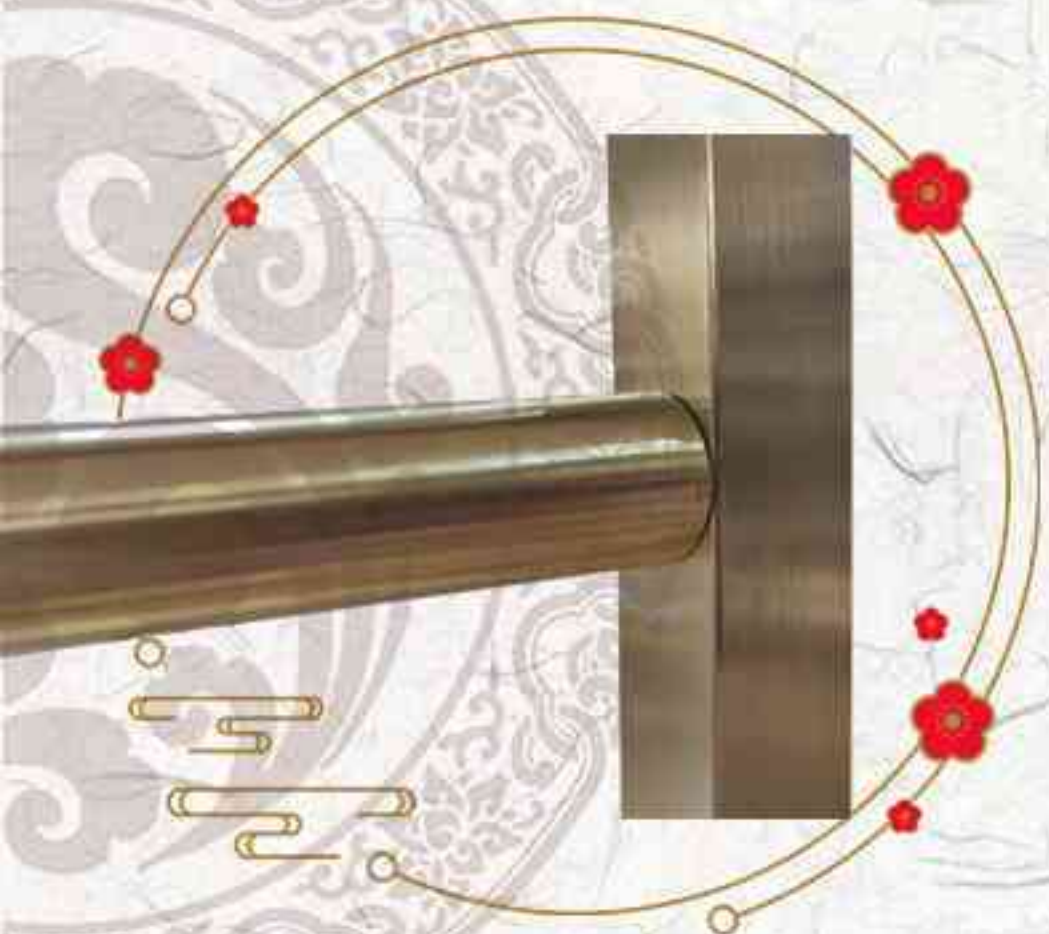

Weight: 32 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-08

Price:337 USD

Size:1820\*40\*2200mm

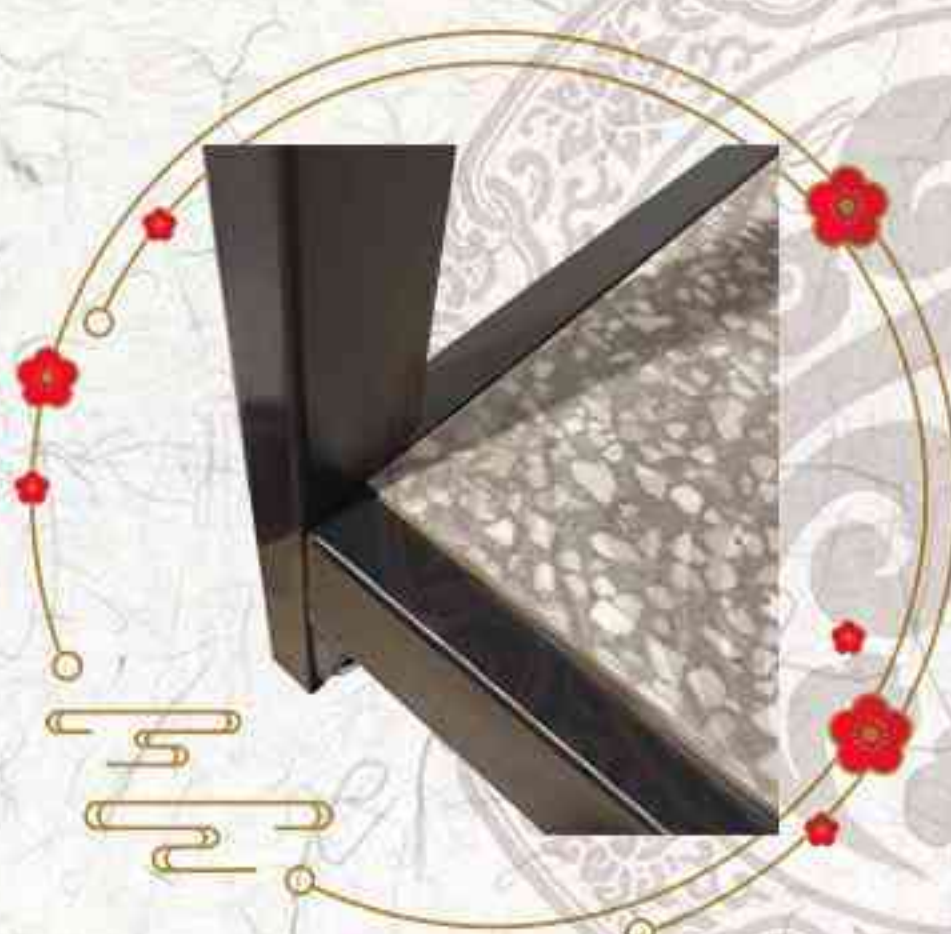

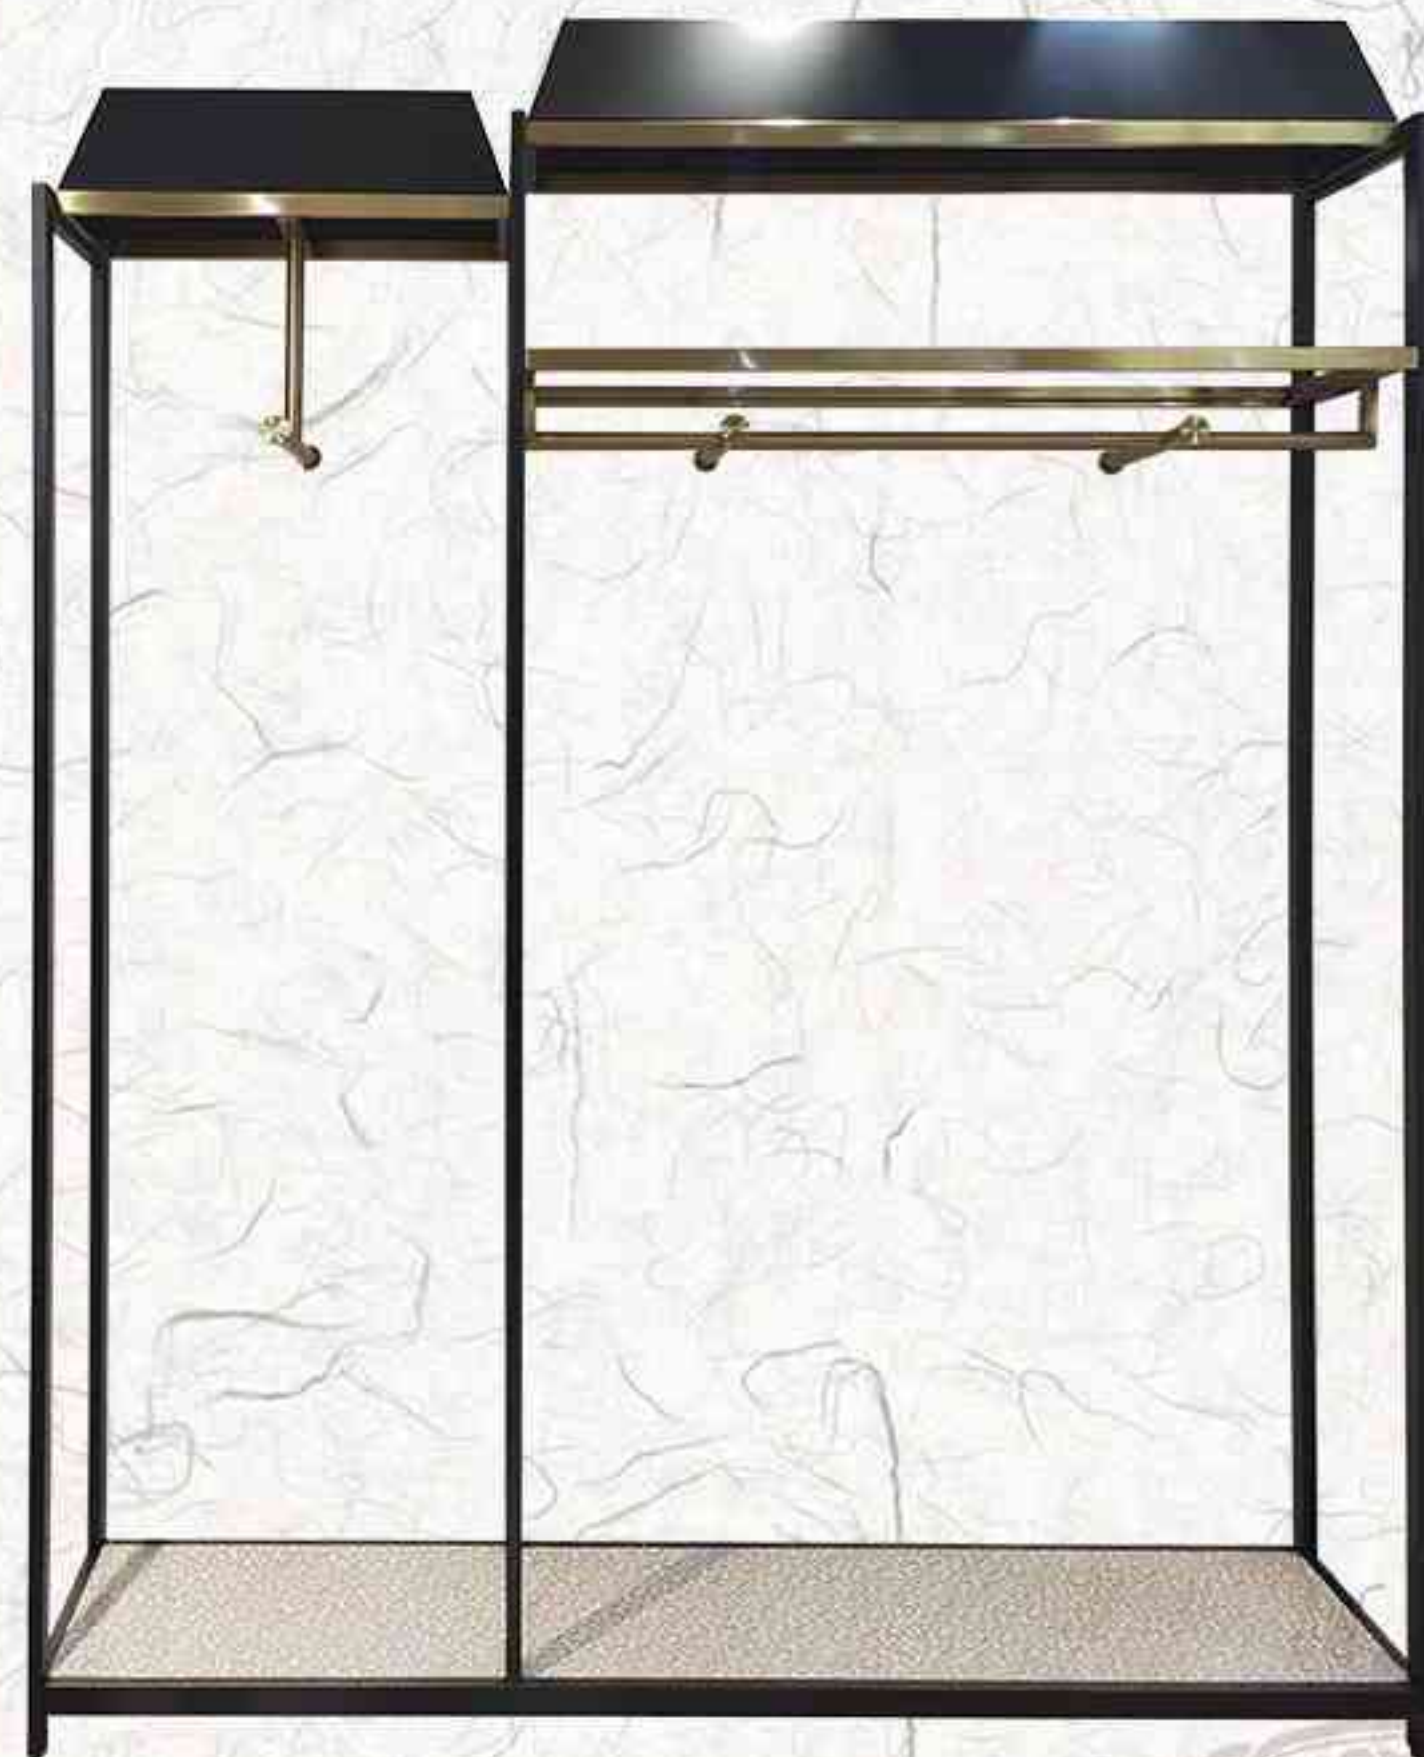

Weight: 47 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# DUSK WIND SERIES

DW-XK-09

Price For Two:227 USD

Size:980\*480\*550mm/1180\*580\*700mm

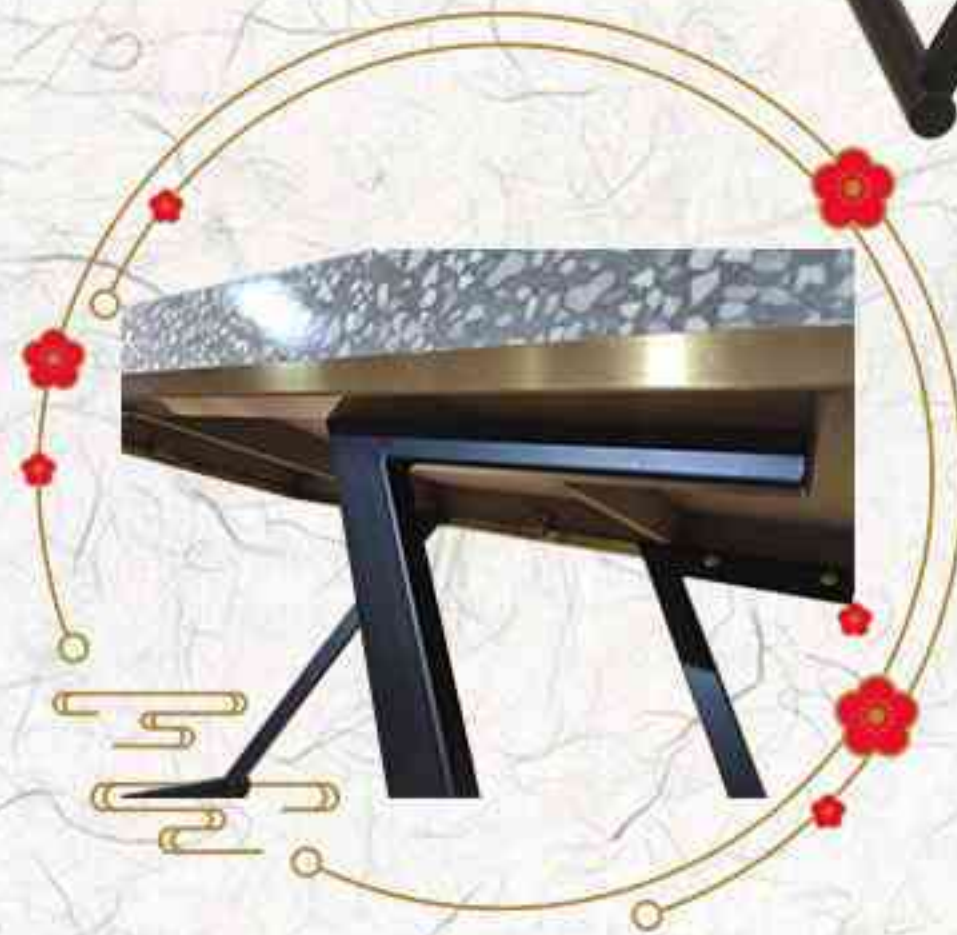

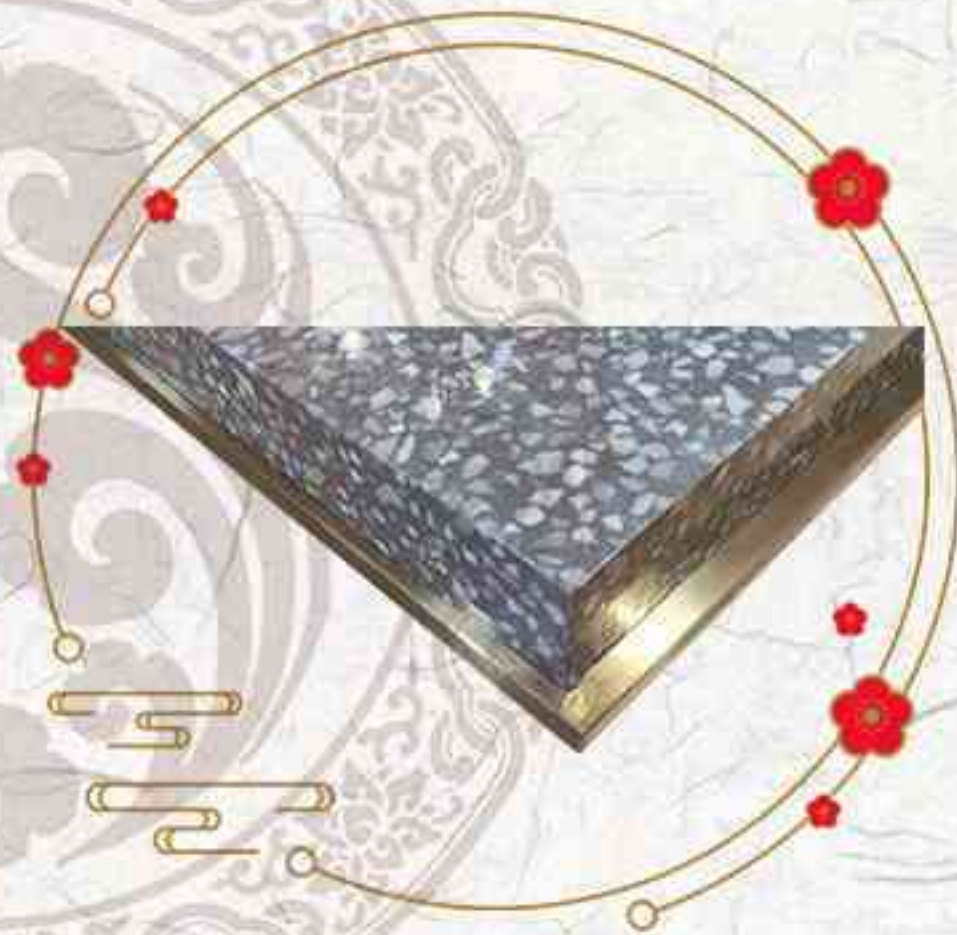

Weight: 23 KG

Material:

High pure stainless steel+ High strength iron+Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

## G-XK-01

Price:96 USD

Size:1200\*450\*1500mm

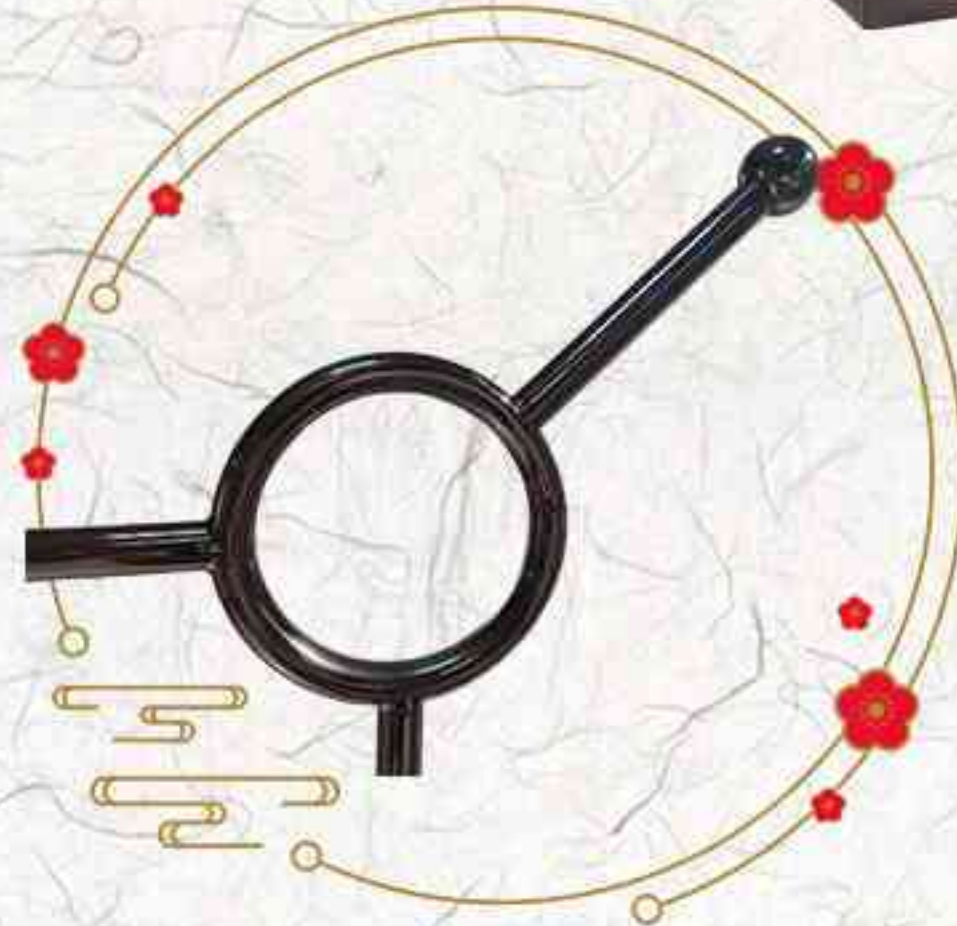

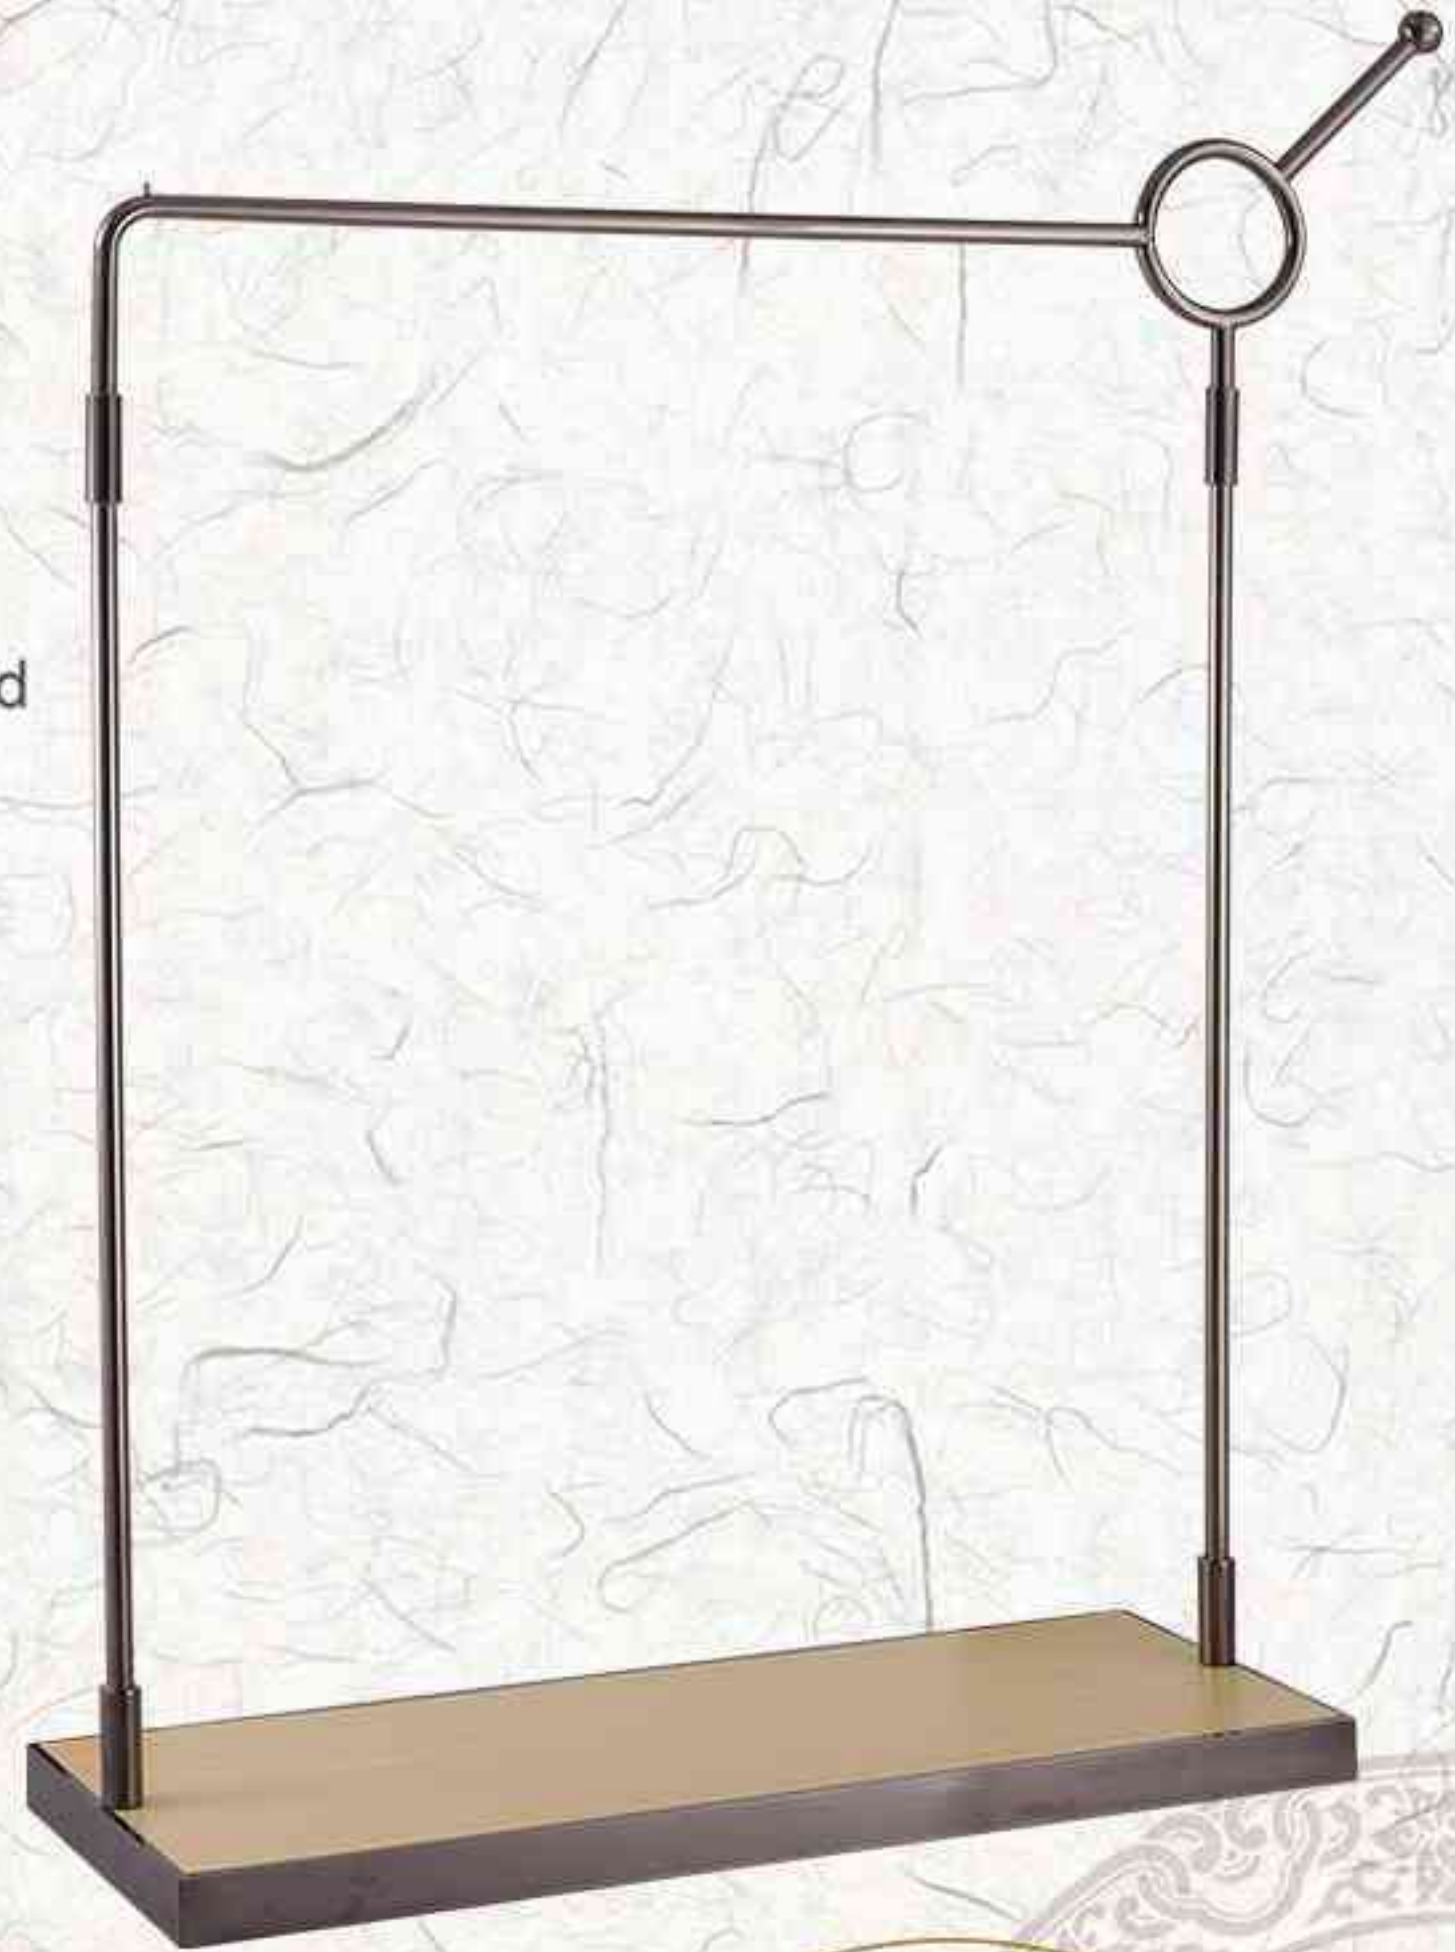

Weight: 13 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

## G-XK-02

Price:99 USD

Size:1200\*450\*1500mm

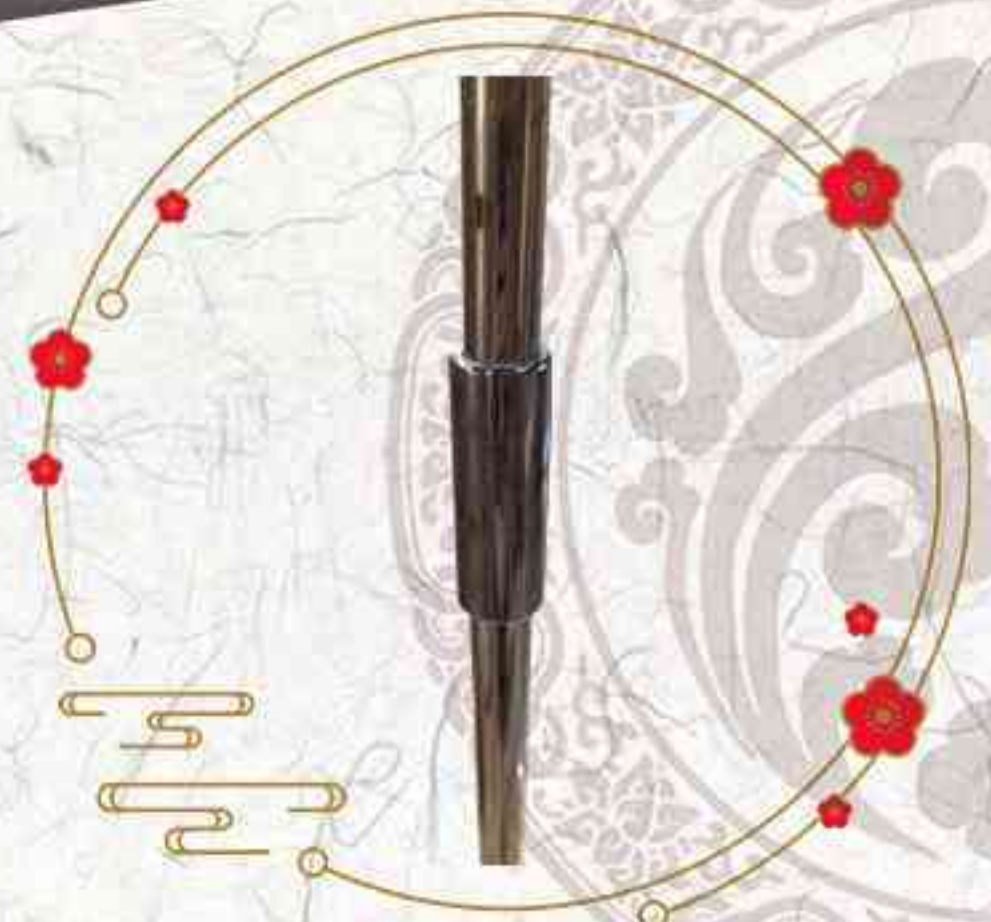

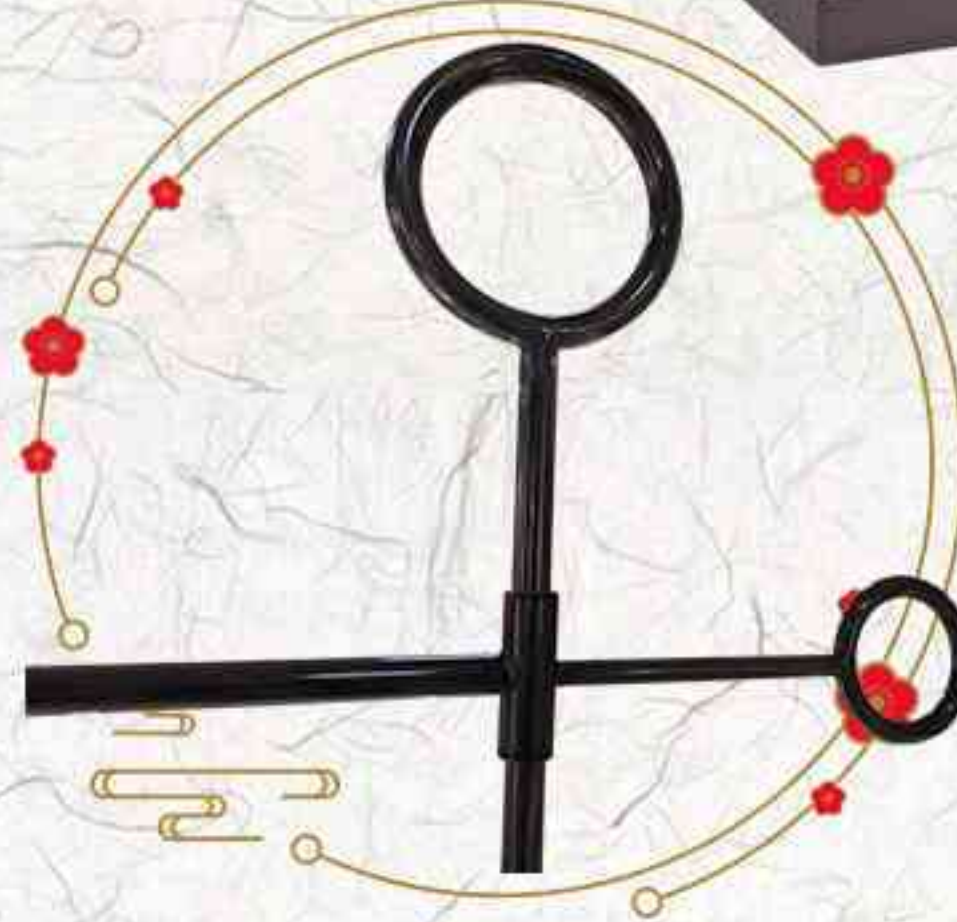

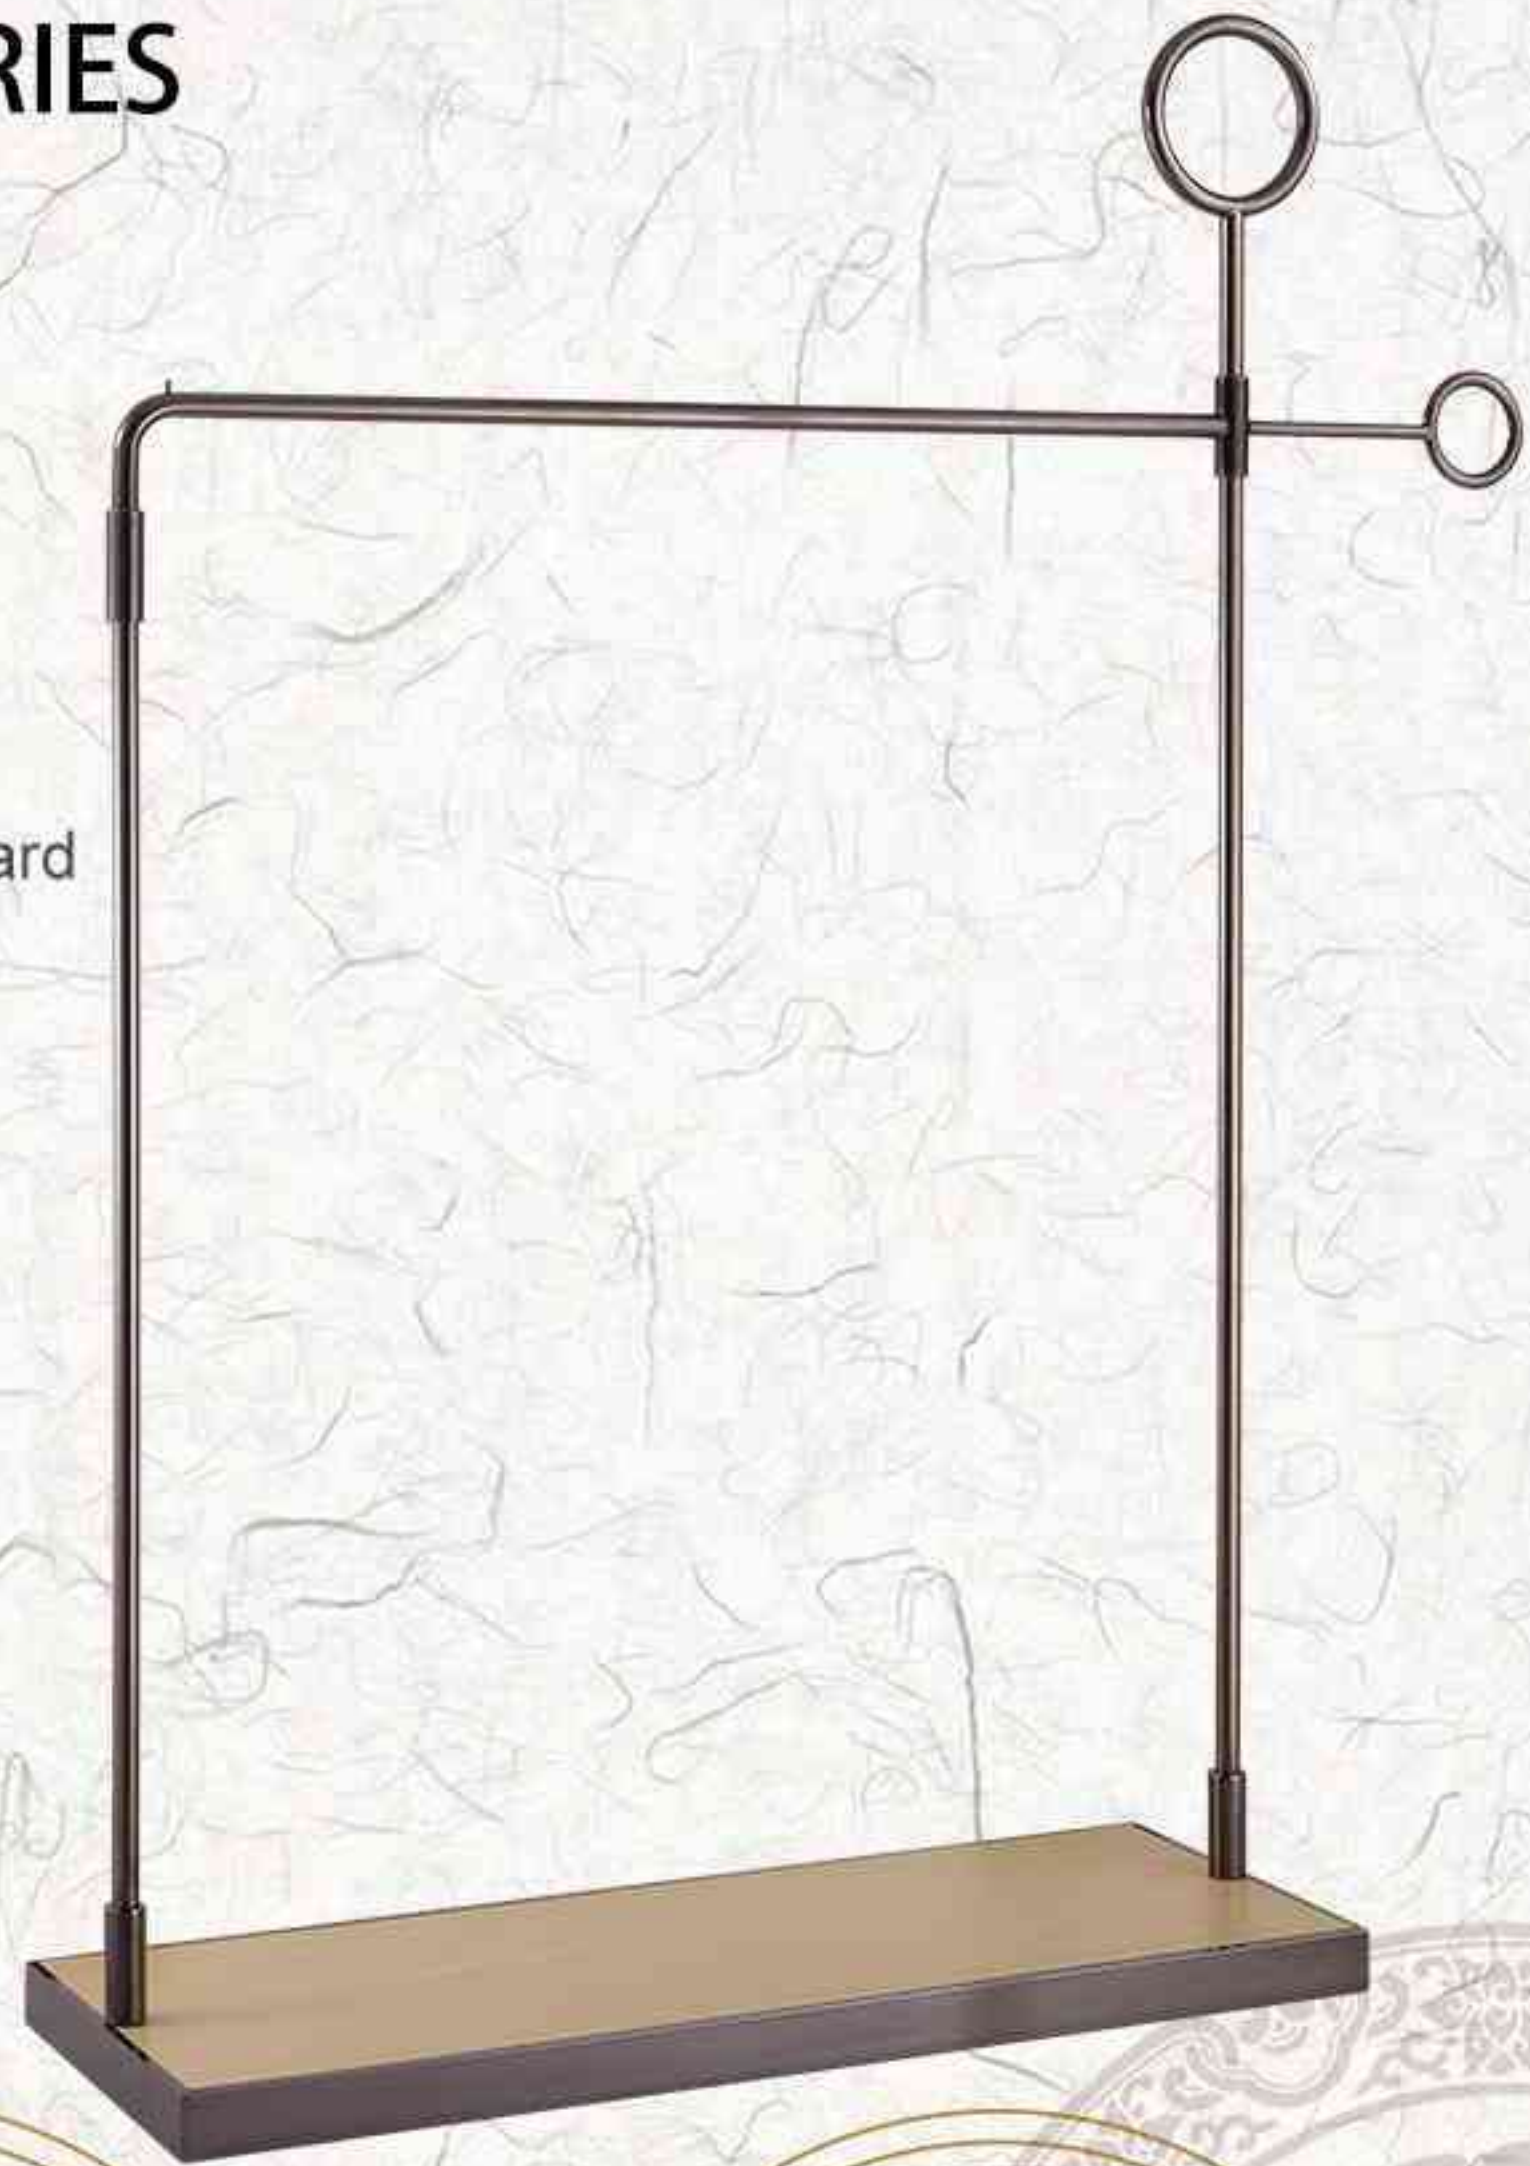

Weight: 13 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

## G-XK-03

Price:115 USD

Size:1200\*450\*1850mm

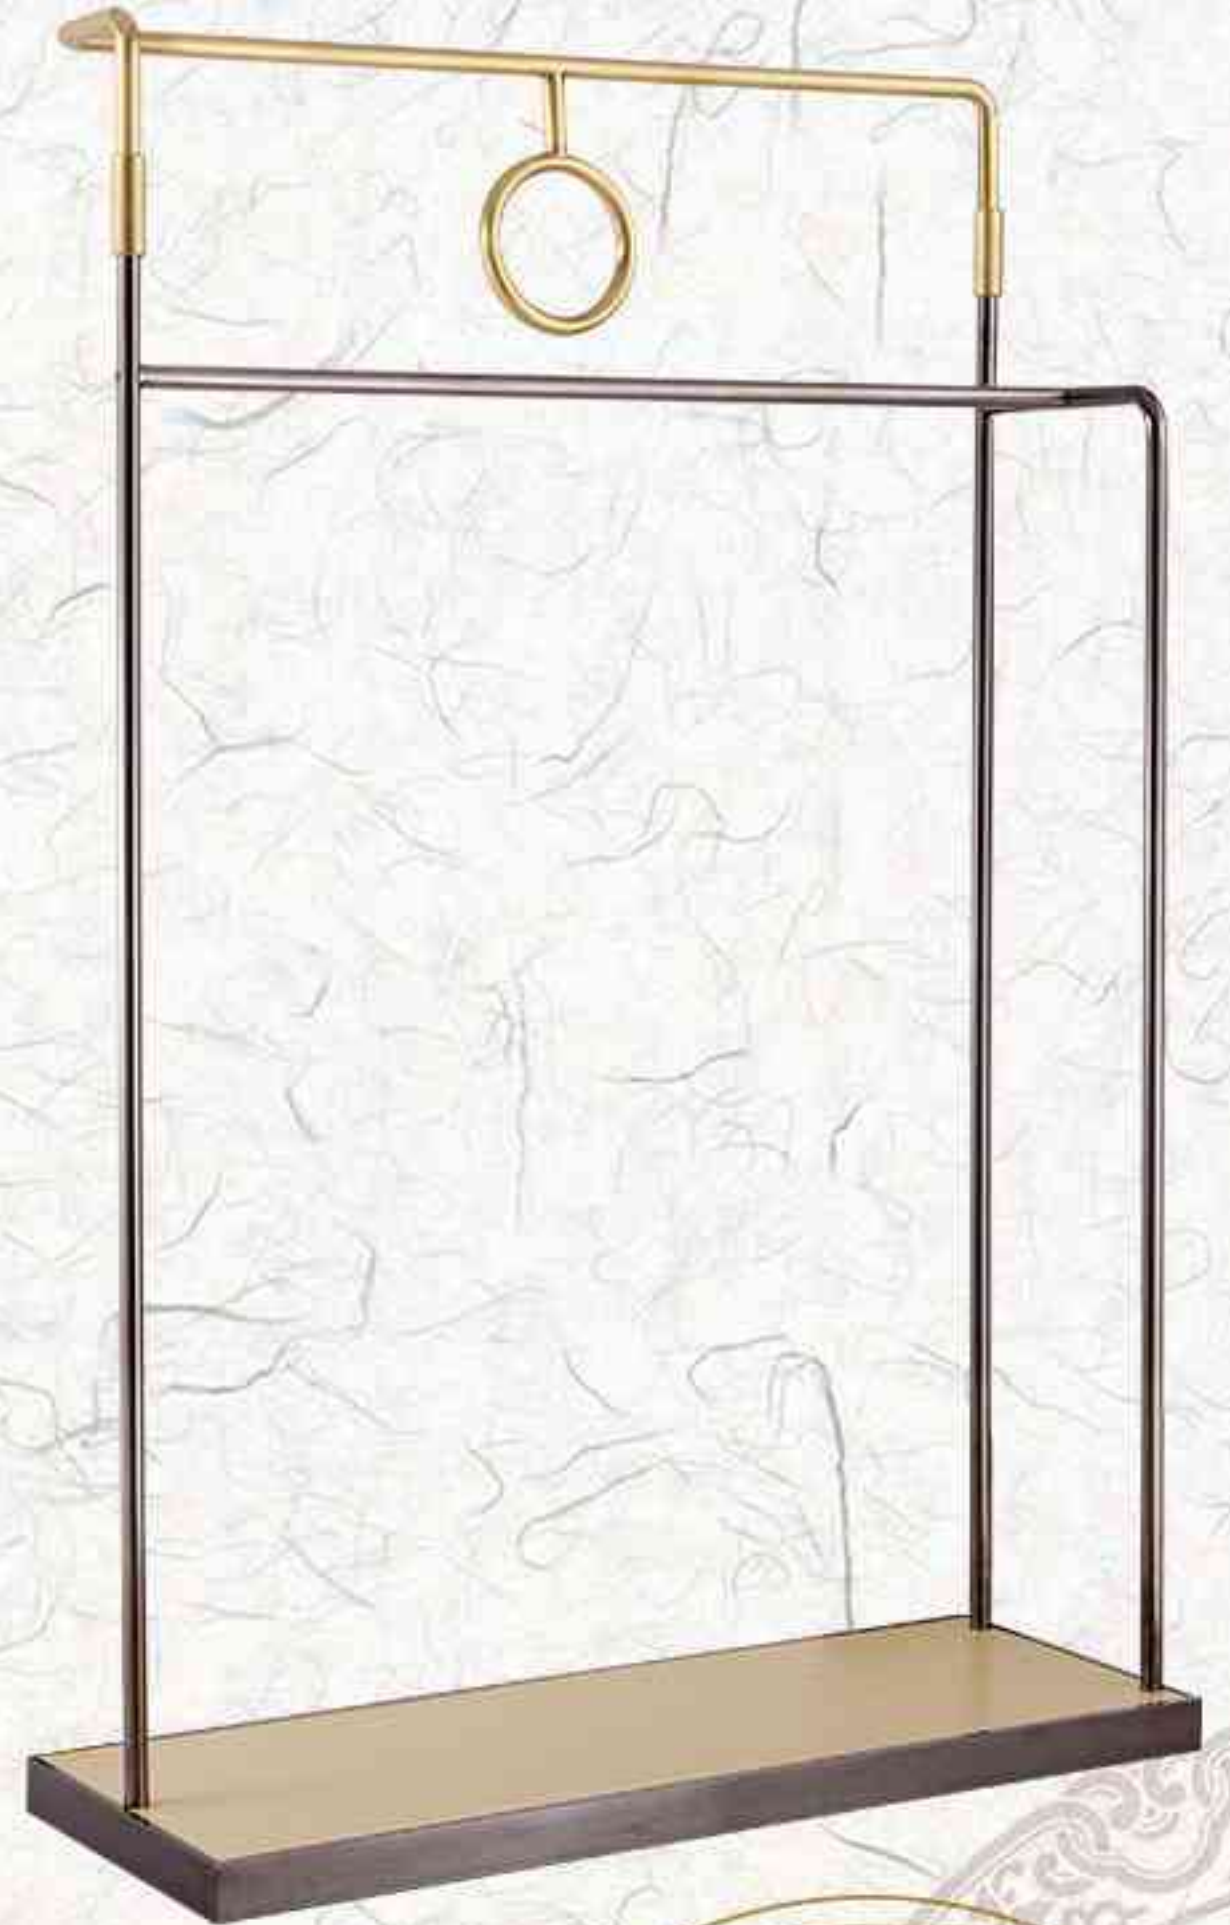

Weight: 18 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

G-XK-04

Price:105 USD

Size:600\*450\*2000mm

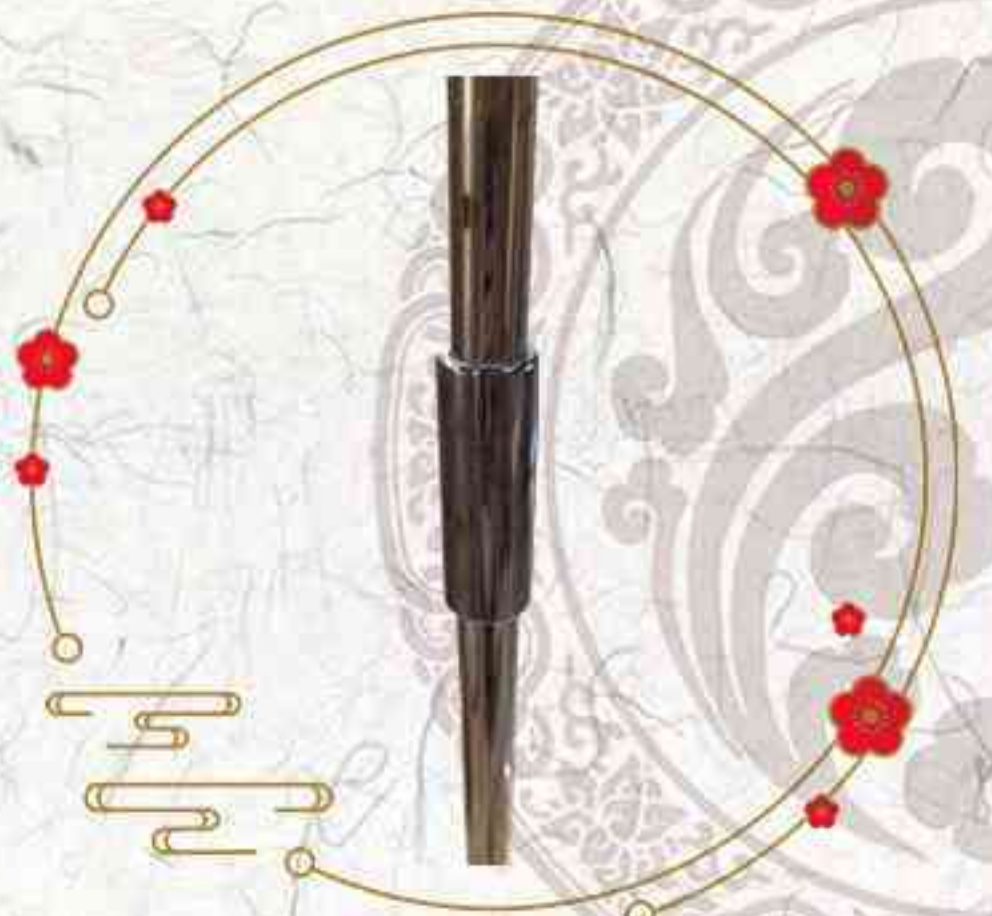

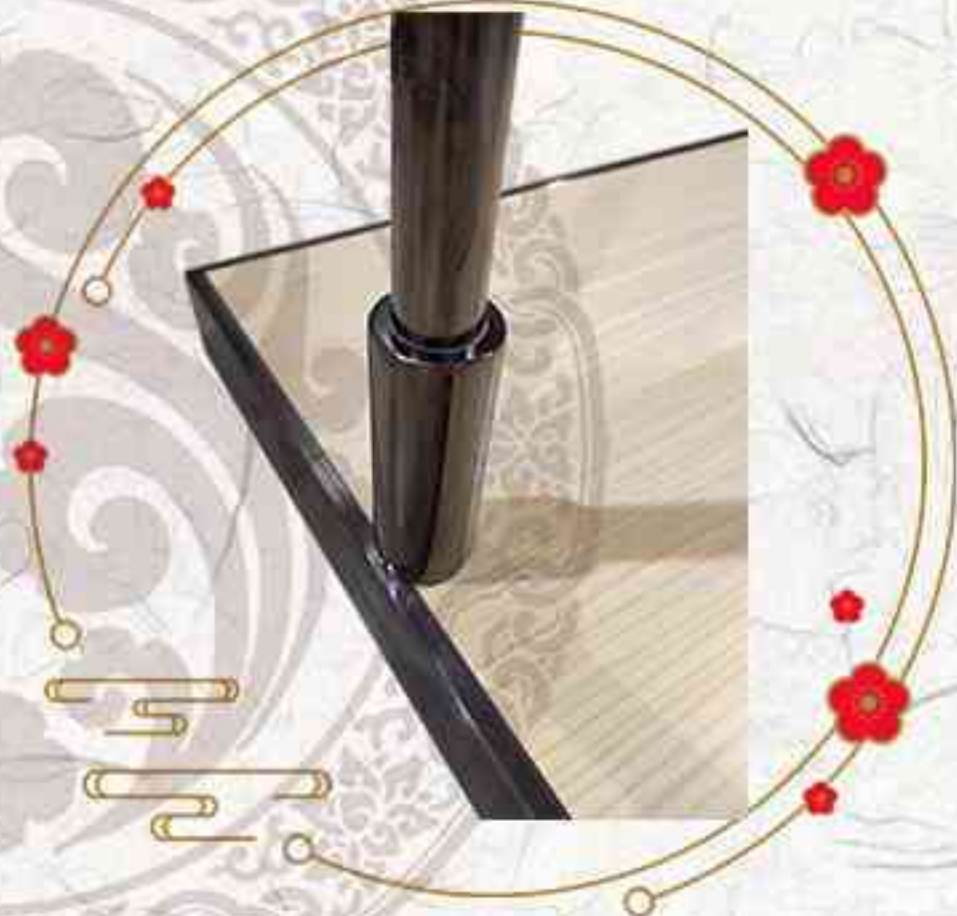

Weight: 16 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

## G-XK-05

Price: 115 USD

Size: 600\*450\*1850mm

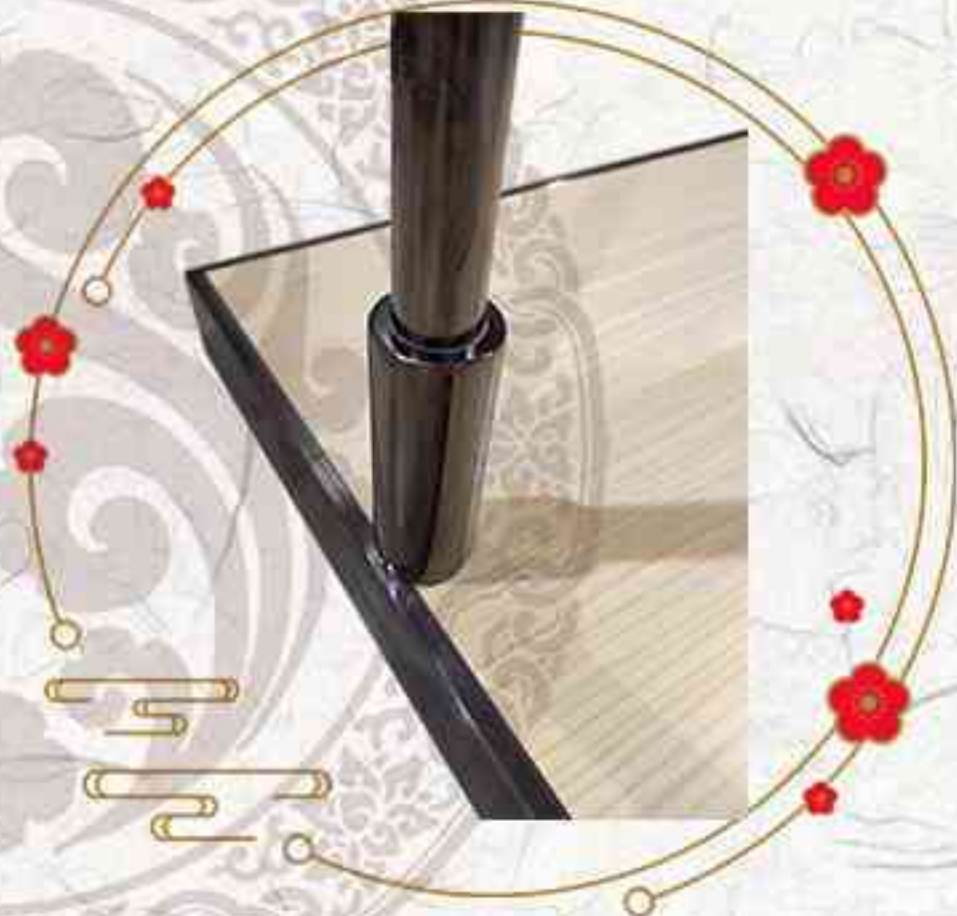

Weight: 18 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

1. Use high-purity stainless steel as raw material, high temperature resistance and corrosion resistance
2. Industry-leading welding technology, every clothing display rack welding position is treated manually
3. High level Electroplating Technology, improve corrosion resistance, hardness, durable, Smooth and beautiful
4. Wire Drawing Process, more wear resistant than ordinary stainless steel. It looks more high grade

# GLOBAL SERIES

G-XK-06

Price:99 USD

Size:1200\*450\*1500mm

Weight: 15 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

G-XK-07

Price:55 USD

Size:400\*1800mm

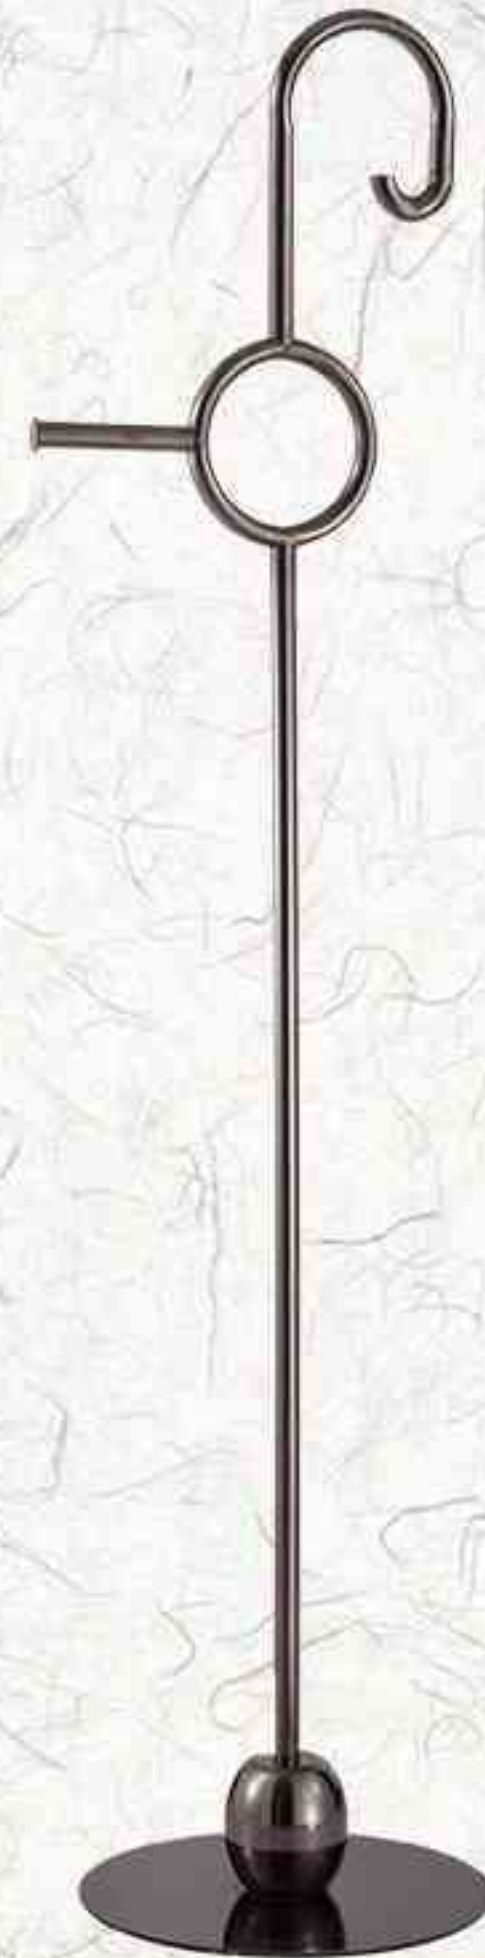

Weight: 8 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

G-XK-08

Price:59 USD

Size:665\*1800mm

Weight: 11 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

G-XK-09

Price:105 USD

Size:1200\*360\*750mm

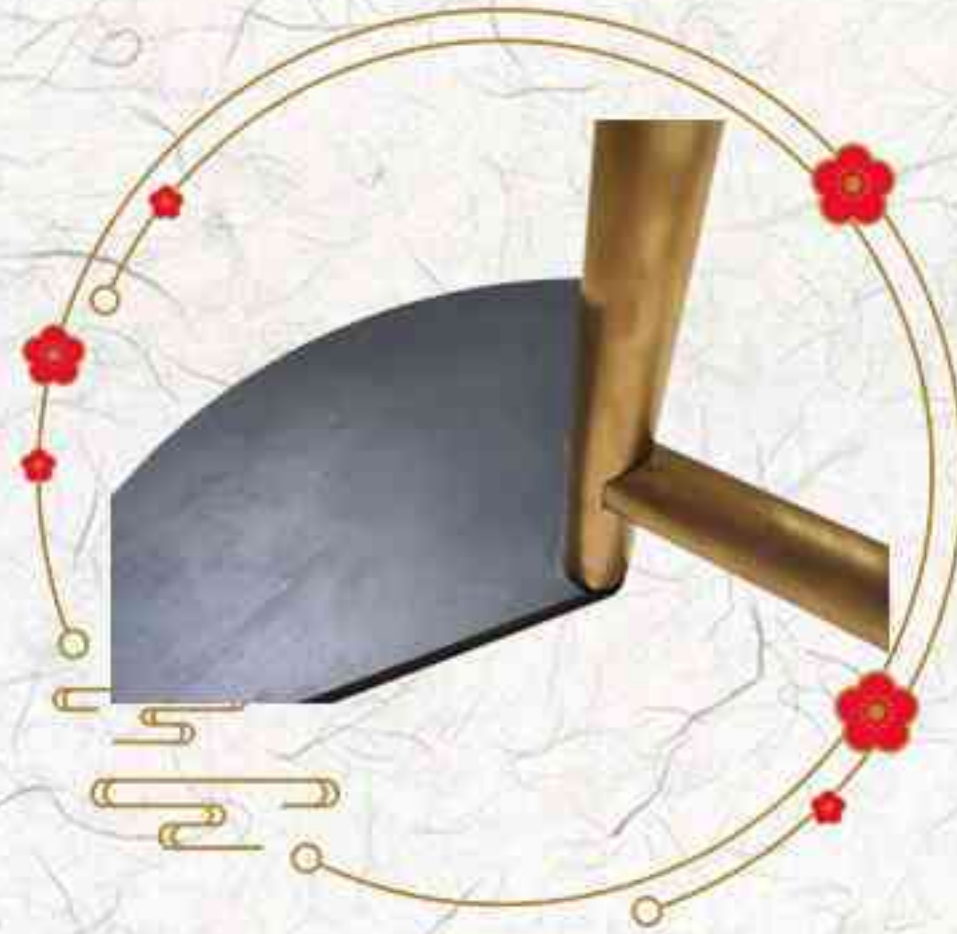

Weight: 12 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GLOBAL SERIES

## G-XK-10

Price:105 USD

Size:480\*870mm

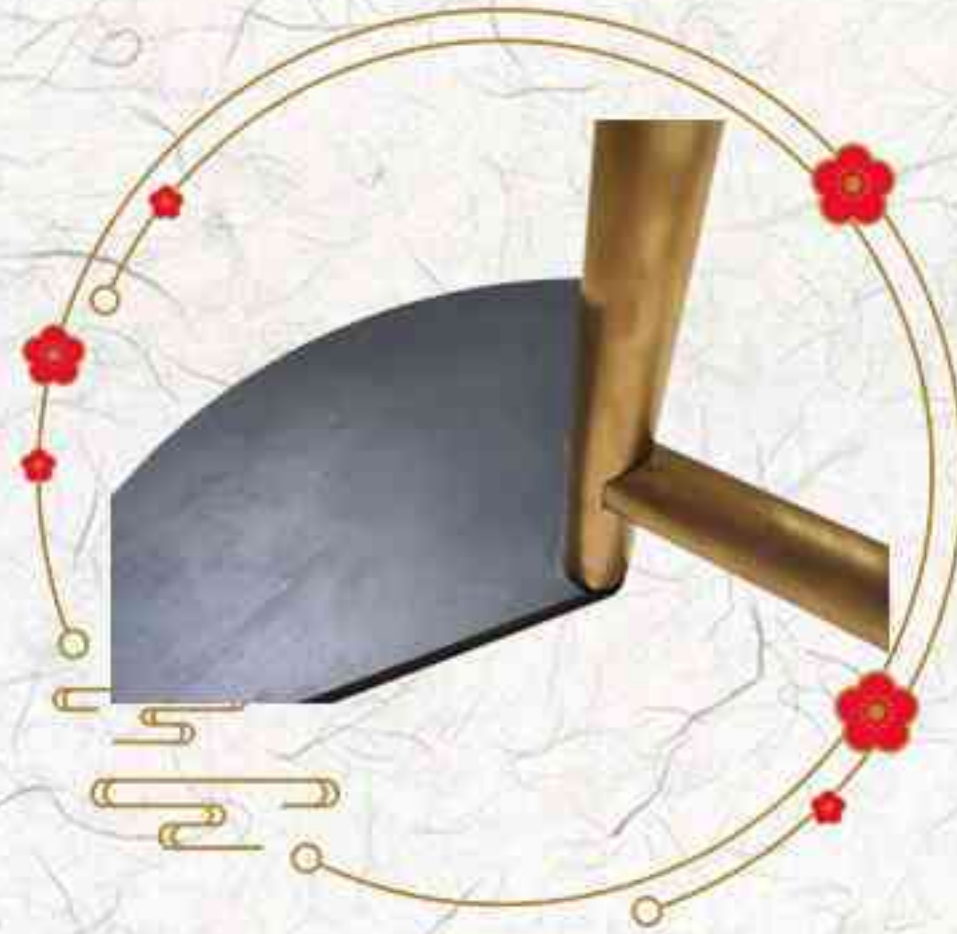

Weight: 12 KG

Material:

High pure stainless steel+ High strength iron

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-01

Price:188 USD

Size:620\*450\*2333mm

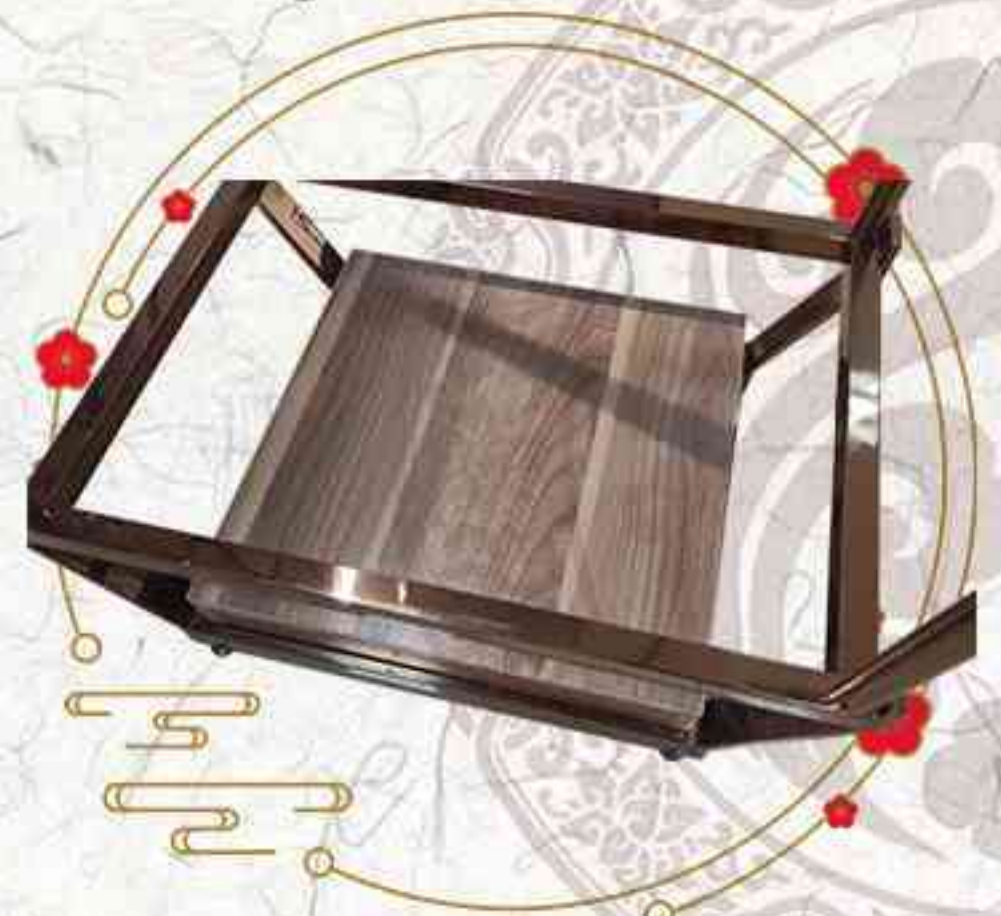

Weight: 15 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-02

Price:245 USD

Size:620\*450\*2333mm

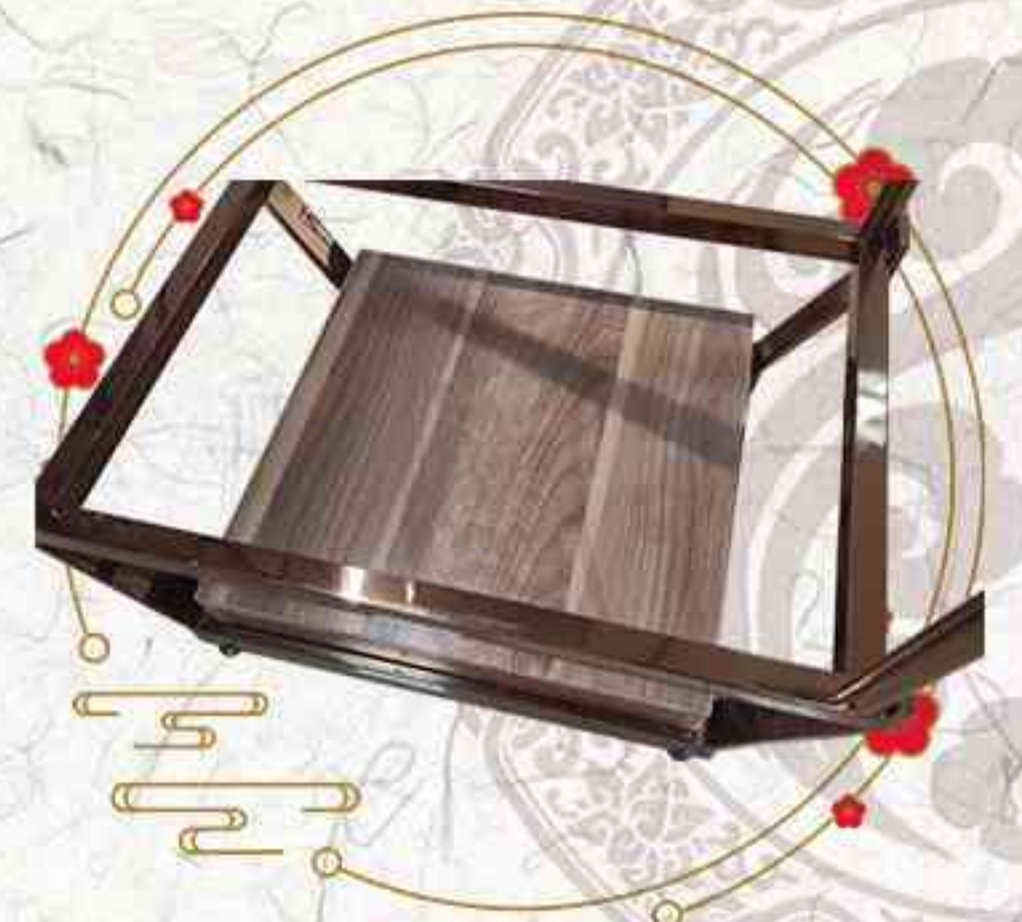

Weight: 25 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-03

Price:239 USD

Size:1220\*450\*2333mm

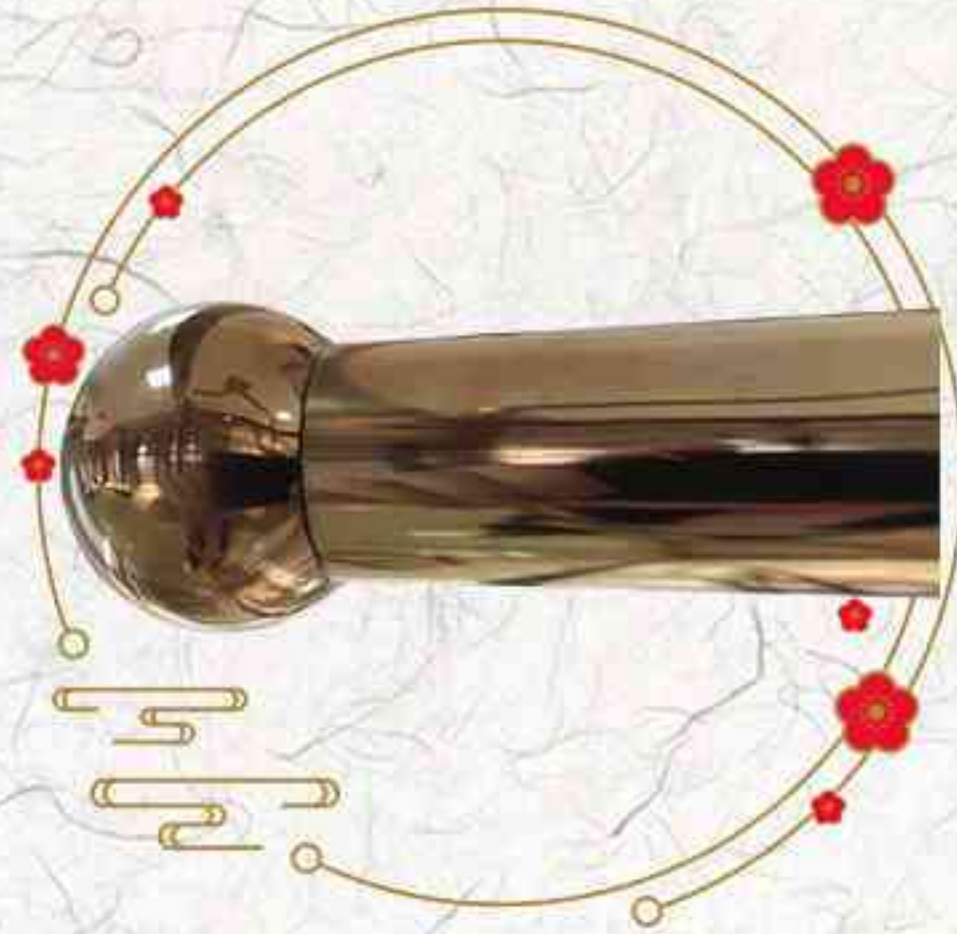

Weight: 23 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-04

Price:236 USD

Size:1220\*450\*2333mm

Weight: 23 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-05

Price:296 USD

Size:1220\*450\*2333mm

Weight: 30 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-06

Price:233 USD

Size:1420\*450\*1865mm

Weight: 24 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-07

Price: 110/115 USD

Size: 1220\*450\*1550mm/1220\*450\*1750mm

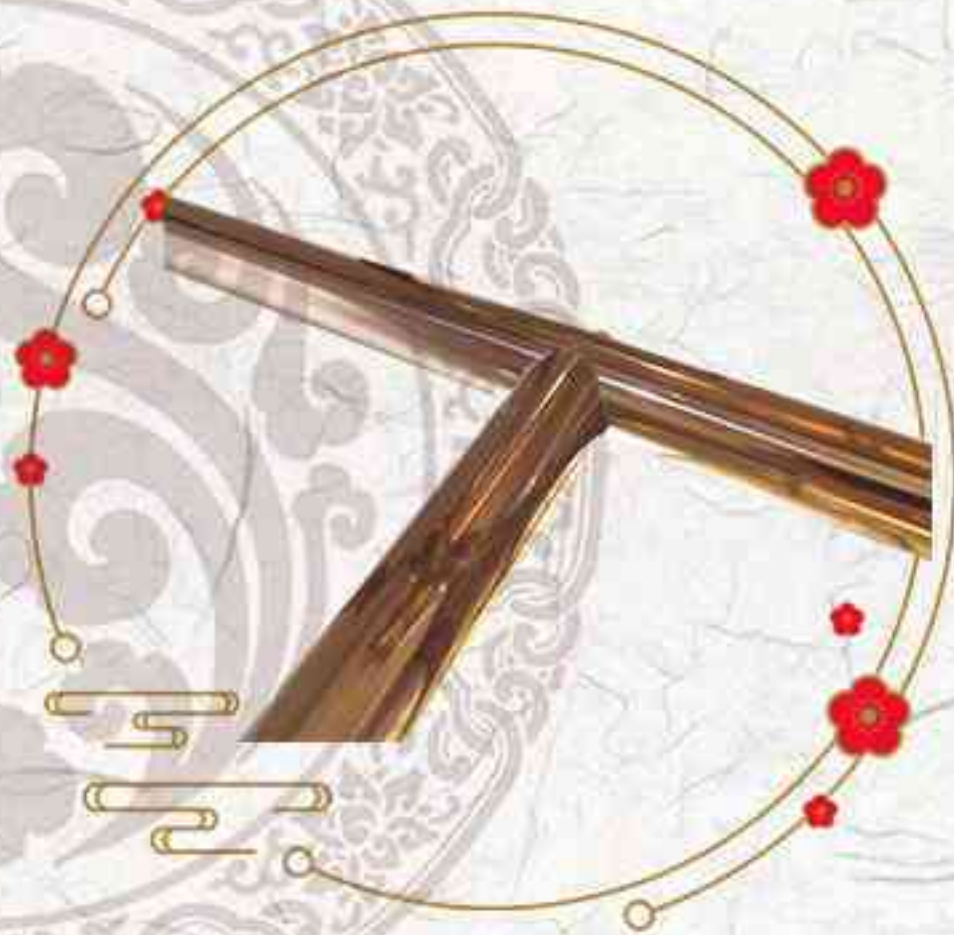

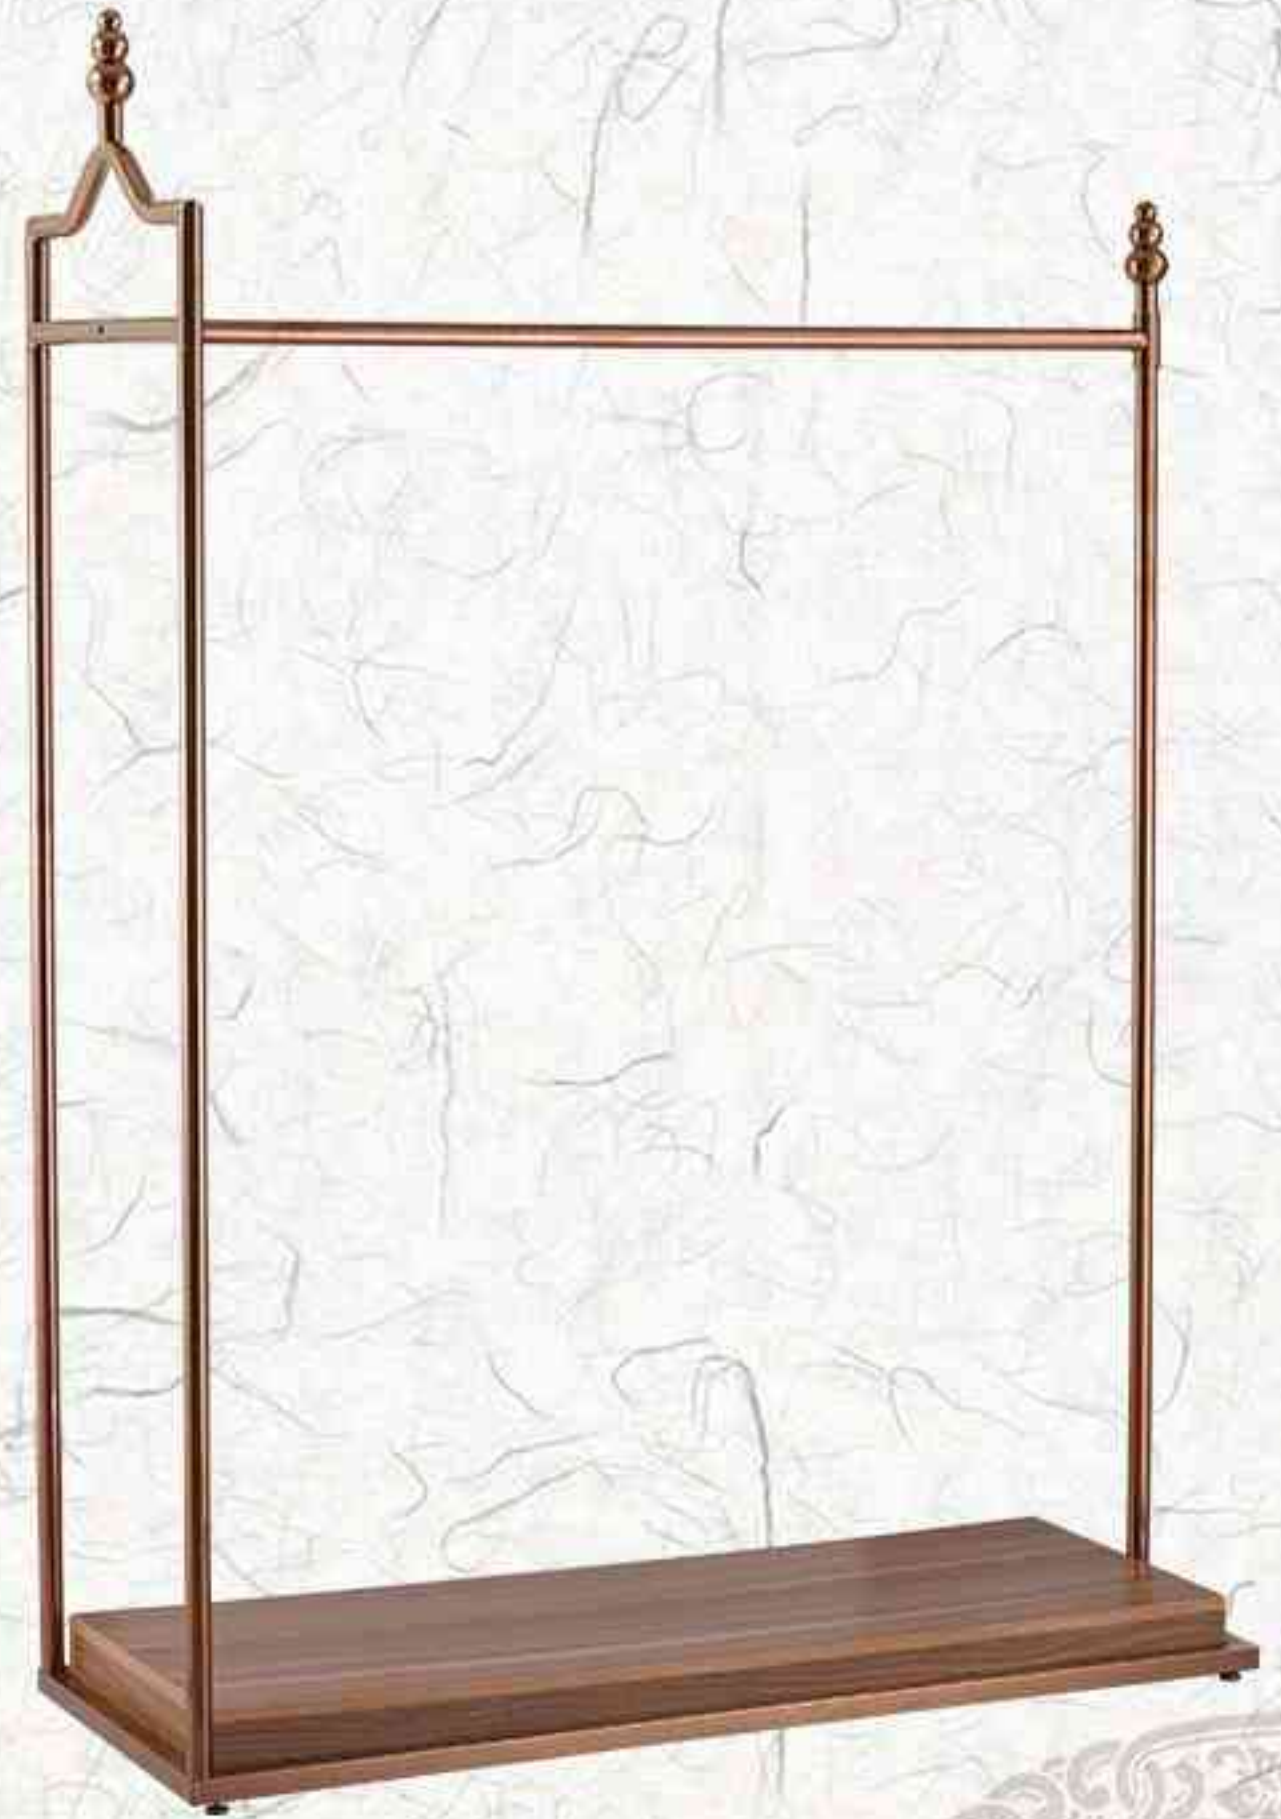

Weight: 9/12 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

1. Use high-purity stainless steel as raw material, high temperature resistance and corrosion resistance
2. Industry-leading welding technology, every clothing display rack welding position is treated manually
3. High level Electroplating Technology, improve corrosion resistance, hardness, durable, Smooth and beautiful
4. Wire Drawing Process, more wear resistant than ordinary stainless steel. It looks more high grade

# GOLDEN FAITH SERIES

GF-XK-08

Price:185 USD

Size:1200\*450\*900mm

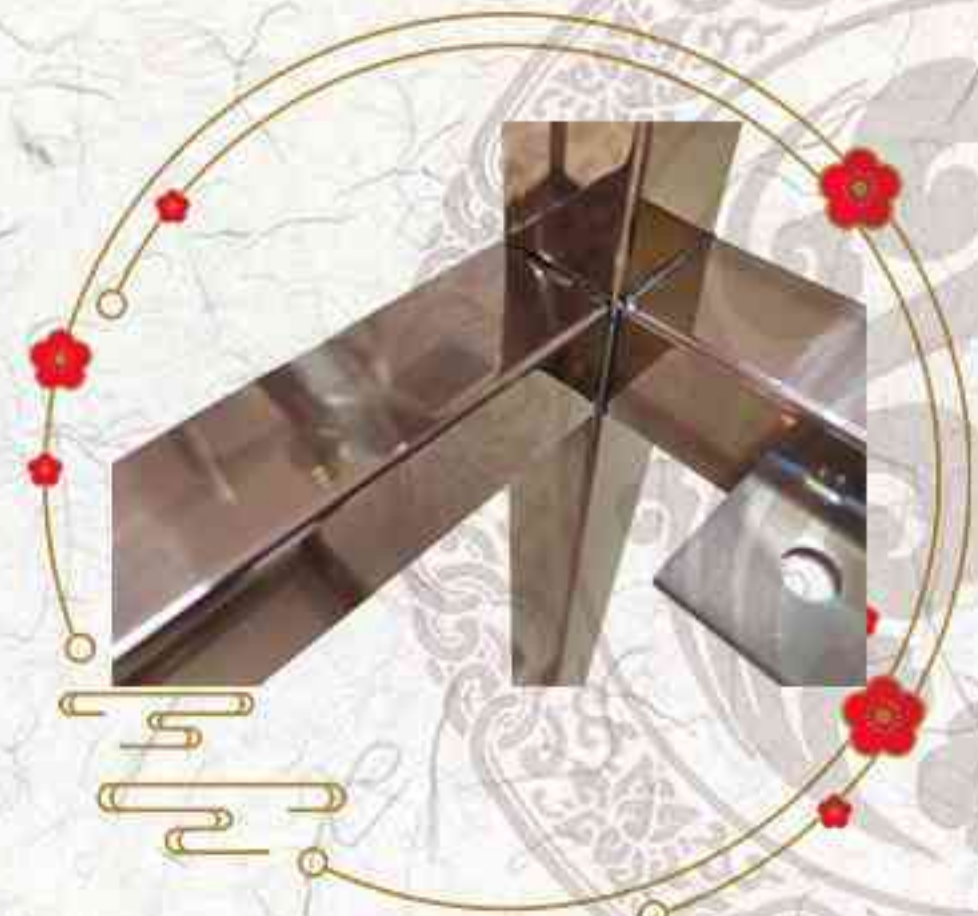

Weight: 17 KG

Material:

High pure stainless steel+ High strength iron+ Wooden board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

## P-XK-01

Price:104 USD

Size:1200\*2800mm (Can adjust up and down 300mm)

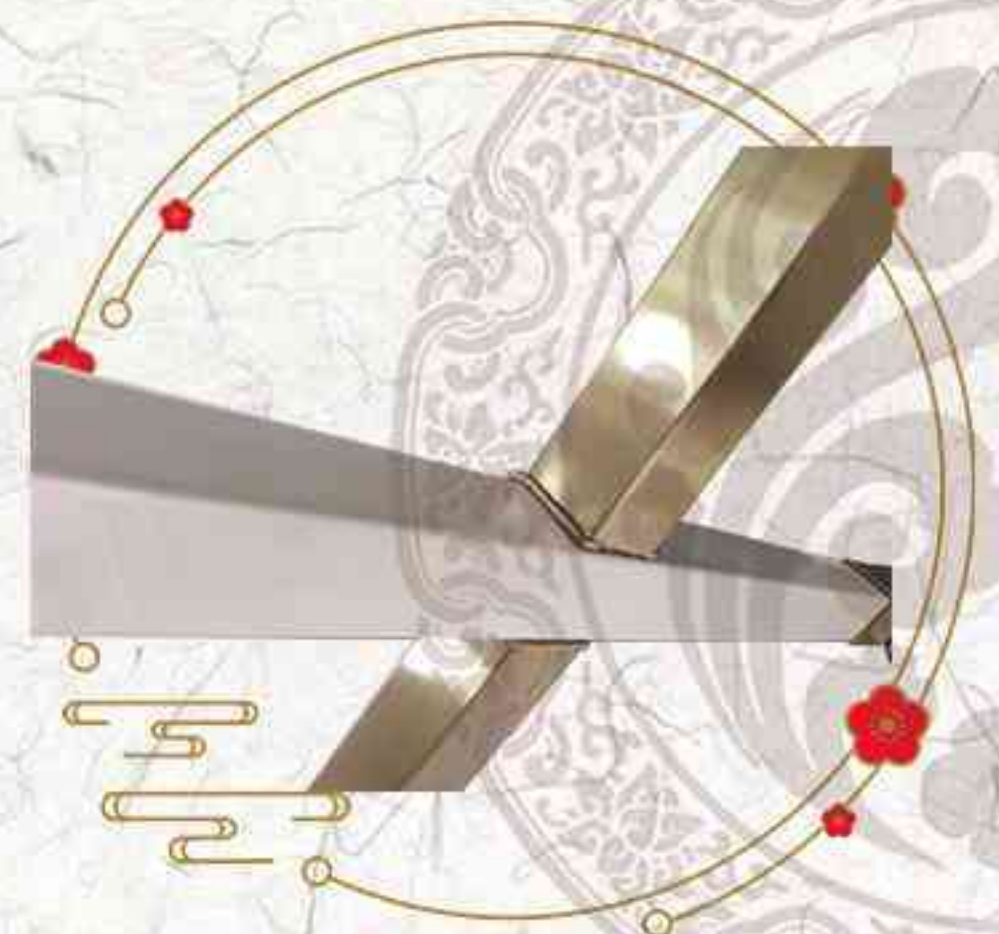

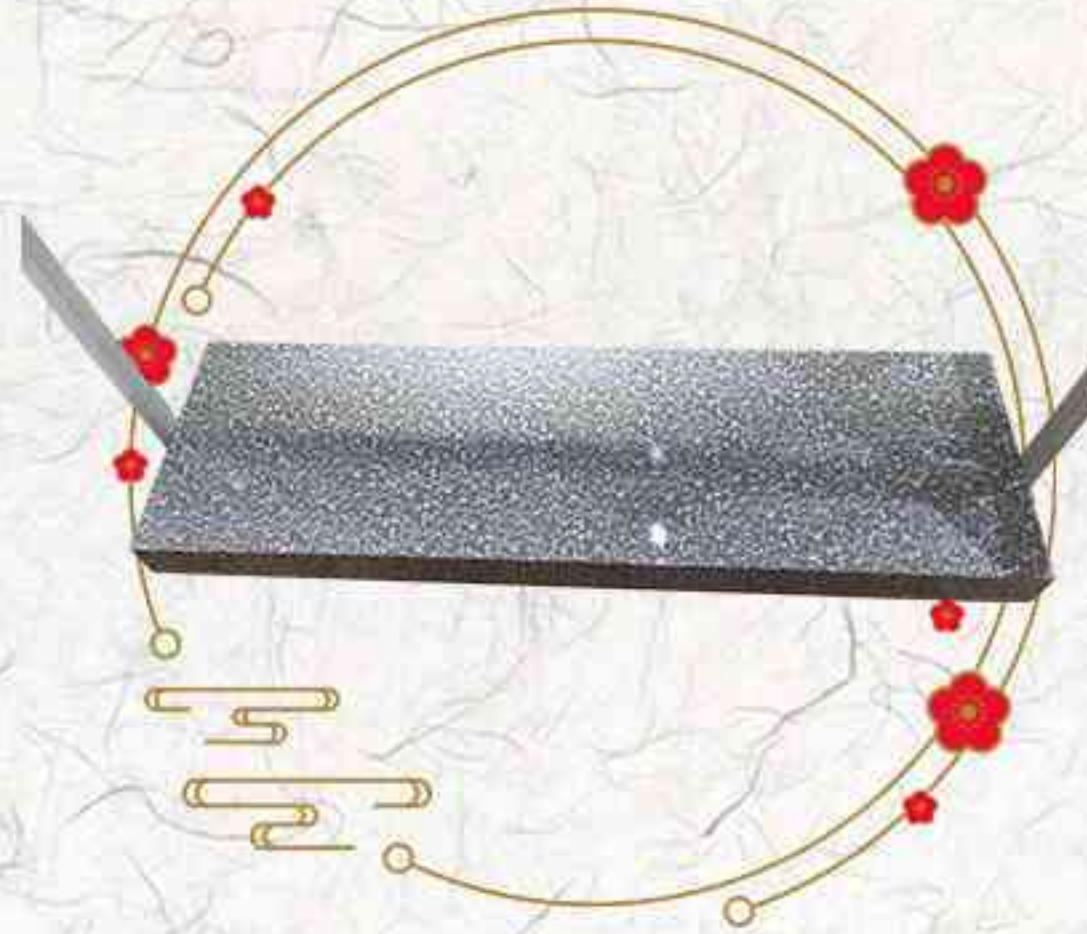

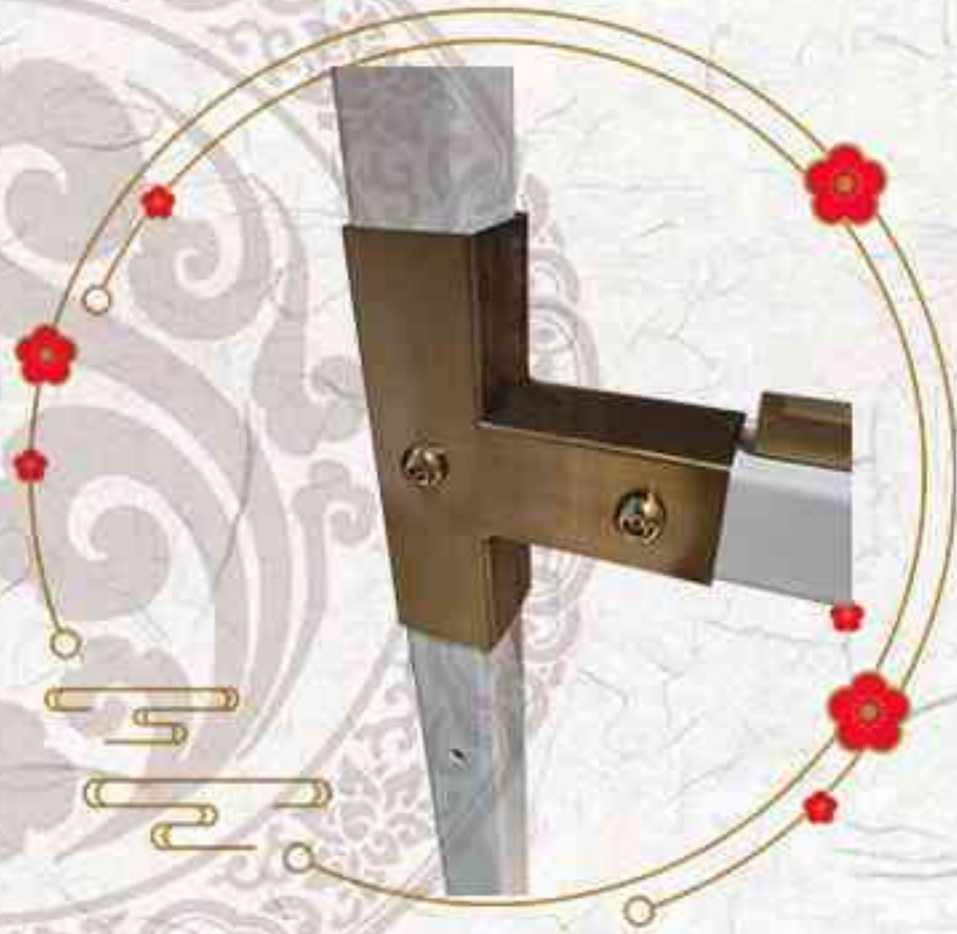

Weight: 29 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-02

Price:245 USD

Size:1200\*400\*2800mm (Can adjust up and down 300mm)

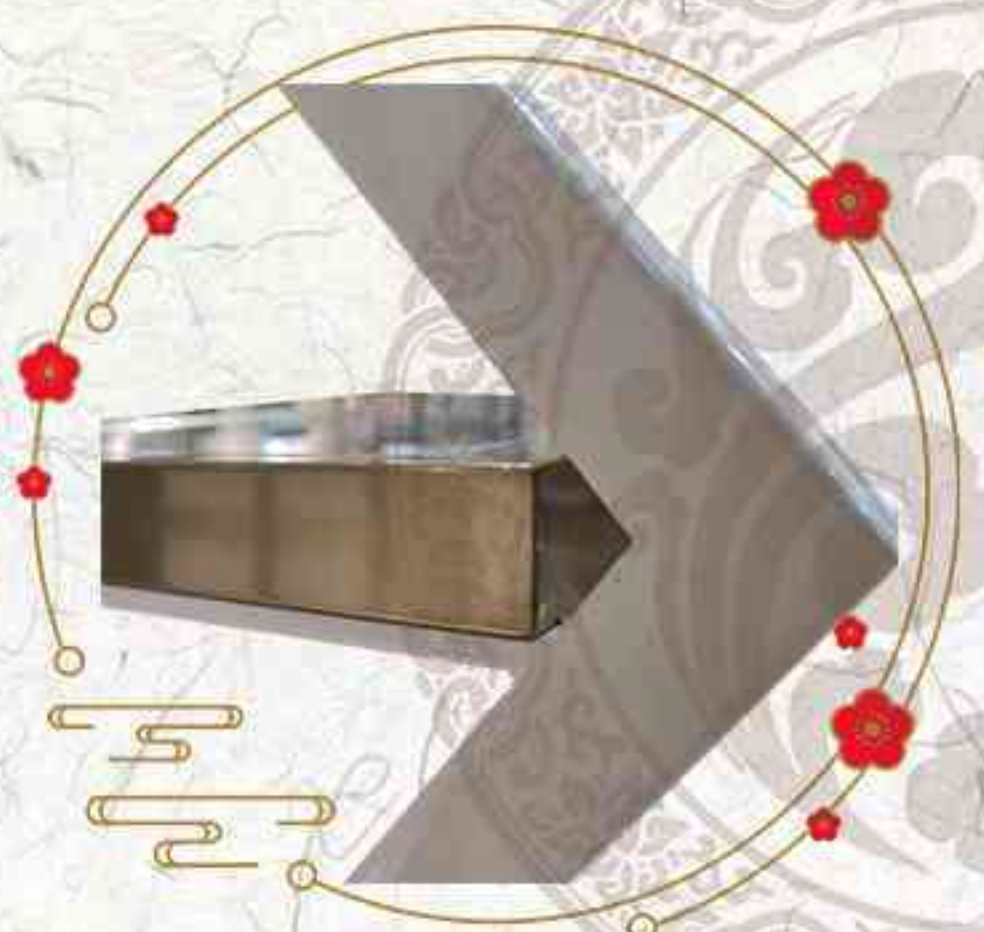

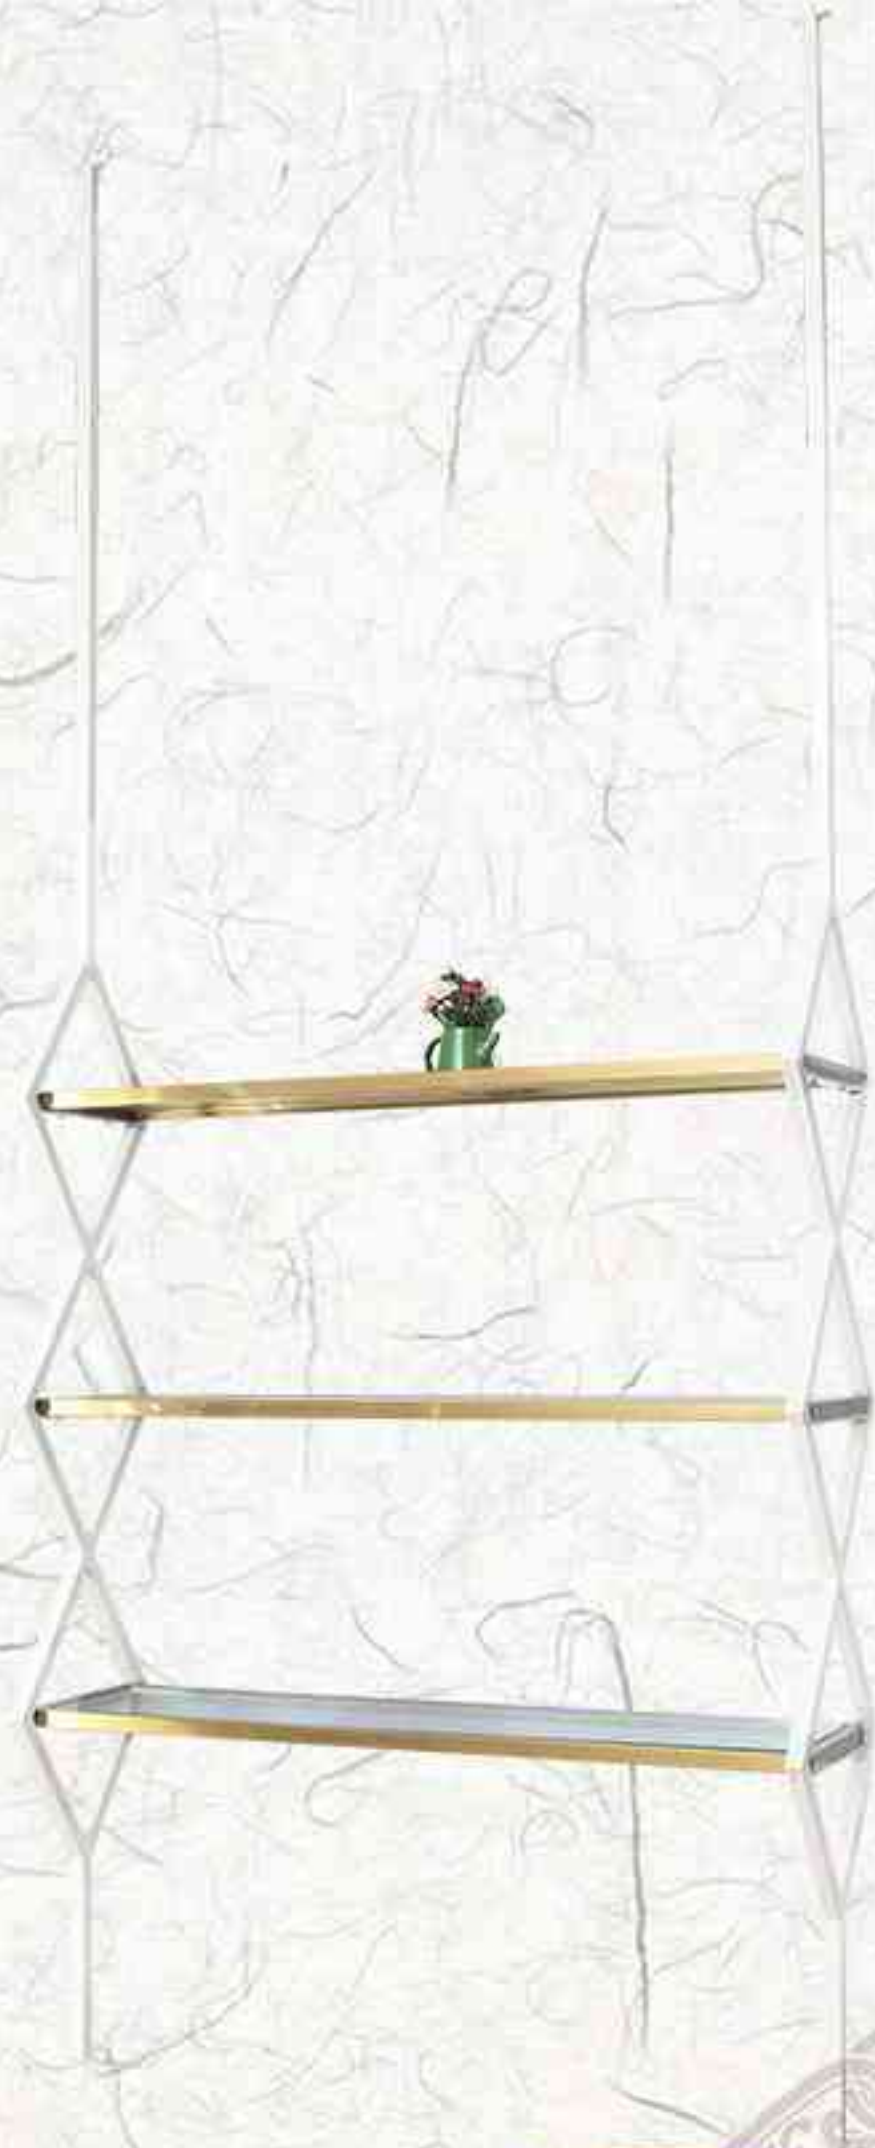

Weight: 41 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-03

Price:84 USD

Size:400\*400\*1050mm (Can adjust up and down 500mm)

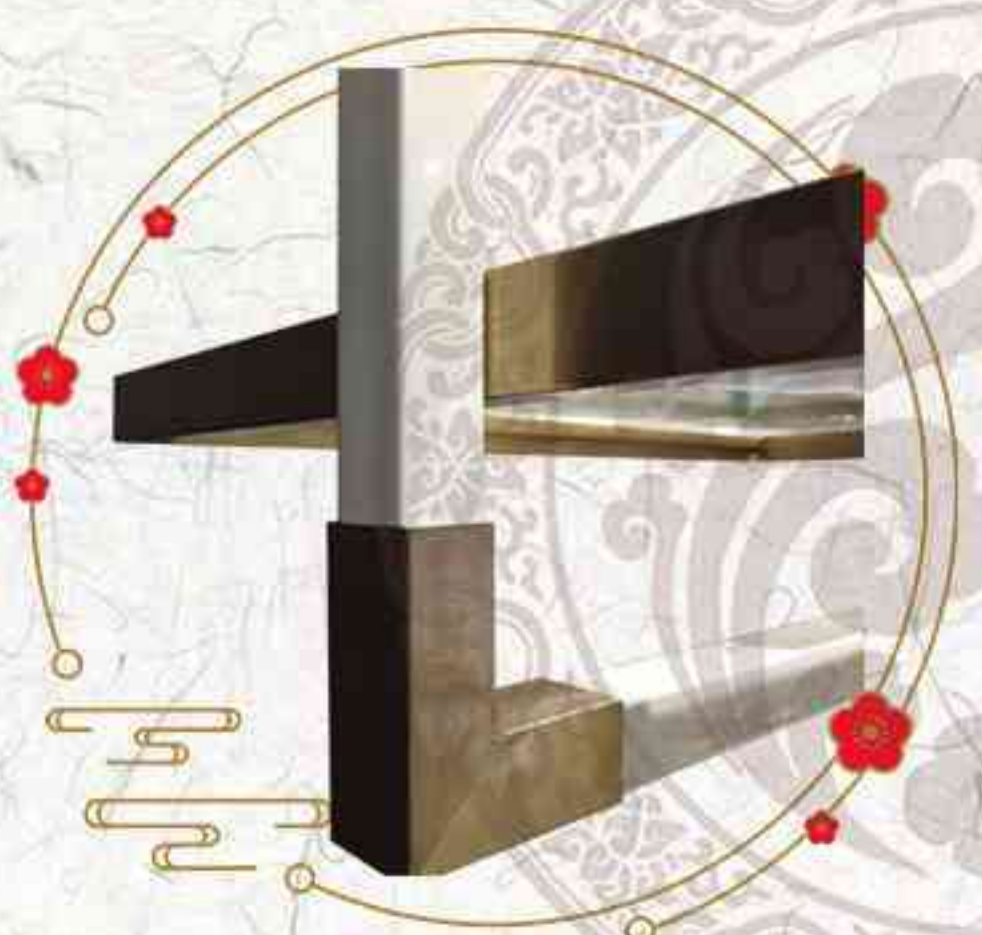

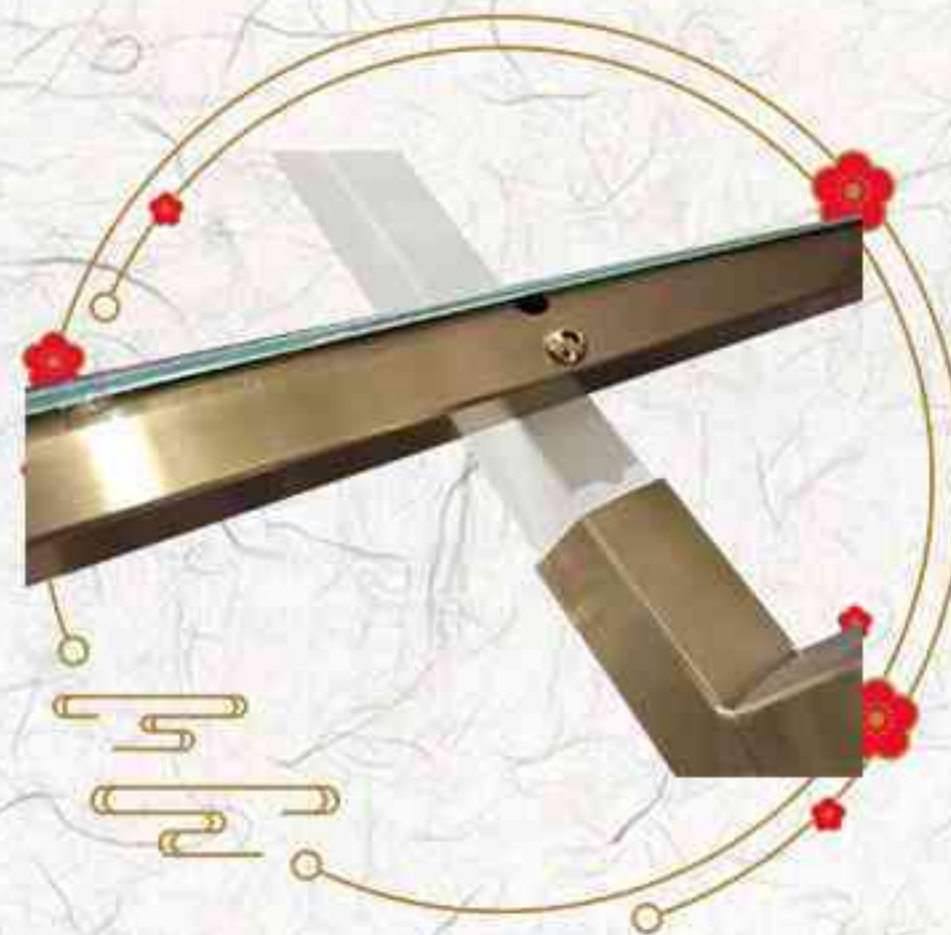

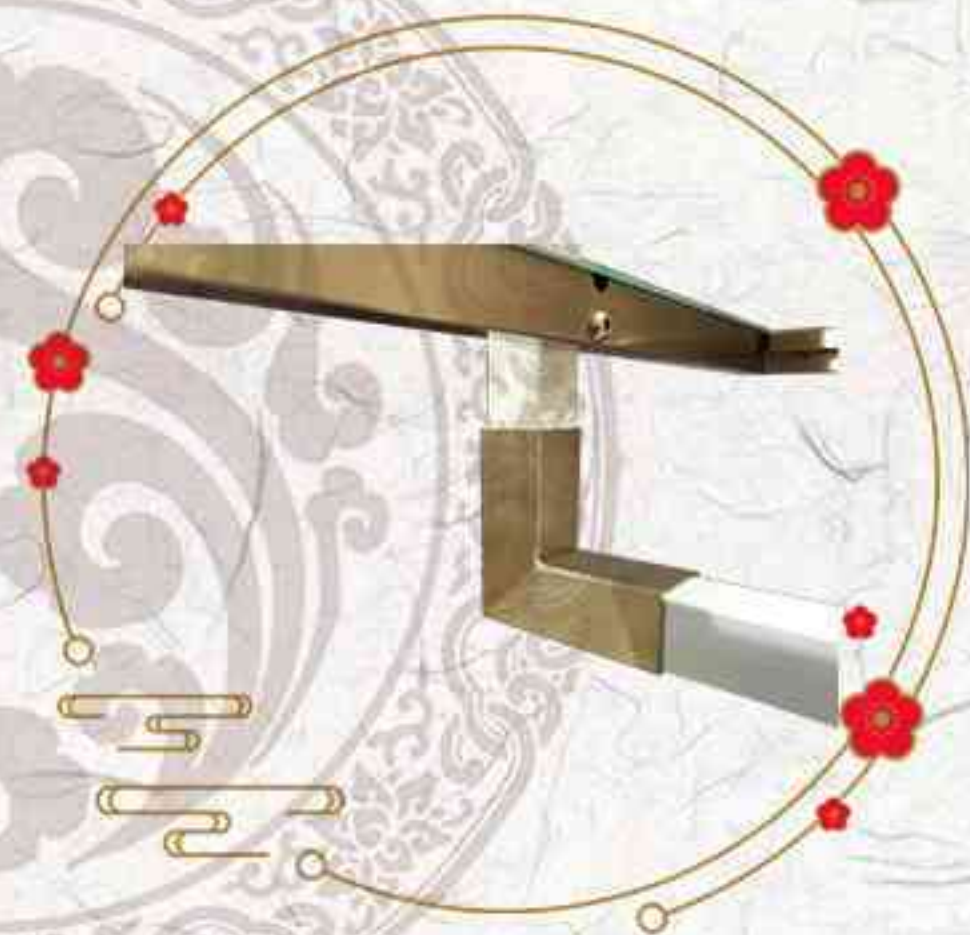

Weight: 11 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-04

Price:104 USD

Size:1200\*400\*1200mm (Can adjust up and down 500mm)

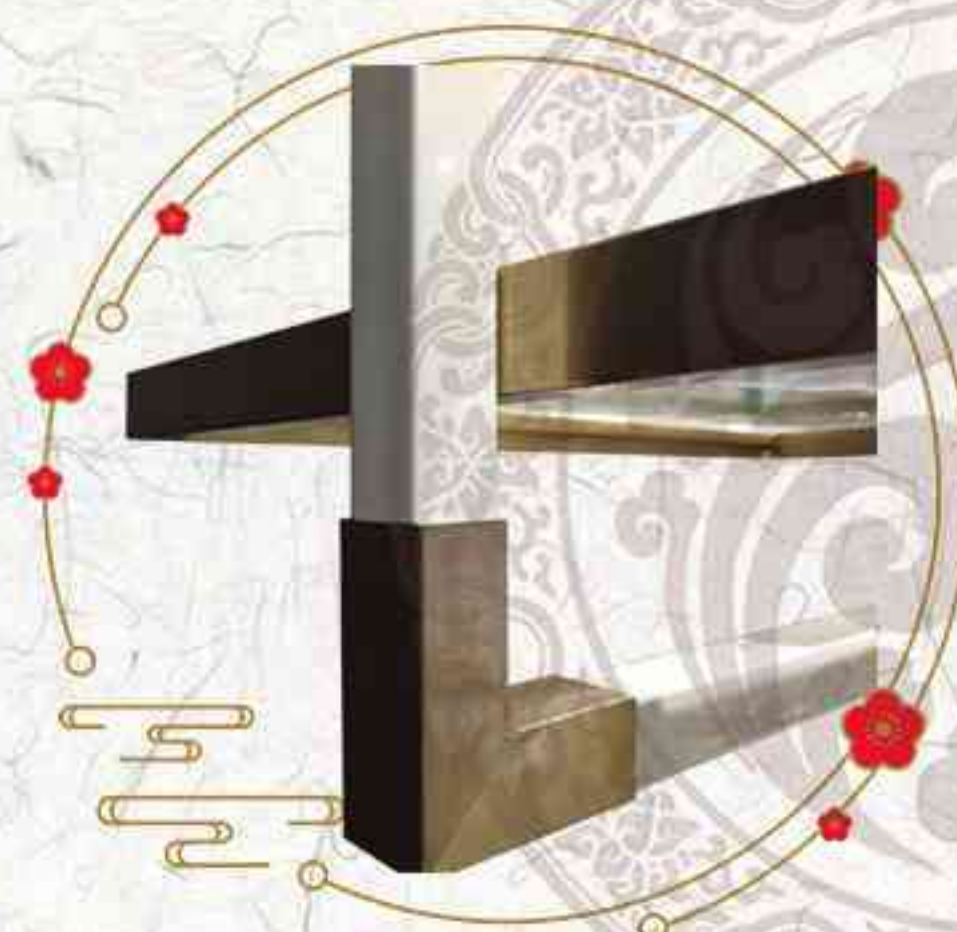

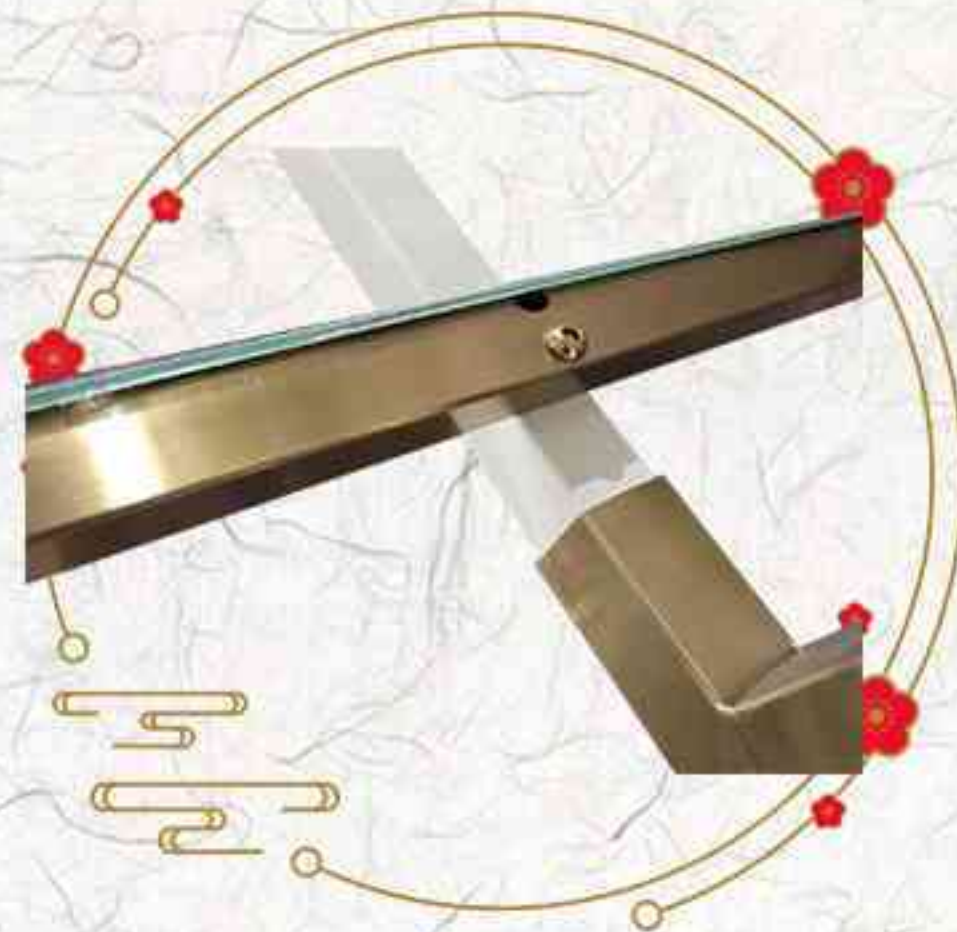

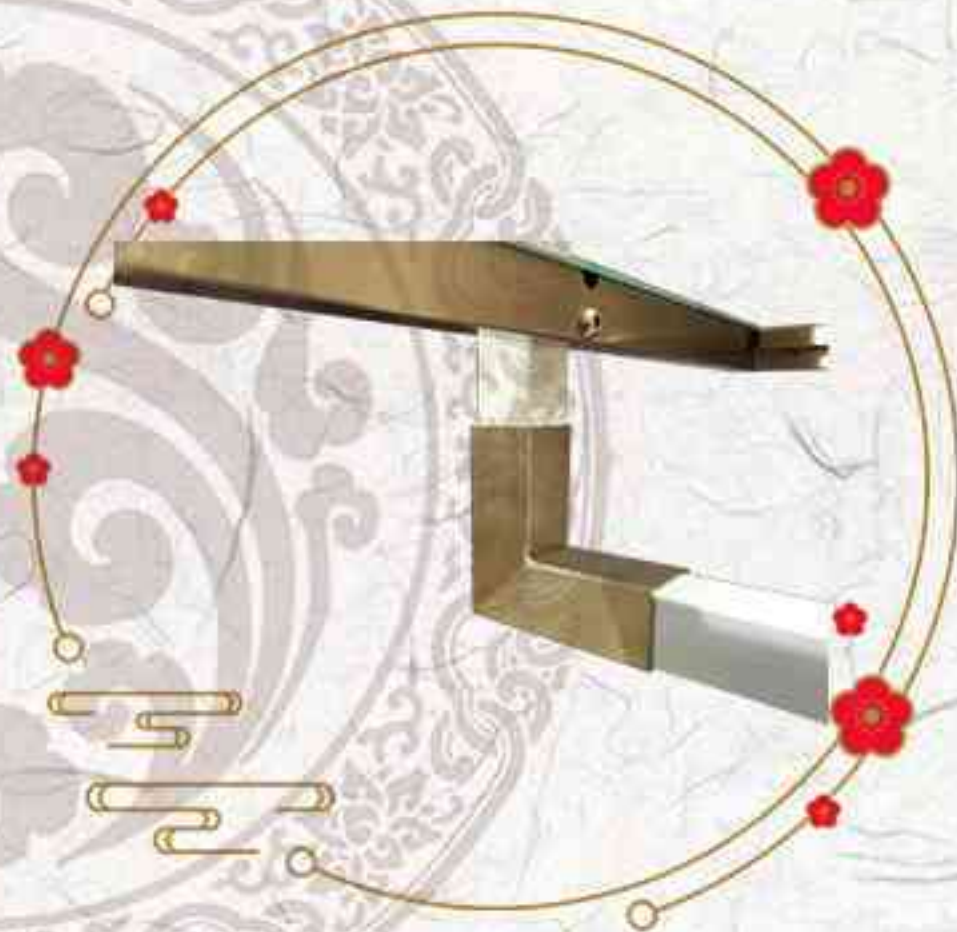

Weight: 23 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-05

Price:96/100 USD

Size:1200\*400\*1600mm/1200\*400\*1750mm

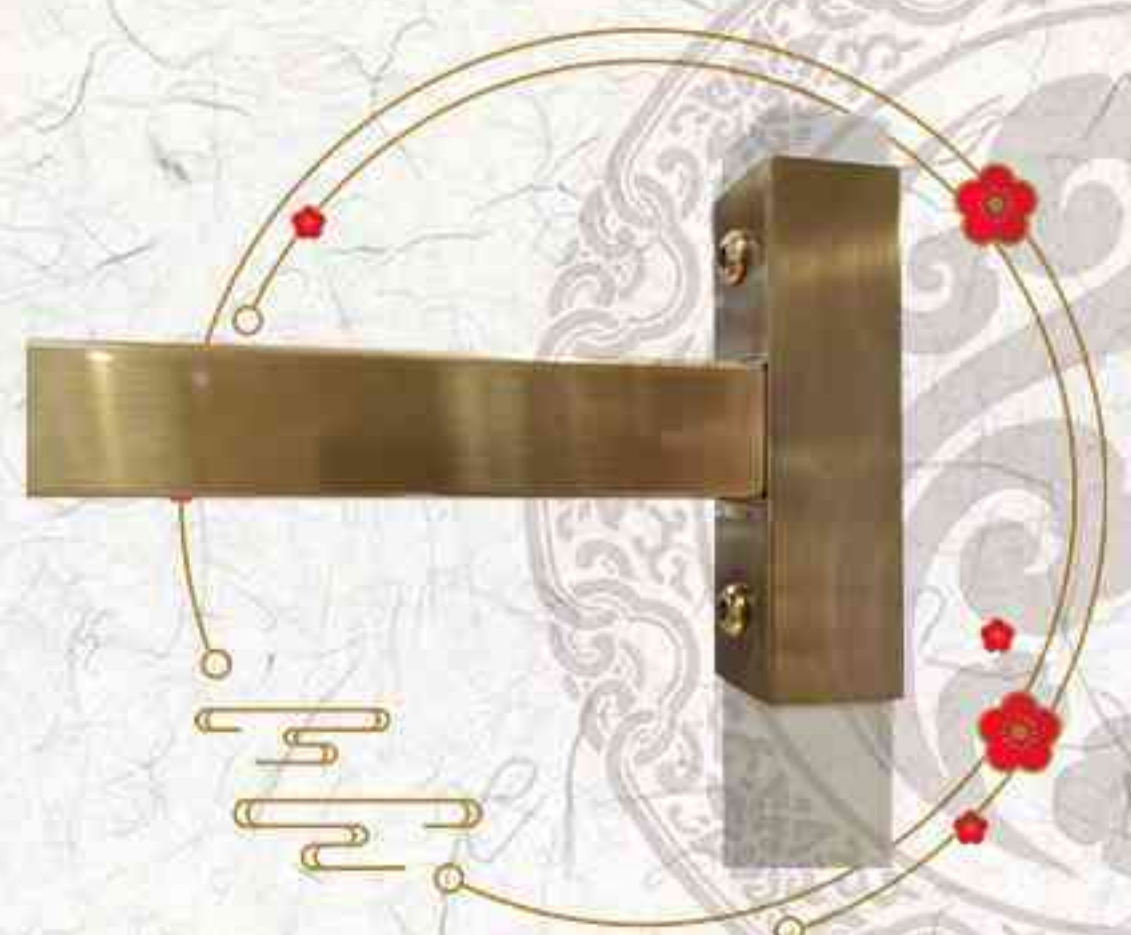

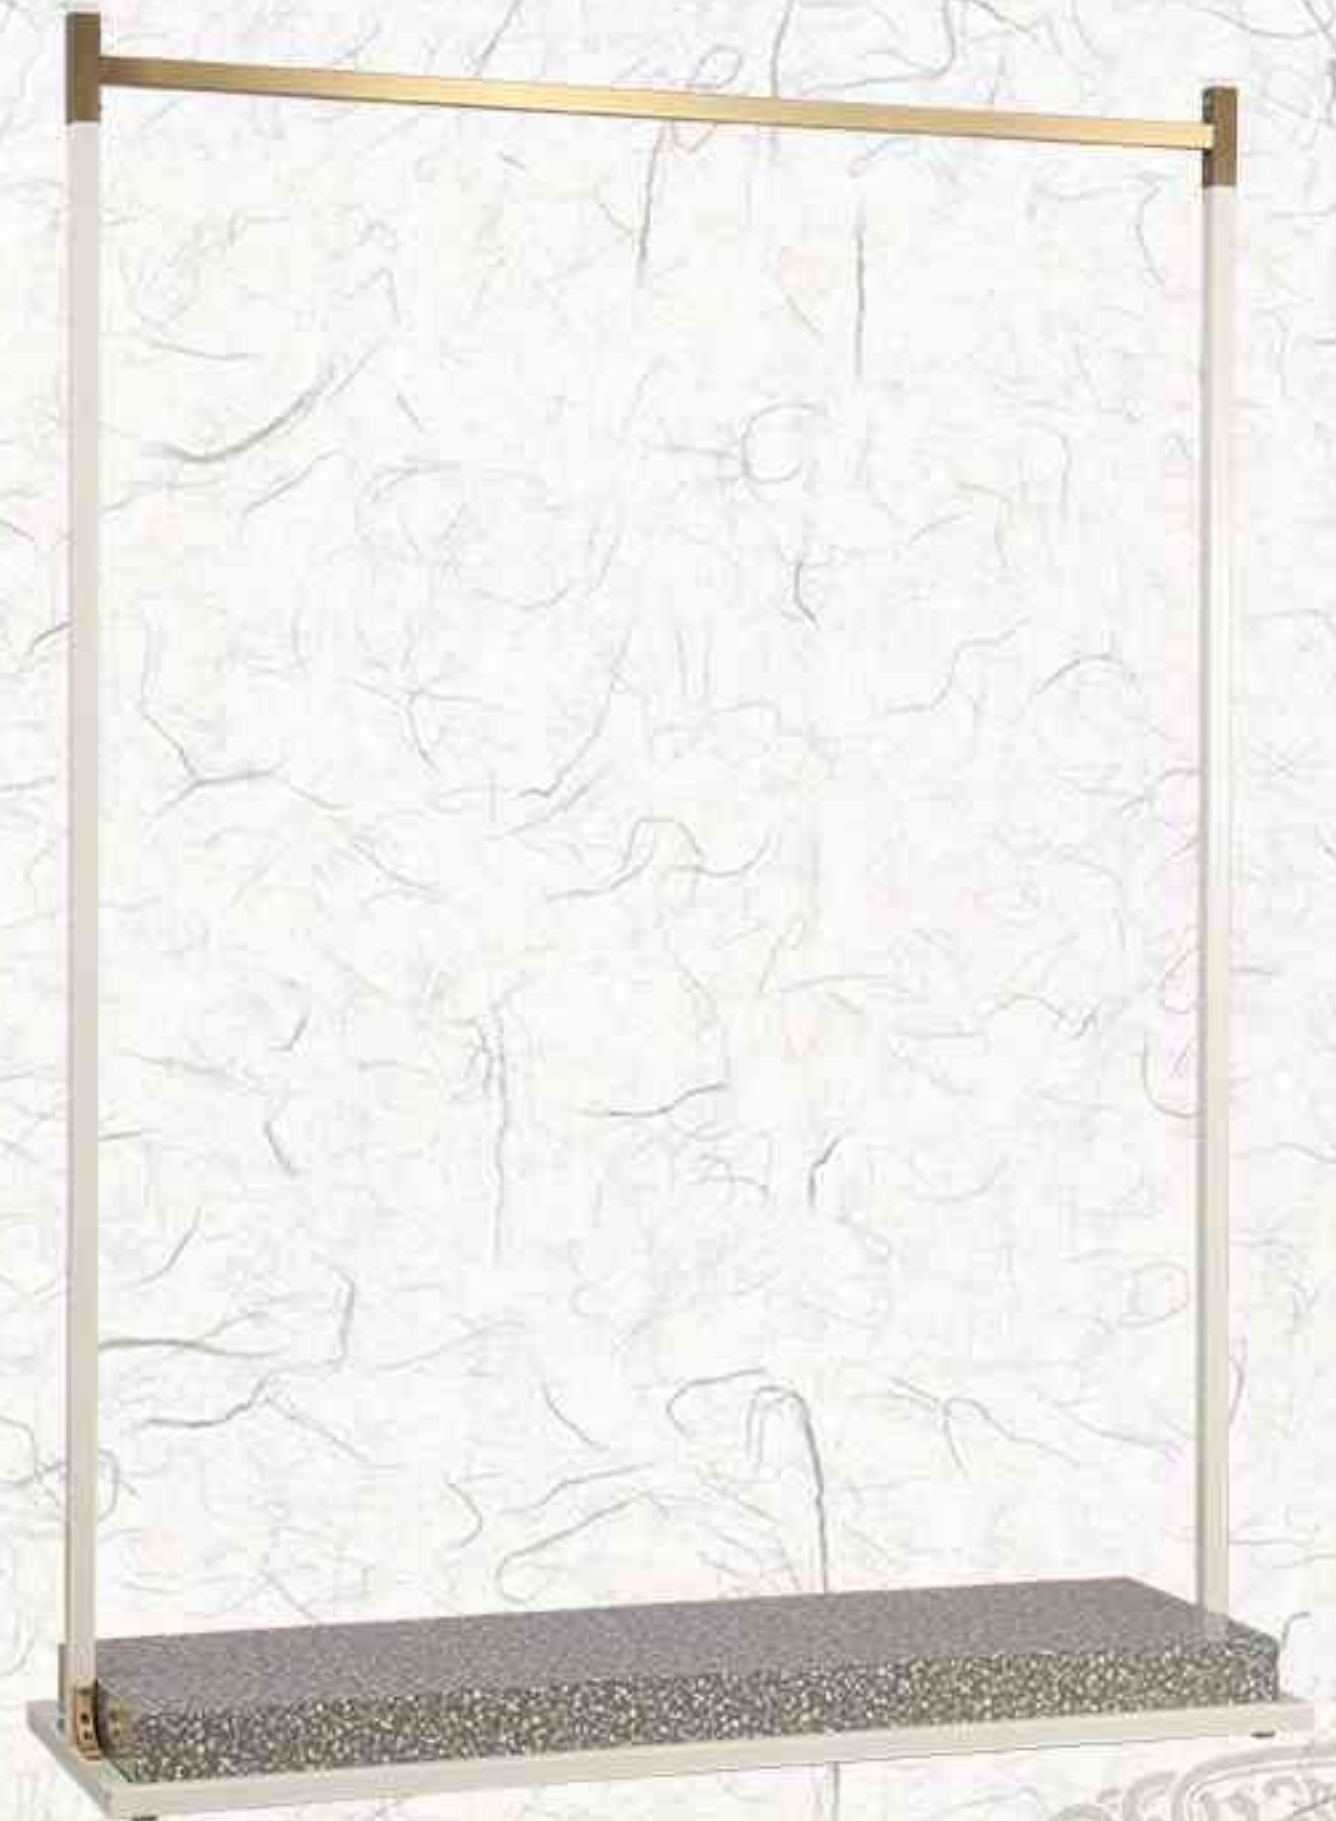

Weight: 14/15 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-06

Price:185 USD

Size:600\*400\*2200

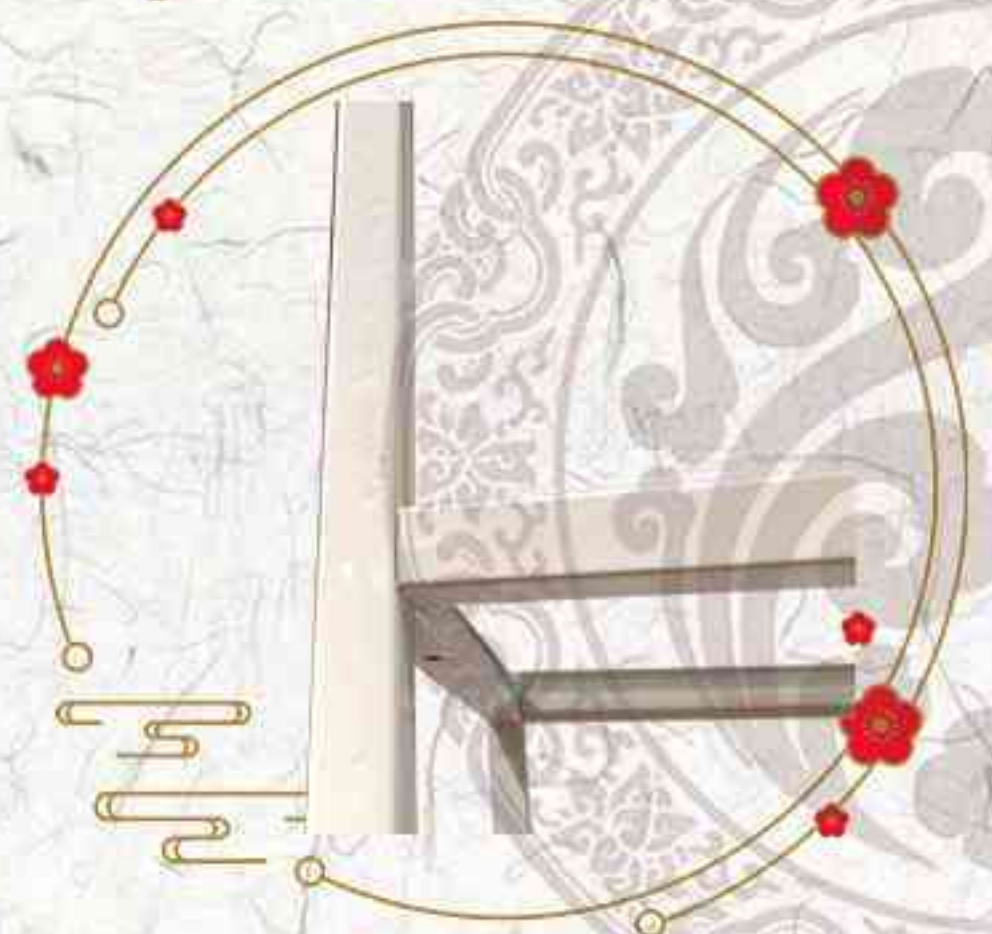

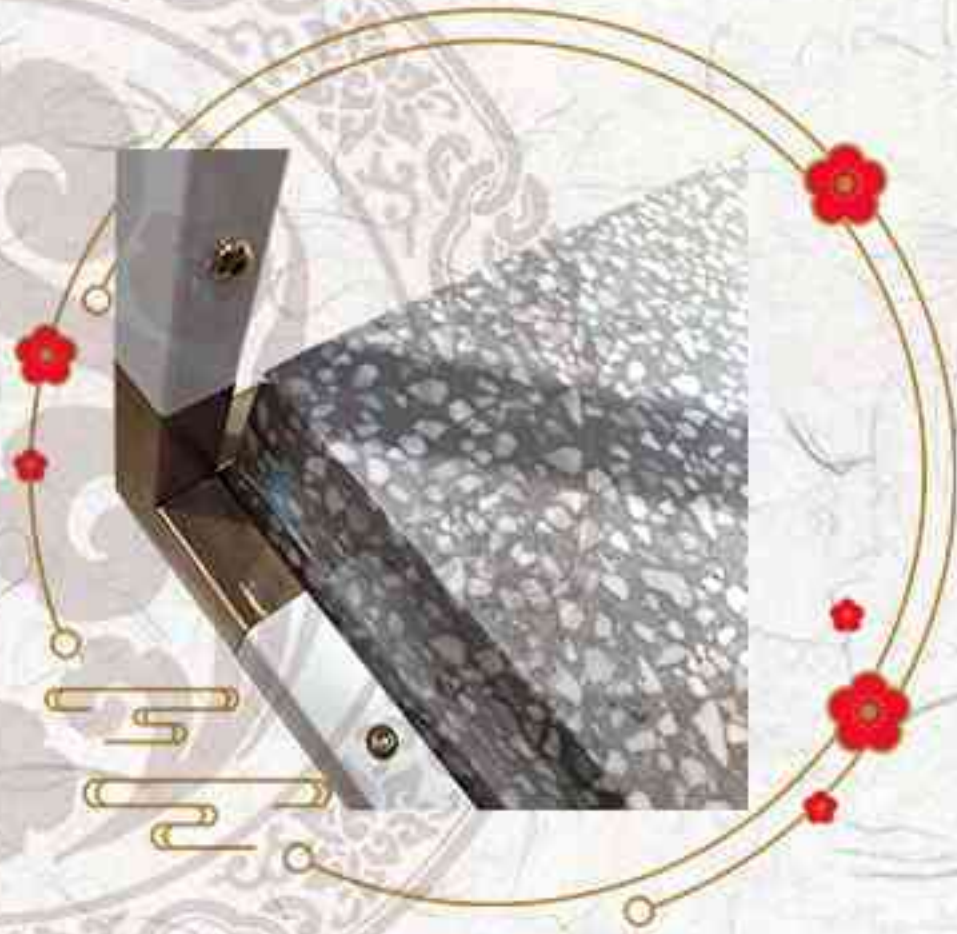

Weight: 19 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-07

Price:224 USD

Size:638\*430\*2500mm

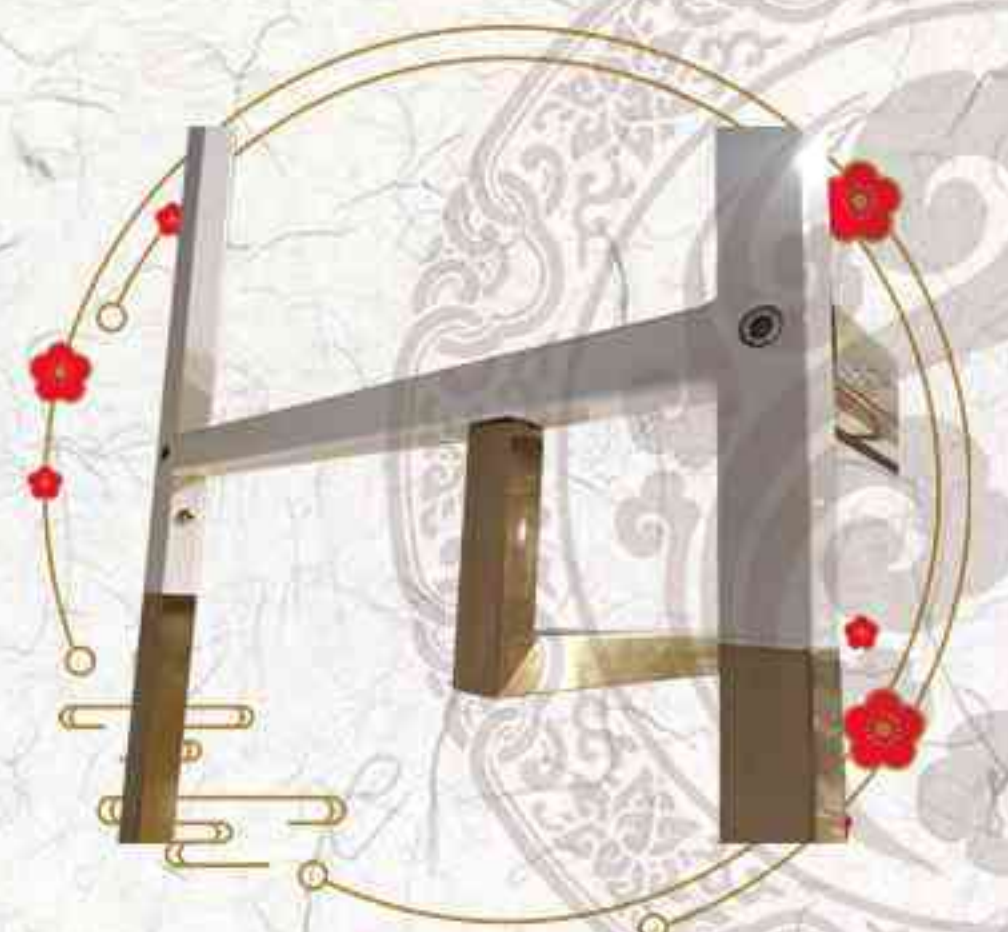

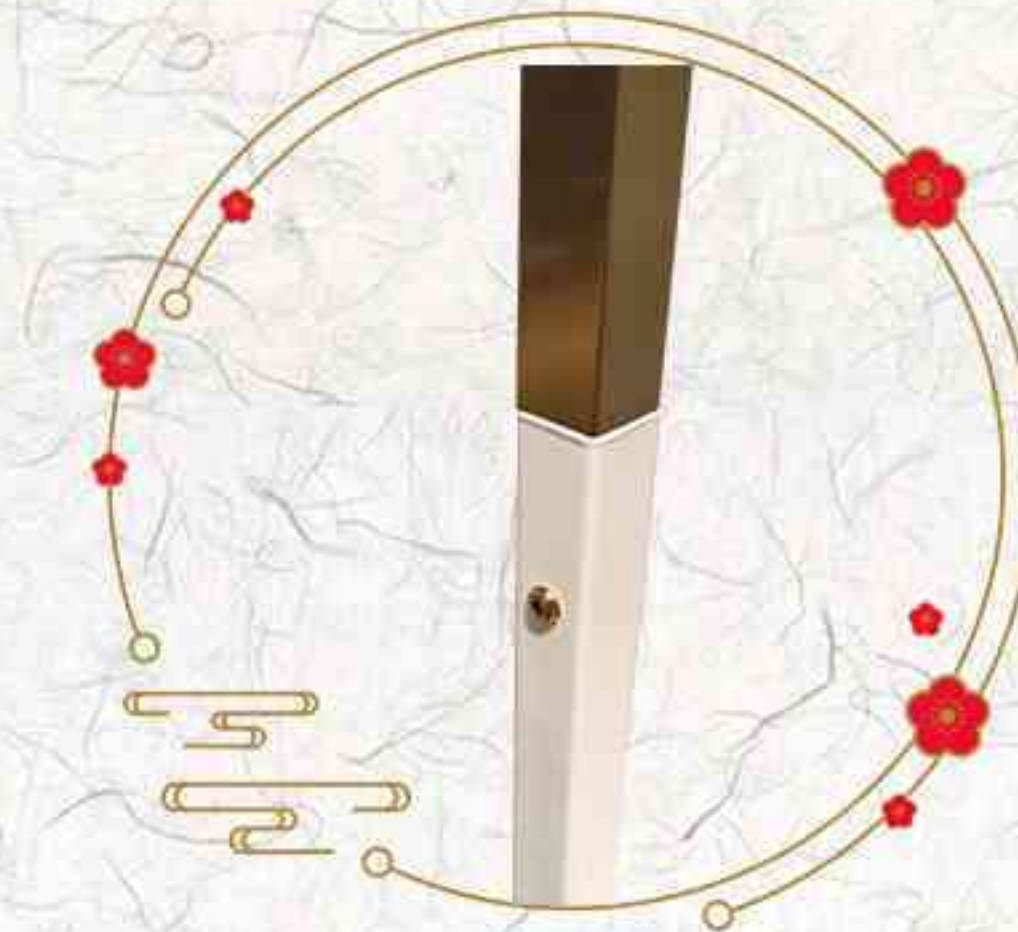

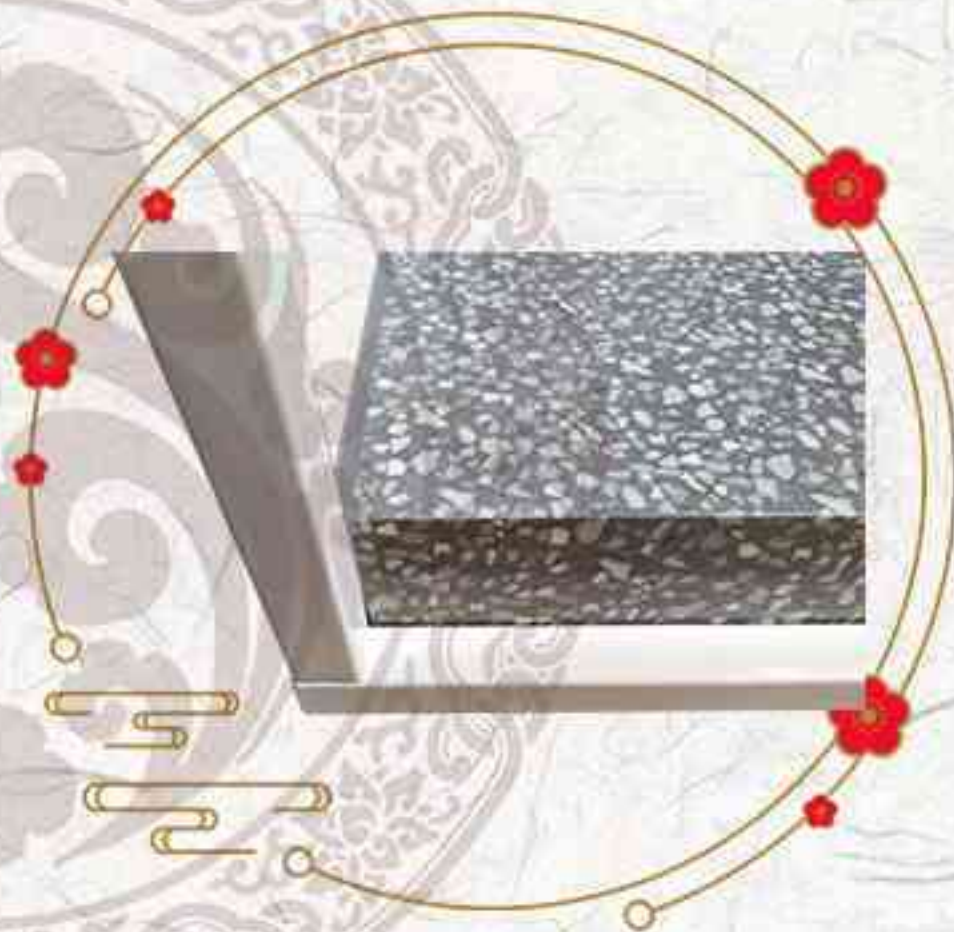

Weight: 25 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-08

Price For Two:224 USD

Size:1200\*600\*700mm/1000\*50\*550mm

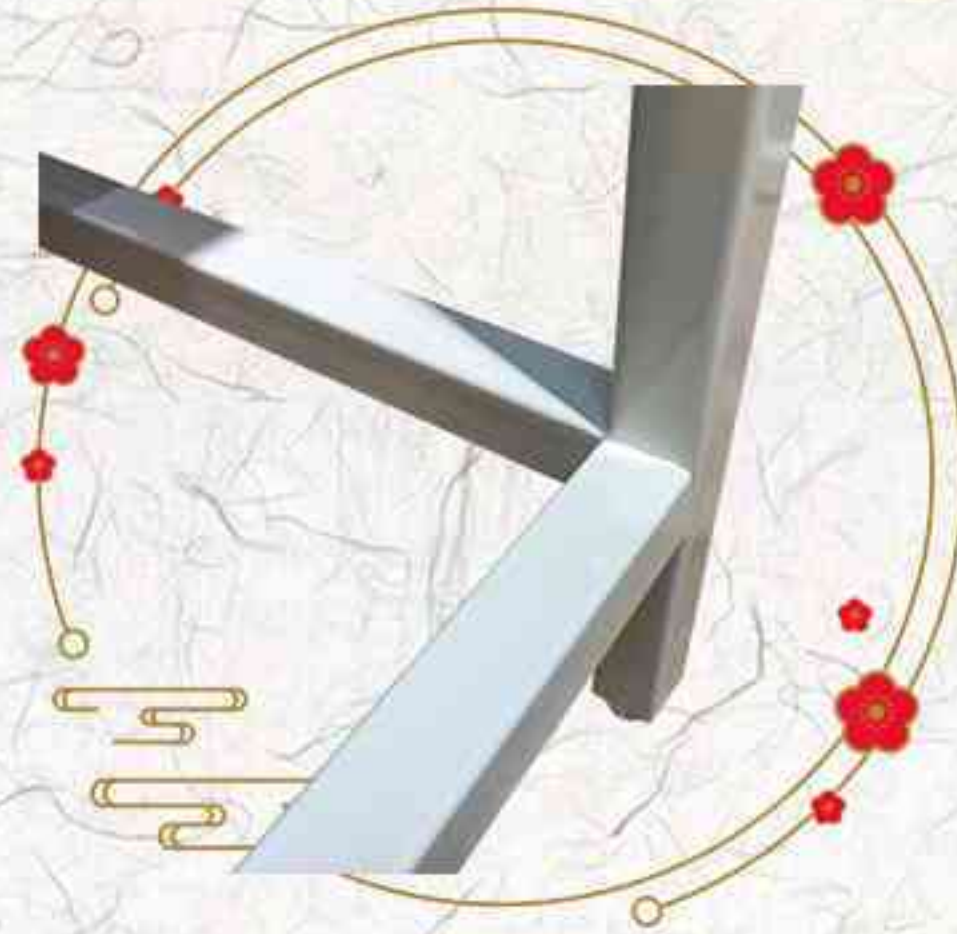

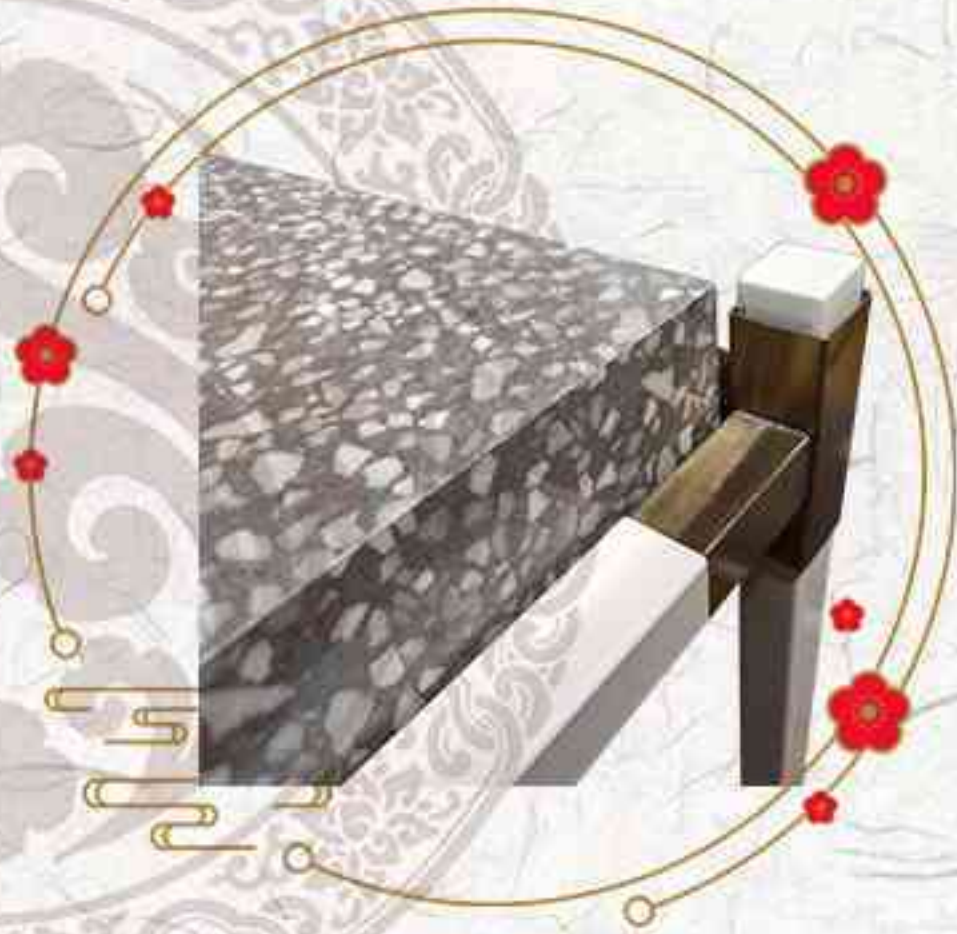

Weight: 28 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# PLATINUM SERIES

P-XK-09

Price:60/73/87 USD

Size:320\*320\*550mm/320\*320\*750mm/320\*320\*950mm

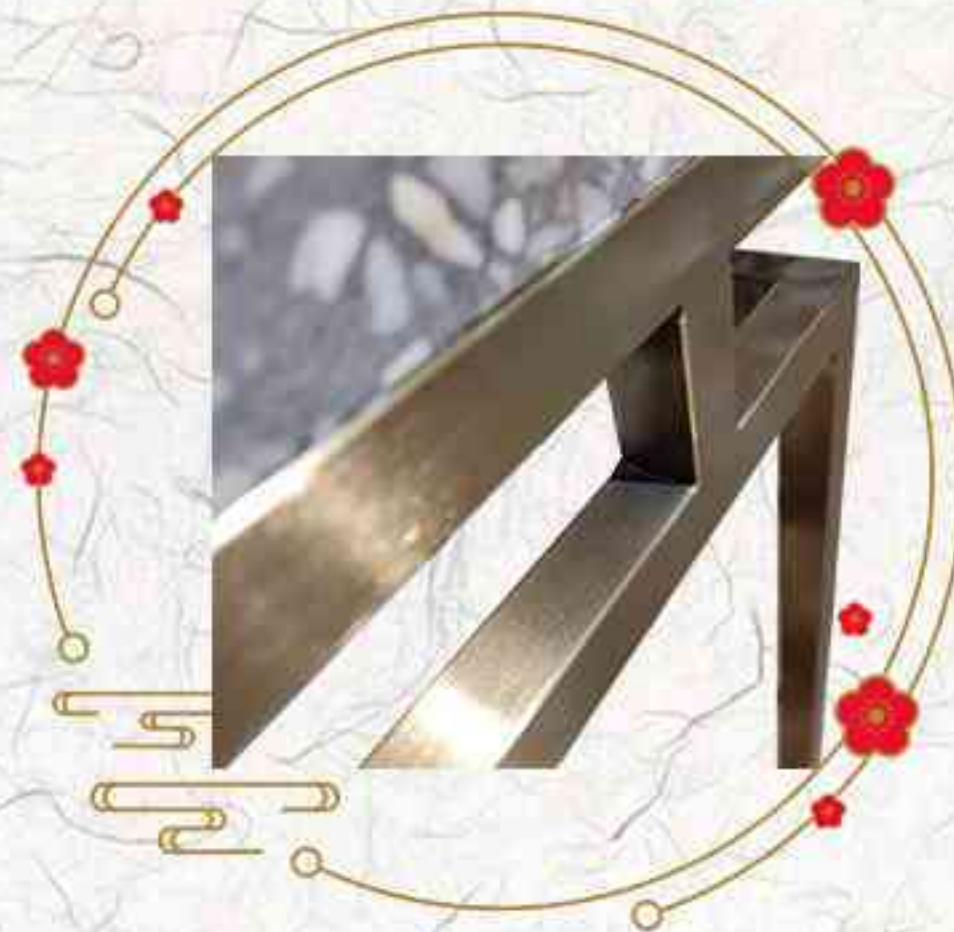

Weight: 4/5/6 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

SW-XK-01

Price:69 USD

Size:1200\*1100mm

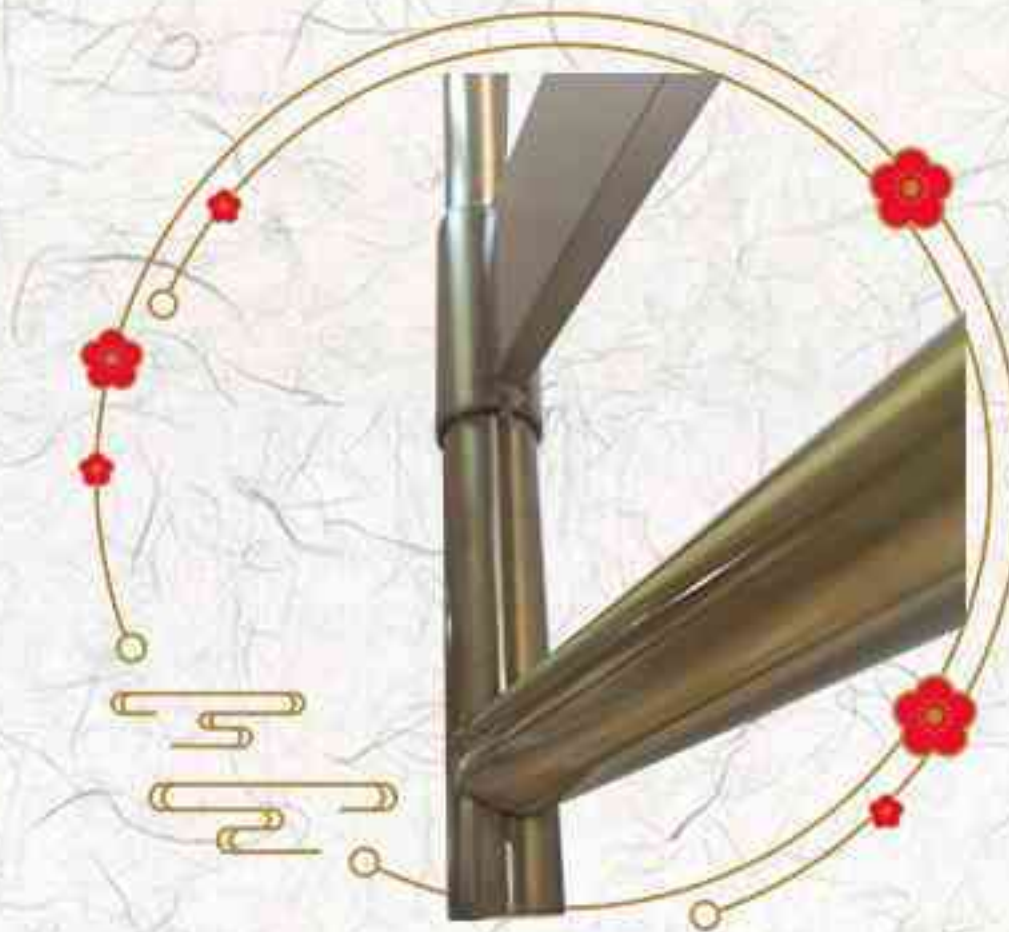

Weight: 12 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

SW-XK-02

Price:76 USD

Size:1200\*300\*1860mm

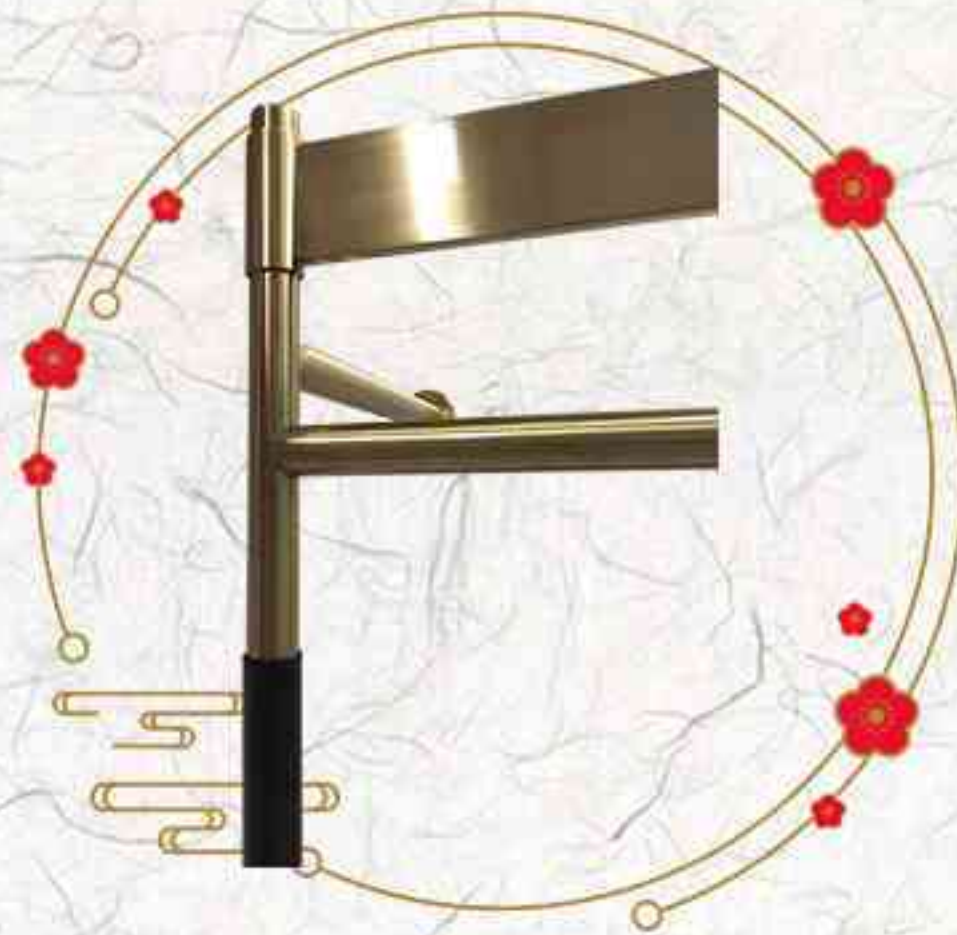

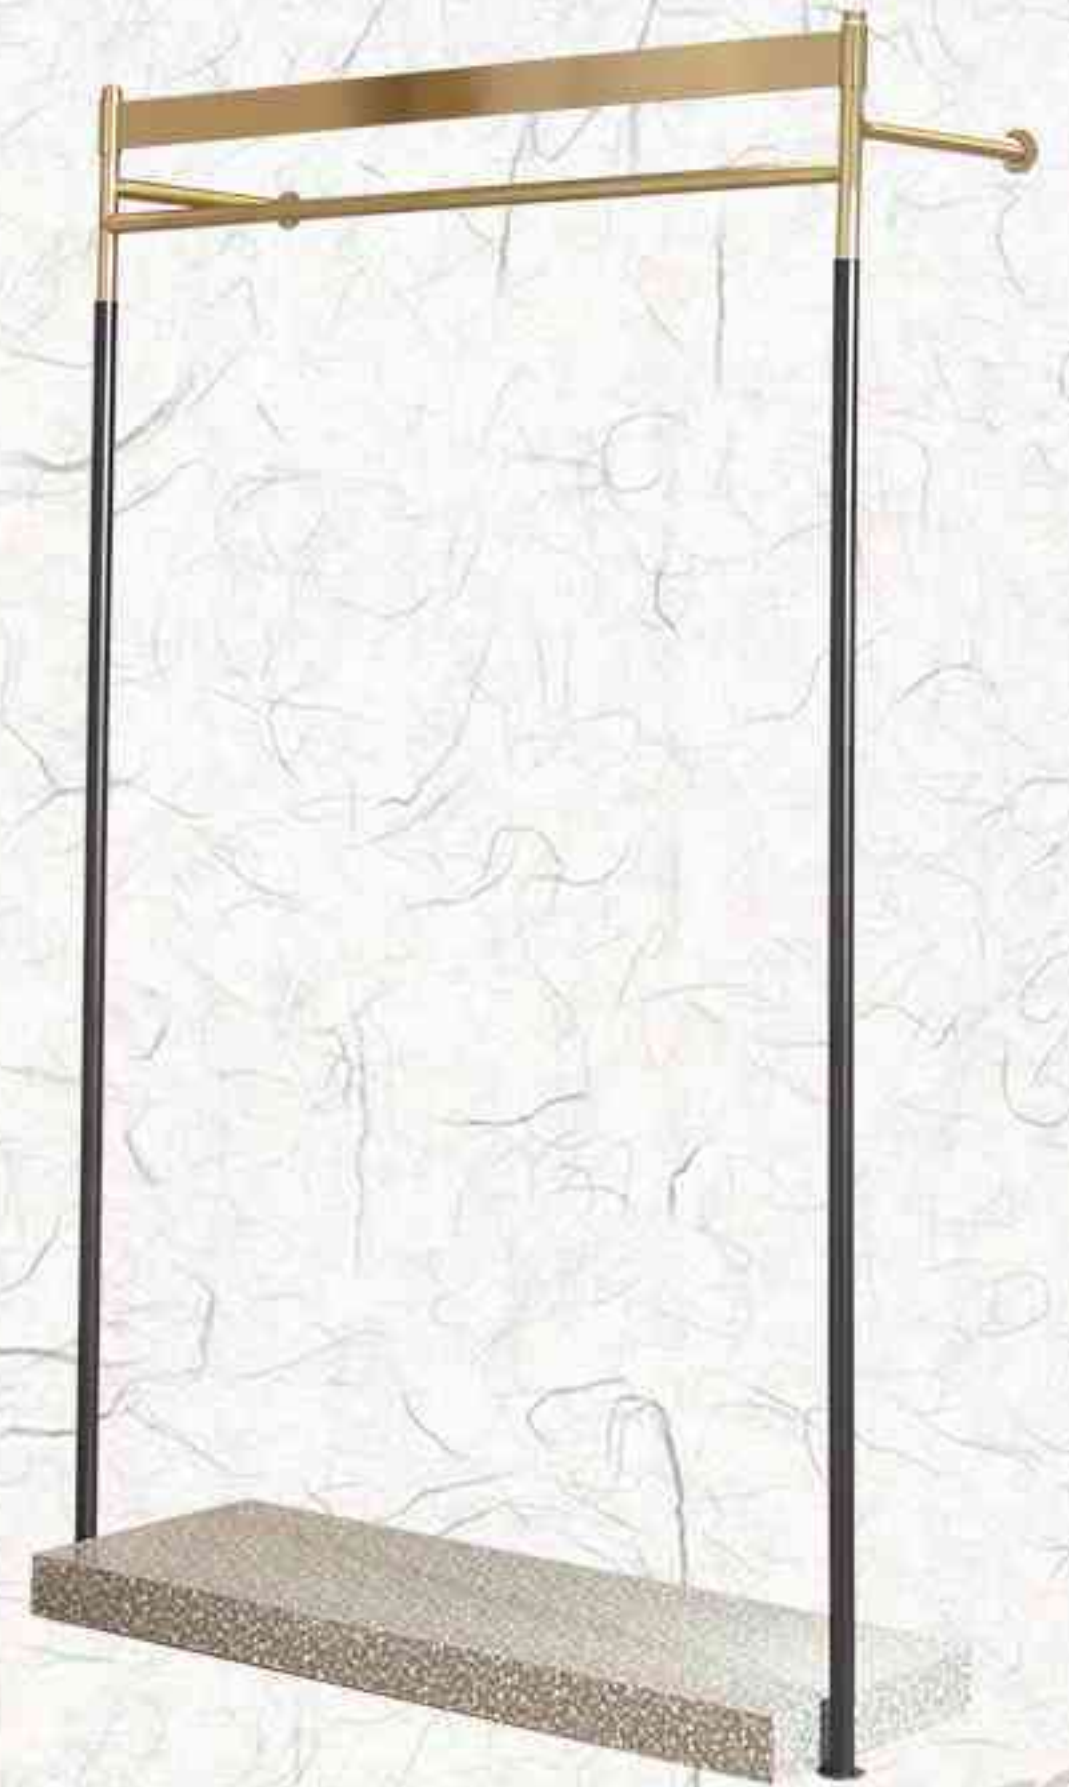

Weight: 17 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

## SW-XK-03

Price: 104/107 USD

Size: 1200\*400\*1660mm/1200\*400\*1860mm

Weight: 14/15 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

1. Use high-purity stainless steel as raw material, high temperature resistance and corrosion resistance
2. Industry-leading welding technology, every clothing display rack welding position is treated manually
3. High level Electroplating Technology, improve corrosion resistance, hardness, durable, Smooth and beautiful
4. Wire Drawing Process, more wear resistant than ordinary stainless steel. It looks more high grade

# STAR WALKER SERIES

SW-XK-04

Price:133 USD

Size:1200\*400\*1700mm

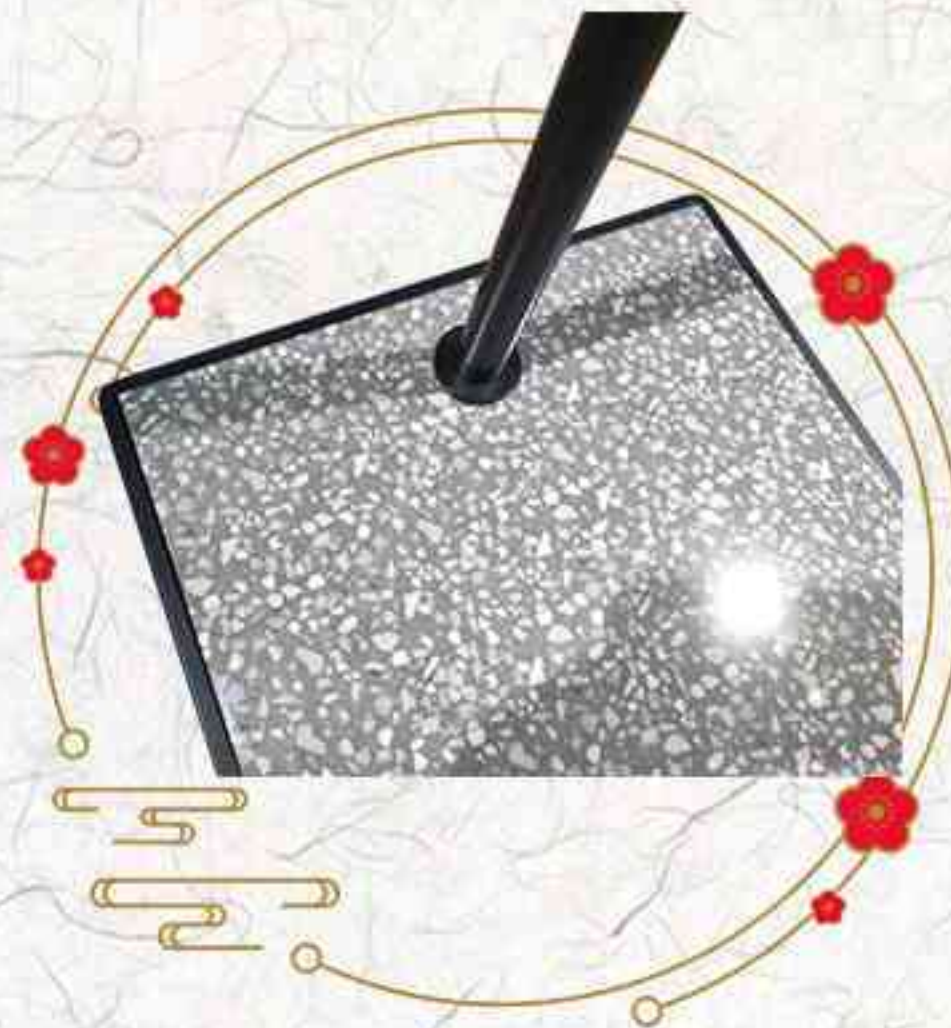

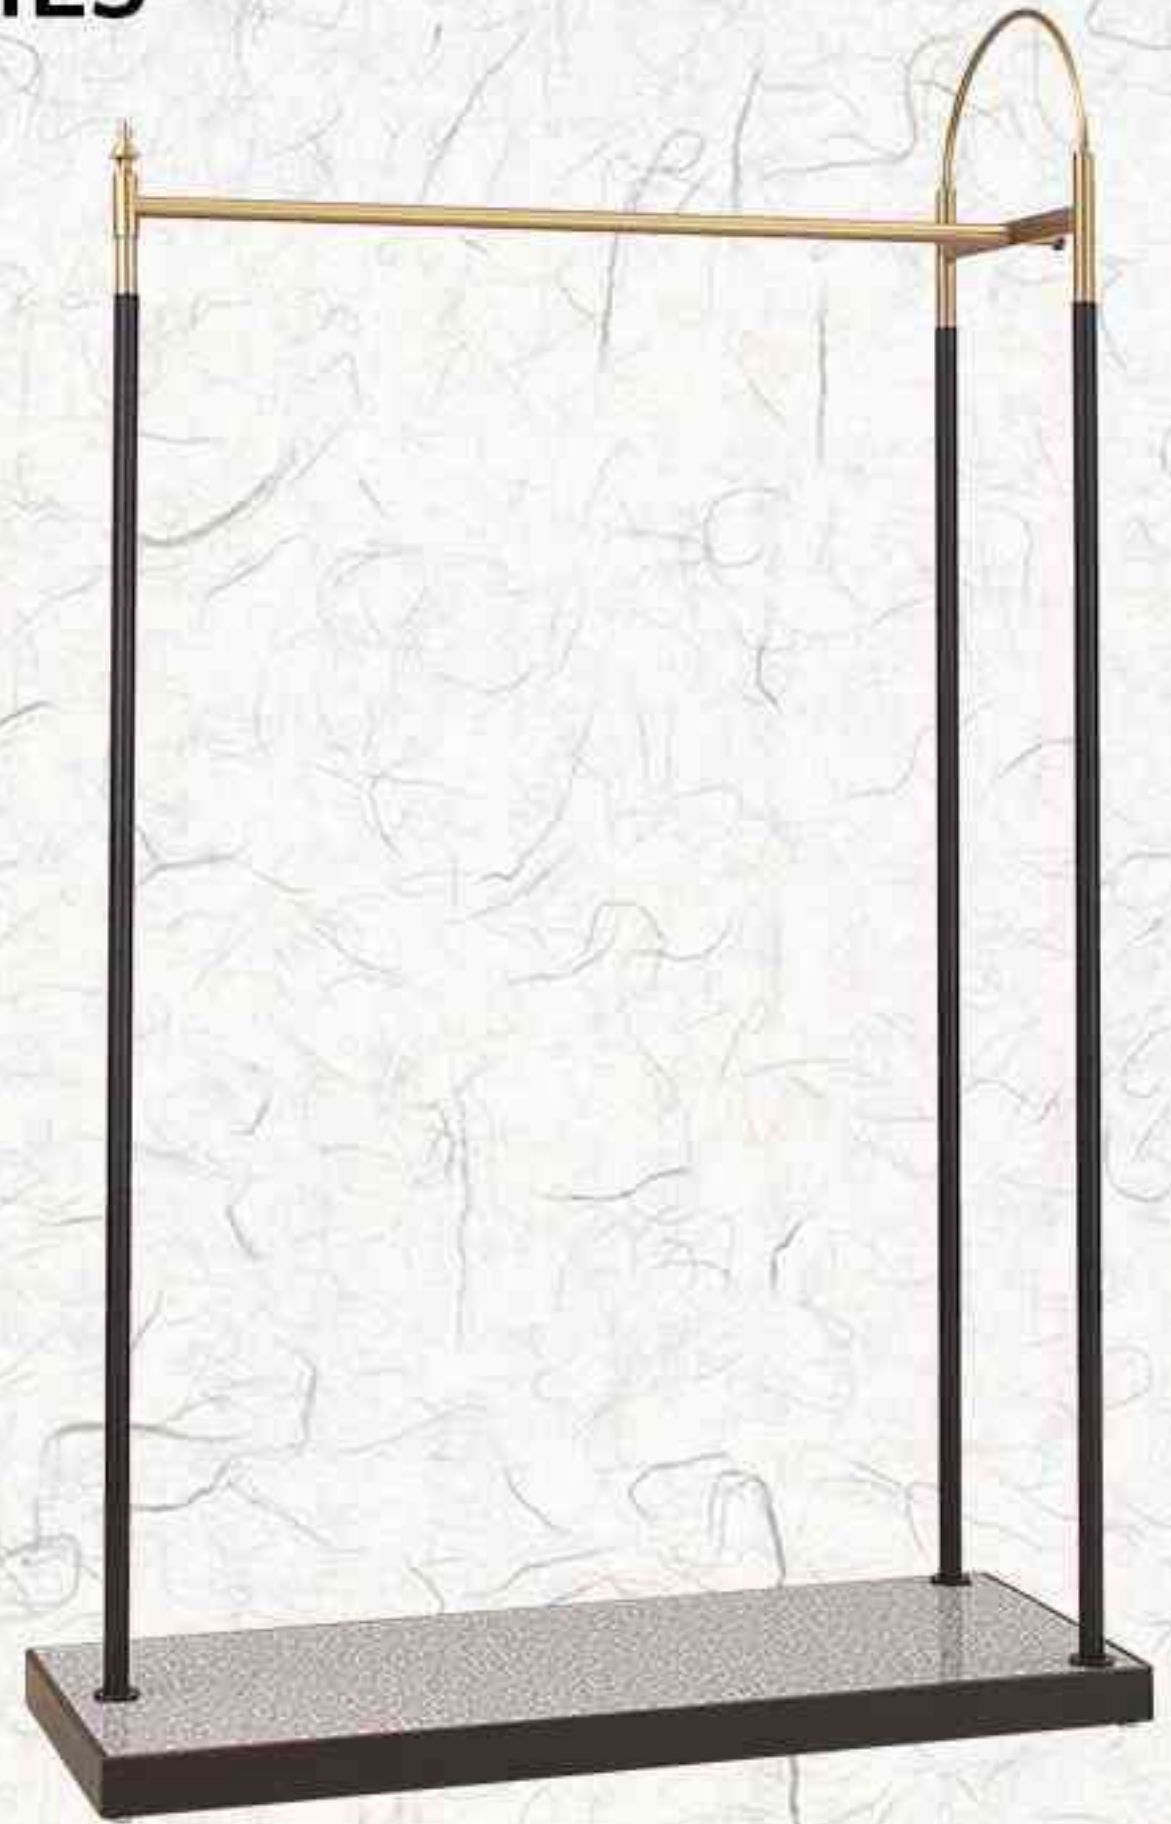

Weight: 15 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

SW-XK-05

Price:104 USD

Size:650\*400\*1750mm

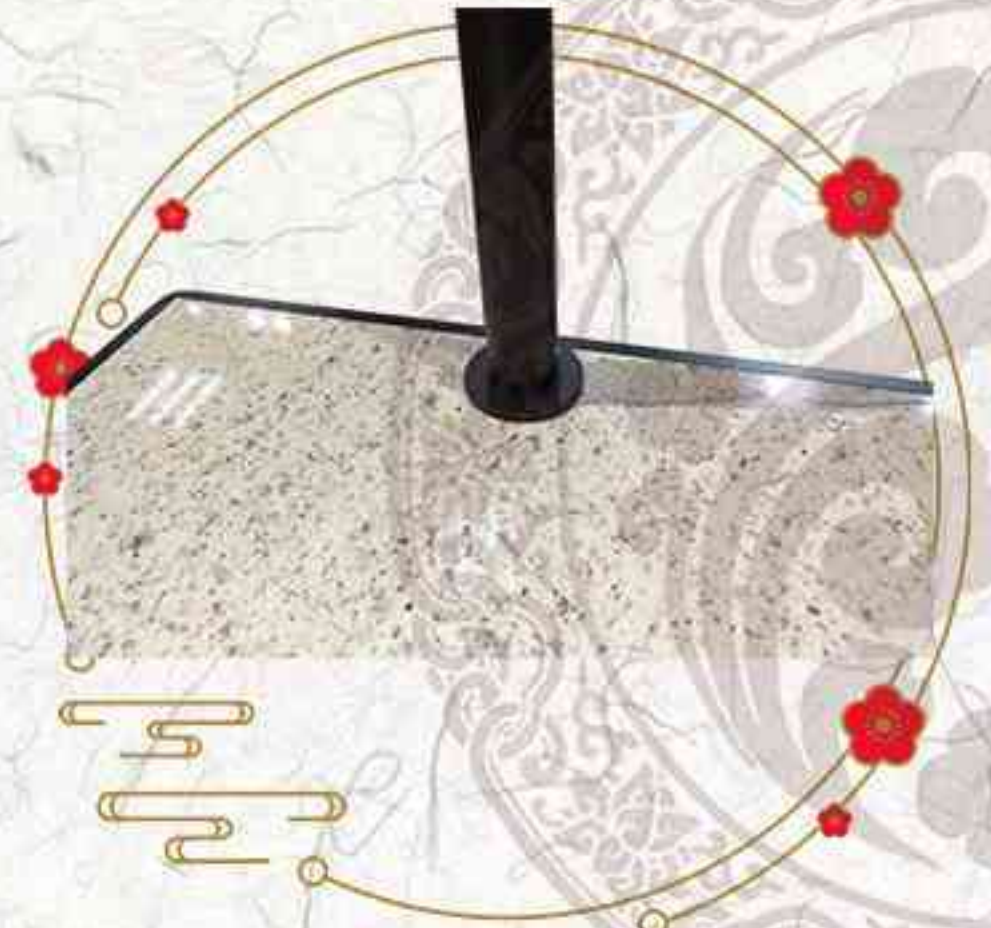

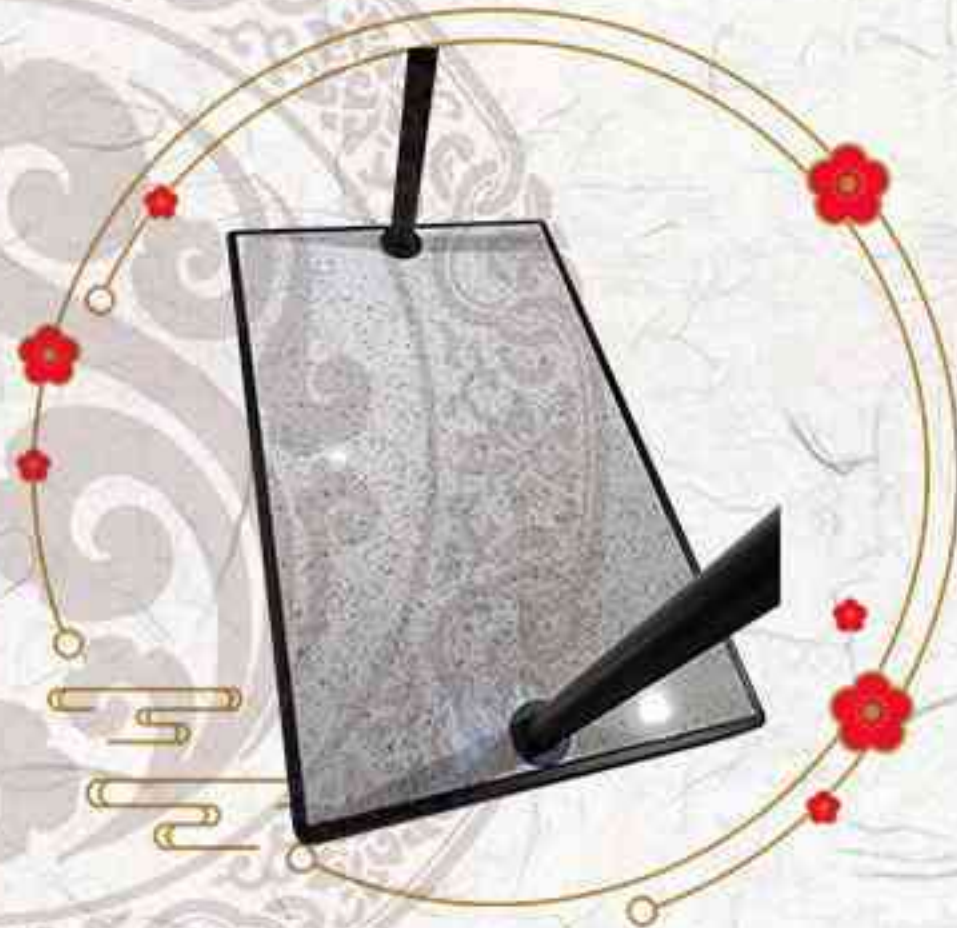

Weight: 11 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

SW-XK-06

Price:134 USD

Size:600\*400\*2200mm

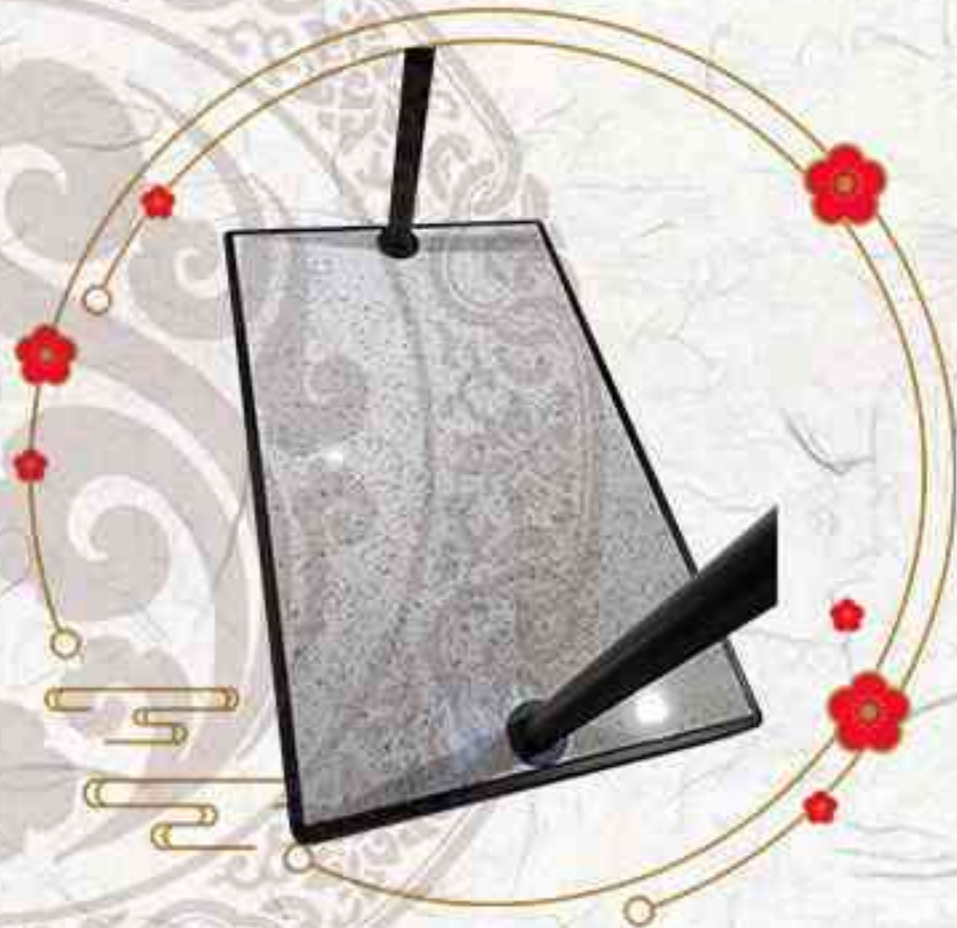

Weight: 16 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

SW-XK-07

Price:161 USD

Size:1200\*400\*2200mm

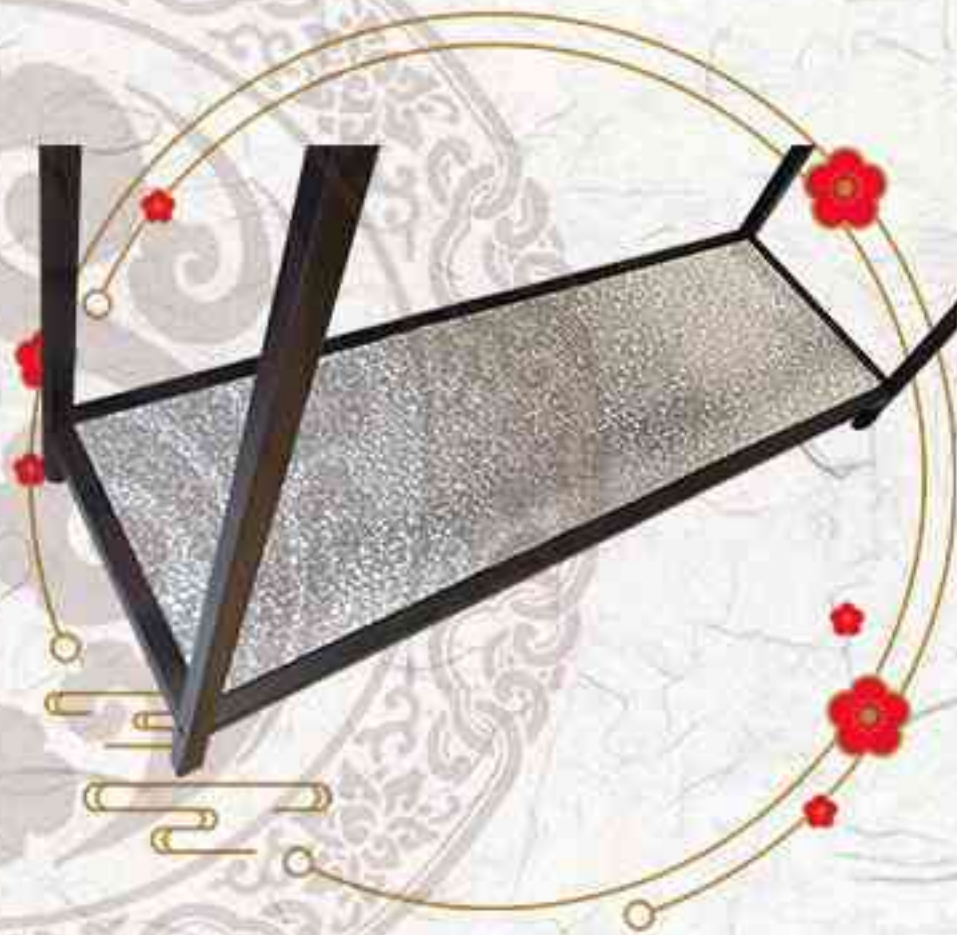

Weight: 22 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# STAR WALKER SERIES

SW-XK-08

Price:364 USD

Size:2200\*400\*2300mm

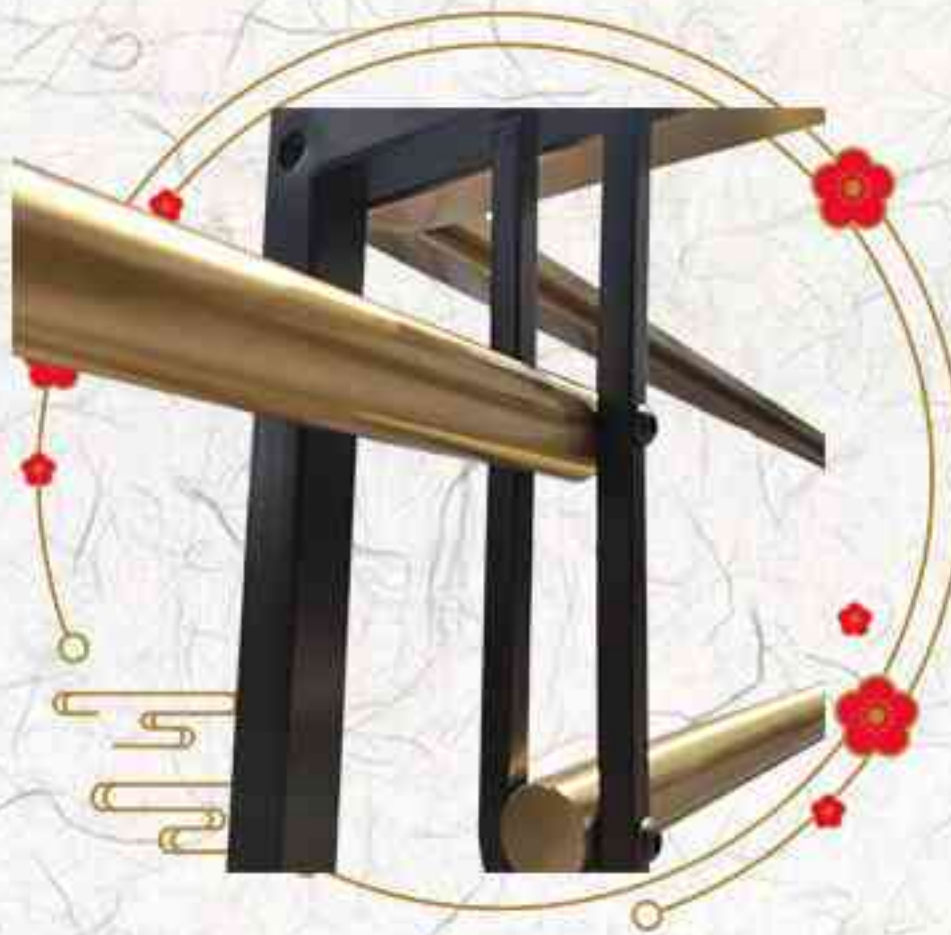

Weight: 43 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# TWILIGHT SERIES

T-XK-01

Price: Customized

Size: Customized

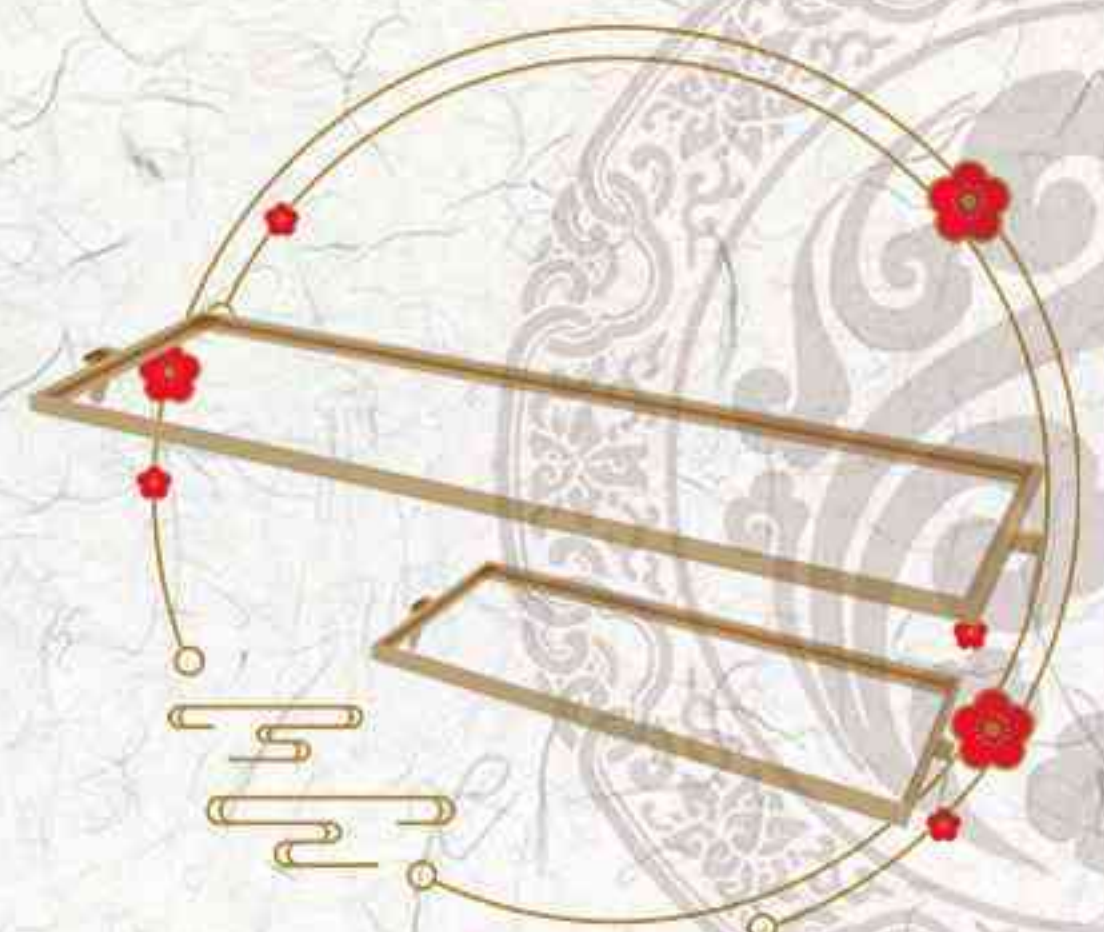

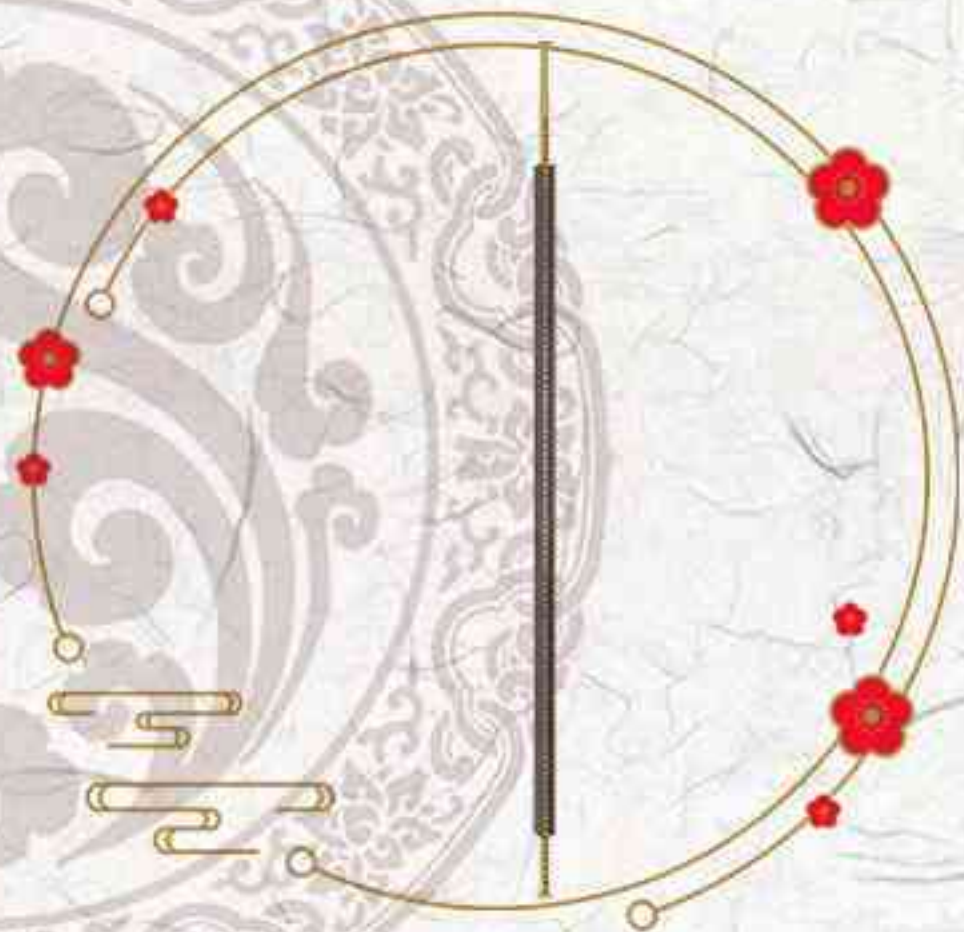

Weight: Customized

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

1. Use high-purity stainless steel as raw material, high temperature resistance and corrosion resistance
2. Industry-leading welding technology, every clothing display rack welding position is treated manually
3. High level Electroplating Technology, improve corrosion resistance, hardness, durable, Smooth and beautiful
4. Wire Drawing Process, more wear resistant than ordinary stainless steel. It looks more high grade

# TWILIGHT SERIES

T-XK-04

Price:118/125 USD

Size:1200\*450\*1500mm/1200\*450\*1650mm

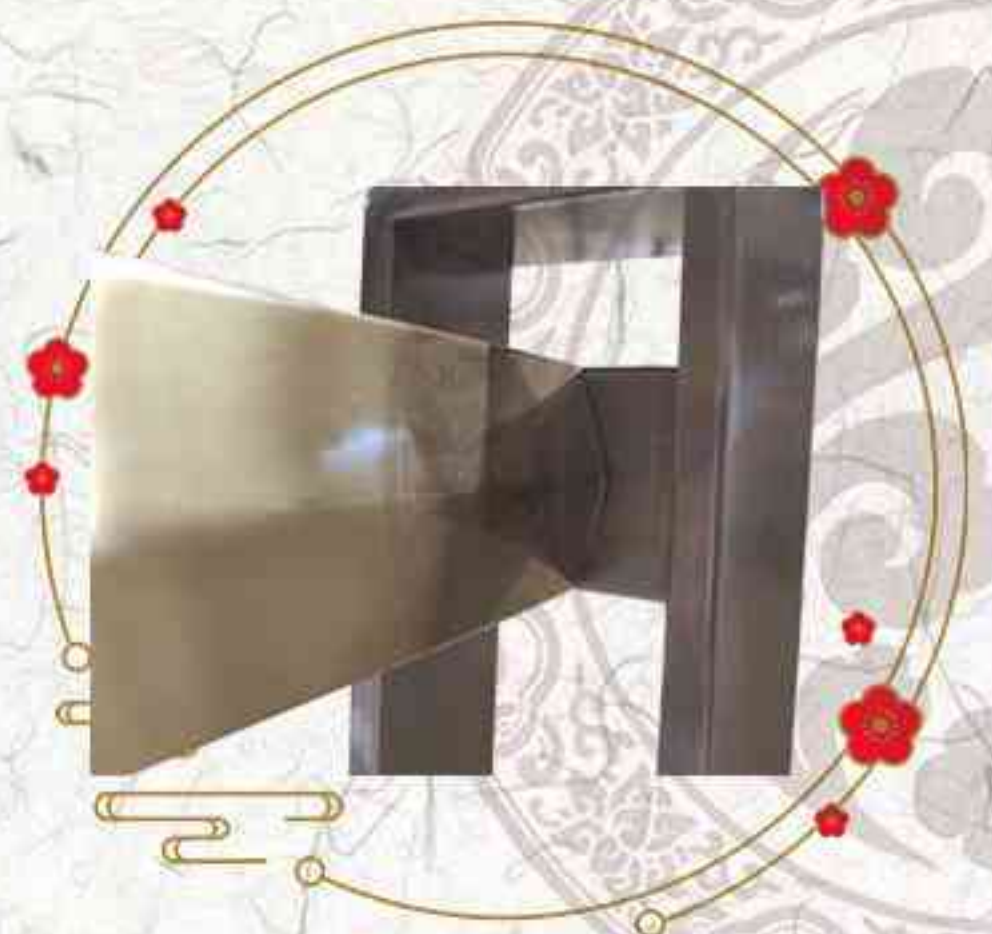

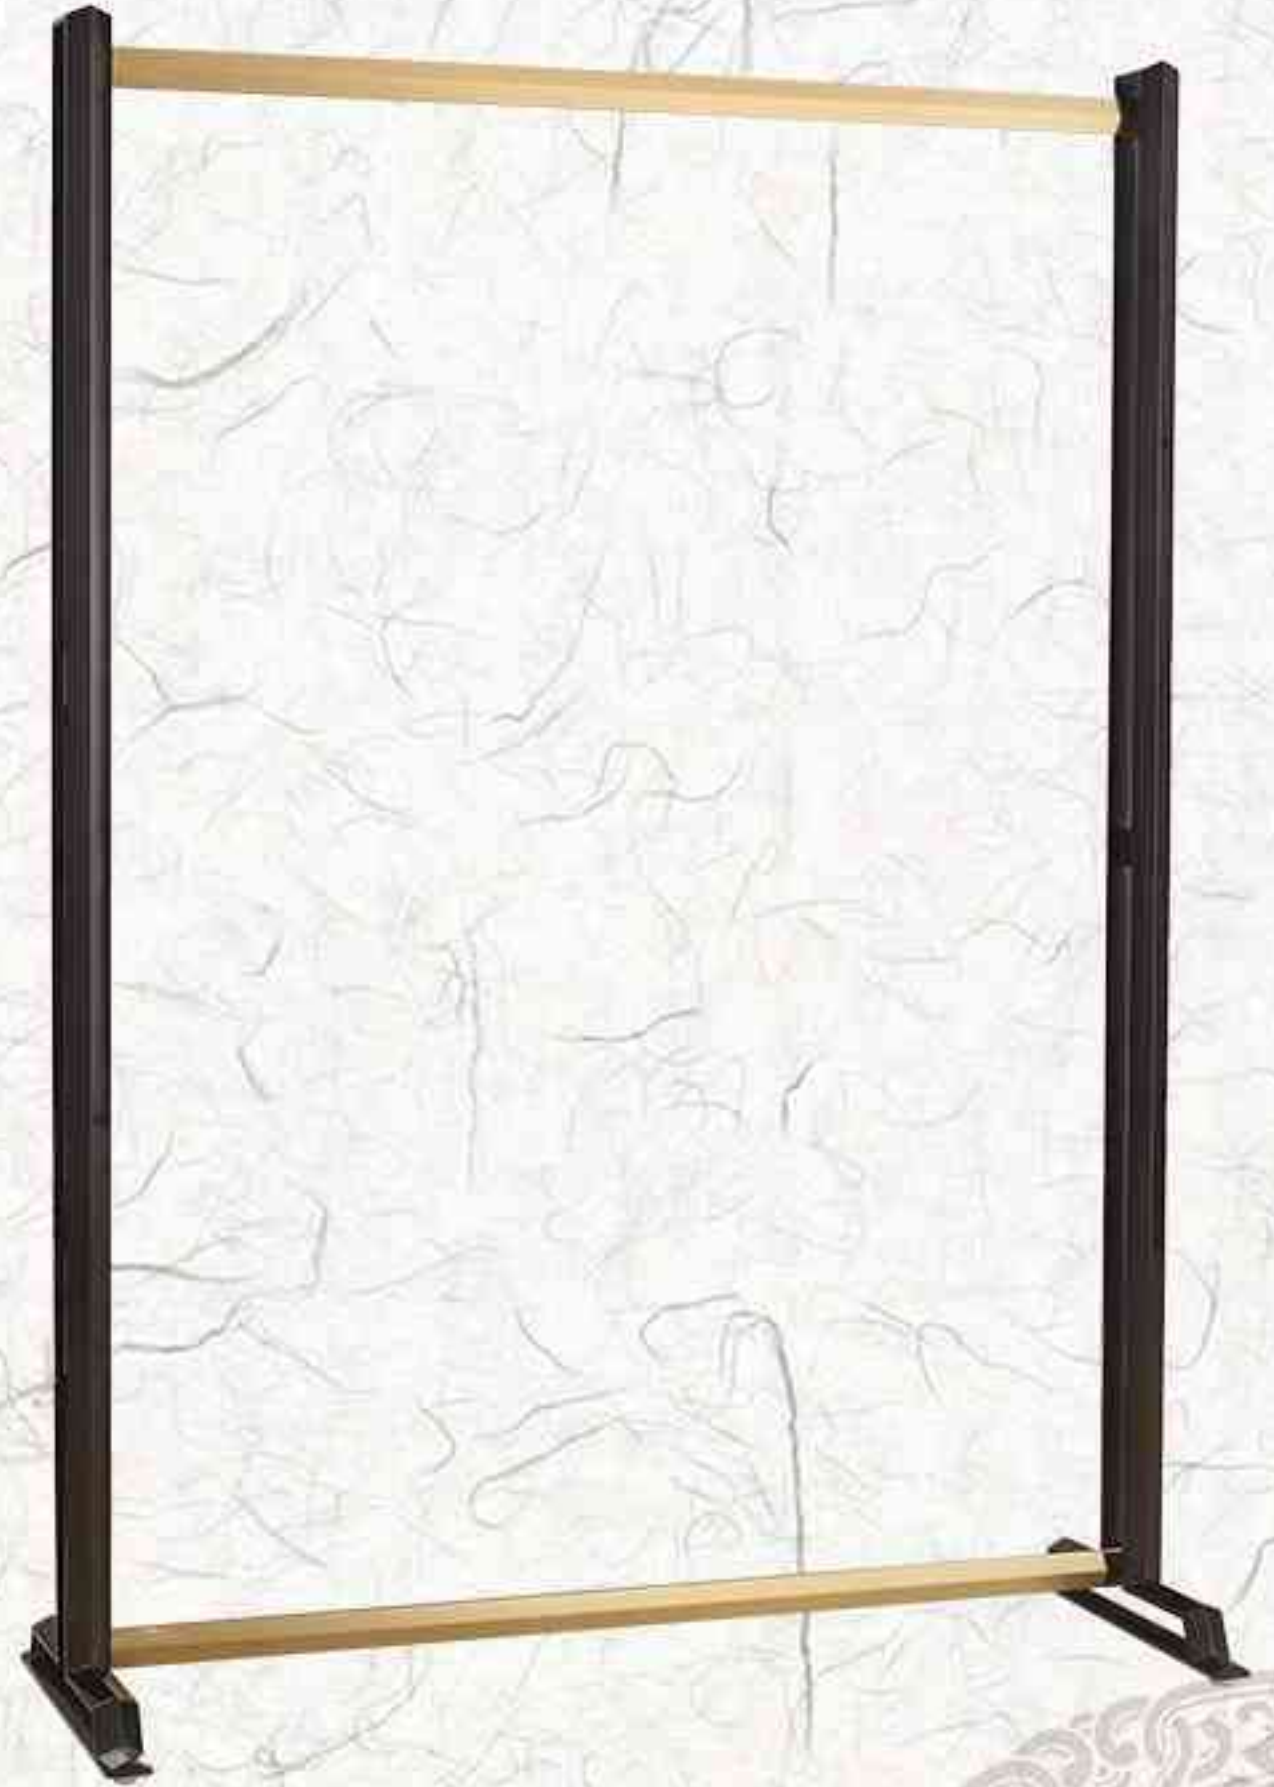

Weight: 8/9 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# TWILIGHT SERIES

T-XK-05

Price:200 USD

Size:600\*430\*2200mm

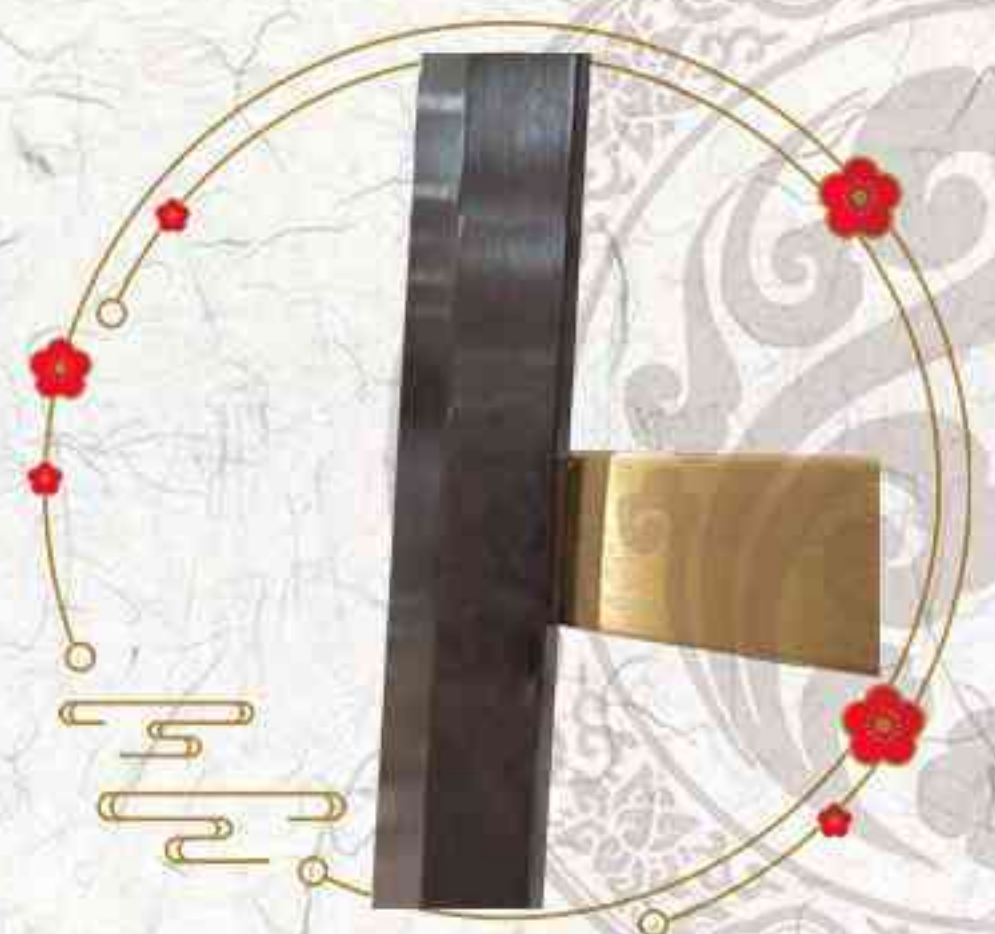

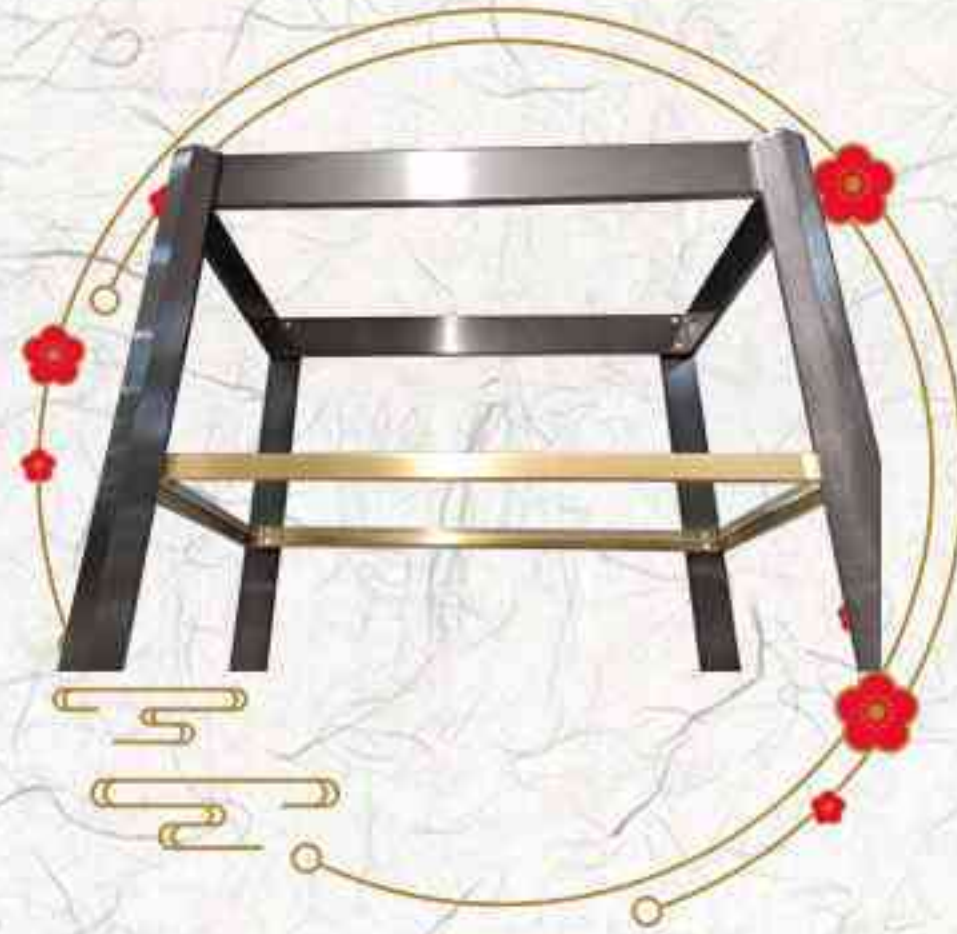

Weight: 17 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# TWILIGHT SERIES

T-XK-06

Price:275 USD

Size:1200\*430\*2200mm

Weight: 25 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# TWILIGHT SERIES

T-XK-07

Price:337 USD

Size:1200\*430\*2600mm

Weight: 31 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade

# TWILIGHT SERIES

T-XK-08

Price For Two:225 USD

Size:1000\*500\*550mm/1200\*600\*700mm

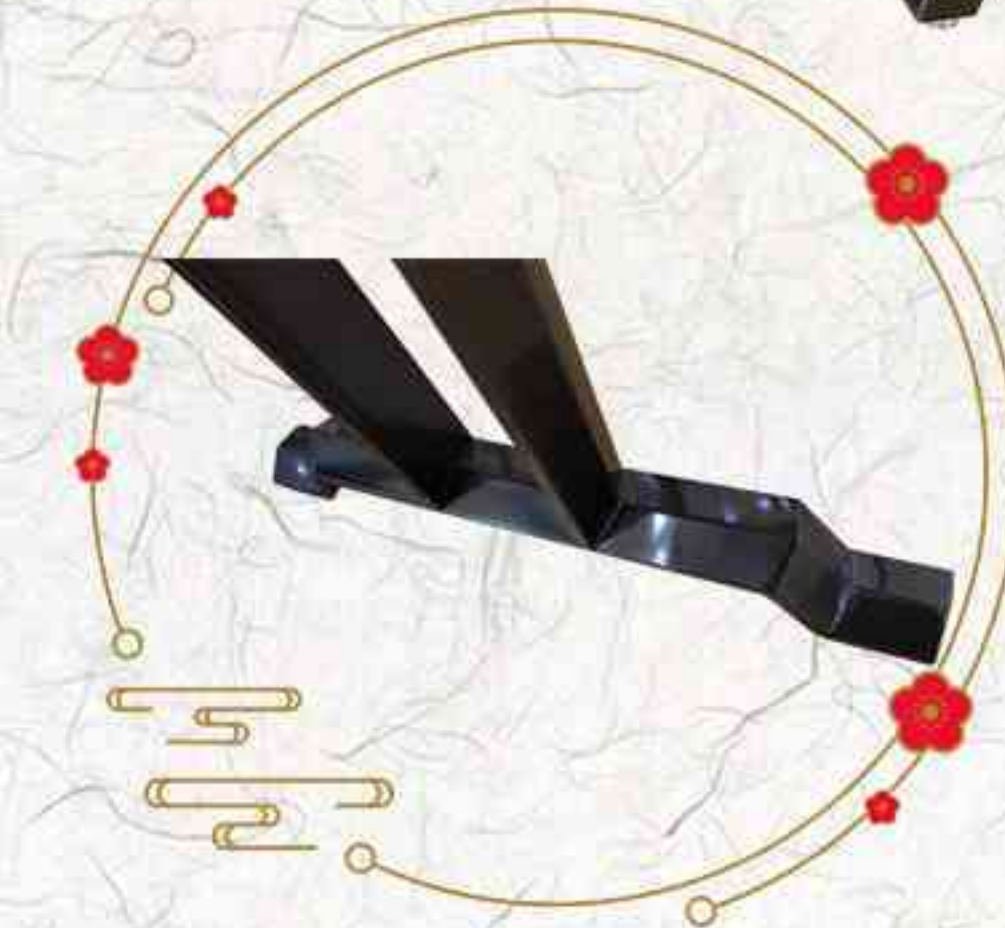

Weight: 28 KG

Material:

High pure stainless steel+ High strength iron+Wooden Board

Features:

- 1.Use high-purity stainless steel as raw material,high temperature resistance and corrosion resistance
- 2.Industry-leading welding technology, every clothing display rack welding position is treated manually
- 3.High level Electroplating Technology,improve corrosion resistance,hardness,durable,Smooth and beautiful
- 4.Wire Drawing Process,more wear resistant than ordinary stainless steel.It looks more high grade
